## **Far Eastern International Relations 2 Volumes:**

*Far Eastern International Relations* Hosea Ballou Morse, Harley Farnsworth MacNair, 1928      **South East Asia: Colonial Hist V1** Paul Kratoska, 2022-01-26 First published in 2004 The six volumes that make up this set provide an overview of colonialism in South East Asia The first volume deals with Portuguese Spanish and Dutch Imperialism before 1800 the second with empire building during the Nineteenth Century and the third with the imperial heyday in the early Twentieth Century The remaining volumes are devoted to the decline of empire covering nationalism and the Japanese challenge to the Western presence in the region and the transition to independence The authors whose works are anthologised include both official participants and scholars who wrote about events from a more detached perspective Wherever possible authors have been chosen who had first hand experience in the region Volume I includes Imperialism in South East Asia before 1800

**The Two Worlds of Nineteenth Century International Relations** Daniel M Green, 2018-11-19 This edited volume presents a new grand and global narrative for international relations IR history in the pivotal nineteenth century Typically considered by IR scholars to be a long century of relative peace after 1815 the contributors offer a reconceptualization of IR in this century arguing that it is temporally bifurcated with very different patterns of behavior in the first and second halves A mid century discontinuity a pivot period marks the transition phase in Europe and globally when in the space of a few years a shift occurred from a comparatively calm politically disconnected world under loose British free trade hegemony to one of scrambles for territory and keen interest in imperial possessions and conquest All the book's chapters deal with characterizing patterns of relations in the first half of the century or the second with two addressing the discontinuity in the middle In the first half aspects of regional orders are described in Latin America East Asia and Europe alongside crucial developmental processes missionaries and colonial expansion the agency of regionally localized actors of leading elites In the second half there is again discussion of regional developments East Asia Europe but now under the onslaught and pressures of the latter half of the century and spotlighting industrialization's impact and the role of status competition and international law In presenting this new narrative for the nineteenth century it becomes clear that an era long considered uninteresting on Eurocentric grounds is in fact crucial and pivotal in global terms This work will be of particular interest to students and scholars of the history of international relations

**Modern Far Eastern International Relations** Harley Farnsworth MacNair, Donald Frederick Lach, 1975      Millard's Review of the Far East, 1920 Vol 37 includes Special number on extraterritoriality issued June 19 1926      The CIS Handbook Patrick Heenan, Monique Lamontagne, 2013-11-26 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter

discussing the region's economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index *The Eastern Economist* Charles Hodges, 1921 *The American Review of Reviews* Albert Shaw, 1913 **Far**

China's Security Interests in the Post-Cold War Era Dr Russell Ong, Russell Ong, 2013-12-19 Concentrates on the economic and political aspects of China's security agenda which have to a certain extent been given less prominence in most security studies on China Russia and Its Northeast Asian Neighbors Kimitaka Matsuzato, 2016-12-07 As a result of the Aigun 1858 and Beijing Treaties 1860 Russia had become a participant in international relations of Northeast Asia but historiography has underestimated the presence of Russia and the USSR in this region This collection elucidates how Russia's expansion affected early Meiji Japan's policy towards Korea and the late Qing Empire's Manchurian reform Russia participated in the mega imperial system of transportation and customs control in Northern China and created a transnational community around the Chinese Eastern Railway and Harbin City The collection vividly describes daily life of the emigre Russians community in Harbin after 1917 The collection investigates mutual images between the Russians and Japanese through the prism of the descriptions of the Japanese Imperial House in Russian newspapers and memoirs written by Russian POWs in and after the Russo Japanese War and war journalism during this war The first Soviet ambassador in Japan V Kopp proposed to restore the division of spheres of interest between Russia and Japan during the tsarist era and thus conflicted People's Commissar of Foreign Affairs G Chicherin the Soviet ambassador in Beijing L Karakhan and Stalin since the latter group was more loyal to the cause of China's national liberation As a whole the collection argues that it is difficult to understand the modern history of Northeast Asia without taking the Russian factor seriously Middle East Record Volume 2, 1961 Yitzhak Oron, 1961 Asia ... United States. Department of State. External Research Division, 1964

*External Research. ER List* United States. Department of State. External Research Division, 1952 **Survey of activities - Committee on International Relations** United States. Congress. House. Committee on International Relations, 1976 *East Asia* United States Department of State. External Research Division, Apr issue lists studies in progress Oct issue completed studies Naval Policy Between the Wars, Volume II Stephen Roskill, 2016-07-30 First published in 1968 and 1976 the two volumes of this work still constitute the only authoritative study of the broad geopolitical economic and strategic factors behind the inter war development of the Royal Navy and to a great extent that of its principal rival the United States Navy Roskill conceived the work as a peacetime equivalent of the official naval histories

filling the gap between the First World War volumes and his own study of the Navy in the Second As such it is marked by the extensive use of British and American sources from which Roskill extracted shrewd and balanced conclusions that have stood the test of time Picking up the story in 1930 this volume covers the rise of the European dictatorships on the one hand alongside continuing attempts at controlling arms expenditure through diplomacy and treaties Eventually Italian German and indeed Japanese aggression diminished the prospects for peace to the point where Britain felt forced to rearm How the Navy used the precious few years leading up to the outbreak of war is a crucial section of the book and forms a fitting conclusion to this important study of the inter war years      Shaping the International Relations of the Netherlands, 1815-2000 Ruud van Dijk, Samuël Kruizinga, Vincent Kuitenbrouwer, Rimko van der Maar, 2018-02-28 This book seeks to launch a new research agenda for the historiography of Dutch foreign relations during the nineteenth and twentieth centuries It does so in two important ways First it broadens the analytical perspective to include a variety of non state actors beyond politicians and diplomats Second it focuses on the transnational connections that shaped the foreign relations of the Netherlands emphasizing the effects of post colonialism and internationalism Furthermore this essay collection highlights not only the key roles played by Dutch actors on the international scene but also serves as an important point of comparison for the activities of their counterparts in other small states      *European Economic and Political Survey* ,1928
