Far East Chinese Dictionary Of Idioms Phrase:

Yuan dong Ying Ying, Ying Han shuang jie cheng yu da ci dian, 1980 遠東英英, 英漢雙解成語大辭典, 1980 This is a collection of occasional essays by Liang Shih chiu 1903-1987 the first scholar to have translated the complete works of Shakespeare into Chinese. The author turns homely things into interesting subjects producing curious vignettes from the panorama of society and reflects on the deeper meanings of life in Chinese and English. *Select Phrases in the Canton Dialect* John G. Kerr, 1888 **Select Phrases in the Canton Dialect** John Glasgow Kerr, 1889 From A Cottager's Sketchbook, Vol. 2 Liang Shih-chiu, 2006-01-15 A Cottager's Sketchbook is a collection of informal essays written by Liang Shih chiu over a span of more than four decades. The earliest pieces originally appeared in a weekly in the wartime capital of Chongqing and in the subsequent articles the author continues to ridicule human foibles and social follies. His elegant and graceful prose enriched by his liberal use of classical quotations and literary allusions is sprinkled with lampoons of contemporary life and culture. Volume II of this collection features pieces from the seventies and eighties. Liang's distinct style continues to shine but these late essays reveal a mellowness that comes with age. While the poignant sarcasm subtly and slowly shifts to a benign humor the nostalgia for his hometown becomes more and more palpable during his exile in Taiwan. Indigenous and Cultural Psychology Uichol Kim, Kuo-Shu Yang, Kwang-Kuo Hwang, 2006-09-03 It was once assumed that the bedrock concepts of psychology held true for all the world's peoples. More recently post modern approaches to research have expanded on these Western models building a psychology that takes into account the sociopolitical, historical, religious, ecological, and other indigenous factors that make every culture as well as every person as agents of their own actions. Indigenous and Cultural Psychology surveys psychological and behavioral phenomena in native context in various developing and developed countries with particular focus on Asia. An international team of 28 experts clarifies culture specific concepts such as paternalism and the Japanese concept of amae, models integrative methods of study and dispels typical misconceptions about the field and its goals. The results reflect culturally sound frames of reference while remaining rigorous, systematic, and verifiable. These approaches provide a basis for the discovery of true psychological universals. Among the topics featured: Scientific and philosophical bases of indigenous psychology; Comparisons of indigenous cultural and cross cultural psychologies; Socialization, parent-child relationship and family; The private and public self concepts from East Asia, Europe, and the Americas; Interpersonal relationships; Concepts from East Asia, Europe, and the U.S.; Factors promoting educational achievement and organizational effectiveness in Asia; The growth and indigenization of psychology in developing and developed countries; Are any values, attitudes, beliefs, and traits universal? Cross-national comparisons; The potential for indigenous psychology to lead to a global psychology. With this book the editors have captured a growing field at a crucial stage in its evolution. Indigenous and Cultural Psychology benefits students and researchers on two levels offering groundbreaking findings on understudied concepts and signaling future directions in universal knowledge. 遠東, 遠東英英
