Atlantic Bluefish Fishery Management ,1998 *An Imperfect Offering* James Orbinski,2010-11-01 This book is a series of stories in which I ask again and again how to be in relation to the suffering of others It is a personal narrative about the political journey I have taken over the last twenty years as a humanitarian doctor as a citizen and as a man This is a story about a way of seeing that requires humility so that one can recognize the sameness of self in the other It is about the mutuality that can exist between us if we so choose I have come to see humanitarianism not as separate from politics but in relation to it and as a challenge to political choices that too often kill or allow others to be killed Speaking is the first political act It is the first act of liberty and it always implicitly involves another In speaking one inherently recognizes that I am and I am not alone In this space lies our humanity Having seen things we hope never to see confronted suffering dispassion and evil we hope never to encounter and faced deep personal torment James Orbinski still believes in the good we can be if we so choose His chosen medium is stories from his own experience a form of testimony from the front lines embodied in which are warnings hope and lessons in how we can inject humanitarian activity into our lives Being political he has discovered is not only reserved for politicians admitting imperfection is essential to compassion The crystal clarity of Orbinski s voice is matched by the urgency of his message at a

time of great political and moral uncertainty An Imperfect Offering is invaluable reading for anyone who feels he she can make a difference

New Daoism Kwan-Yuk Claire Sit,2023-10-10 The Dao that can be a road is not the eternal Dao The word Dao can be a method to talk about or can be a road to walk on yet neither meaning can convey the full significance of Dao the Primal Wisdom New Daoism analyzes the old Daoist classic Laozi also called Daodejing through the prism of the modern anthroposophic teaching of Rudolf Steiner The author Kwan Yuk Claire Sit has spent more than twenty years diligently studying these two subjects Such resolute research has enabled her to bring refreshingly new perspectives to both Daoism and Anthroposophy She cogently explains why Daoism can now be regarded as esoteric Christianity and how the practice of Daoism can lead to the mystical union with the Christ spirit within Claire Sit provides practical advice on matters such as how to manifest one s wishes She presents a so called persist resist principle what one persists in wanting will resist appearing illustrating how calmness and quietude of the mind are conducive to the fulfillment of one s goals The author s simple and plain language explores deep and subtle aspects of Dao incorporating numerous anecdotes to illustrate this path of self realization Whether a seasoned or new student of Laozi and Anthroposophy readers will find this book inspiring and informative **Just Two Seconds Beyond the Long Night** R.K. Shangloo,2015-10-06 Just Two Seconds beyond the Long Night Shimmers the Eternal Light is a Religious book in poetic form based on Biblical Facts focusing on Life after Life After death there is no end to life but one transforms into a different and new life The Book throws full Light on the subject and fear of Death Vanishes after going through this wonderful Book The author invested a pretty long time for collecting the facts and figures in order to complete this book to ensure its Authenticity So dear Readers the life does not end in this world but a better and brighter life awaits you in Heaven Thinking Through Style Michael D. Hurley,Marcus Waithe,2018-01-05 What is style and how does it relate to thought in language It has often been treated as something merely linguistic independent of thought ornamental stylishness for its own sake Or else it has been said to subserve thought by mimicking delineating or heightening ideas that are already expressed in the words This ambitious and timely book explores a third more radical possibility in which style operates as a verbal mode of thinking through Rather than figure thought as primary and pre verbal and language as a secondary delivery system style is conceived here as having the capacity to clarify or generate thinking The book s generic focus is on non fiction prose and it looks across the long nineteenth century Leading scholars survey twenty authors to show where writers who have gained reputations as either stylists or as thinkers exploit the interplay

between the what and the how of their prose The study demonstrates how celebrated stylists might after all have thoughts worth attending to and that distinguished thinkers might be enriched for us if we paid more due to their style More than reversing the conventional categories this innovative volume shows how style and thinking can be approached as a shared concern At a moment when especially in nineteenth century studies interest in style is re emerging this book reevaluates some of the most influential figures of that age re imagining the possible alliances interplays and generative tensions between thinking thinkers style and stylists
