

Far Right And Racism

Natalie Alkiviadou

Far Right And Racism:

The Far Right and Racism Adam Hibbert, 2003 Brings together the facts behind the headlines of today Explore the latest issues background and historical details up to date facts and figures and current opinions Ages 9 **The ethics of researching the far right** Antonia Vaughan, Joan Braune, Meghan Tinsley, Aurelien Mondon, 2024-05-07 At a time when far radical and extreme right politics are becoming increasingly mainstream globally sometimes with deadly consequences research in these fields is essential to understand the most effective ways to combat these dangerous ideologies Yet engaging with texts and movements that do physical and verbal violence raises a number of urgent ethical issues Until recently this has remained understudied as scholarship on the far right rarely delves explicitly and critically into the ethics of research This book seeks to remedy this significant gap in an otherwise extensive and growing literature Originating from a workshop series in 2020 in which an international group of academics at various career stages shared the ethical challenges and best practices they had developed in their research this edited collection draws together insights from these ongoing conversations offering urgent critical reflections on key ethical issues *The Rise of the Far Right in Europe* Gabriella Lazaridis, Giovanna Campani, Annie Benveniste, 2016-07-04 The results of the last European Elections of 2014 confirmed the rise of right and far right populist parties across the EU The success of a range of parties such as Denmark's Dansk Folkeparti Slovenia's Slovenska demokratska stranka France's Front National Greece's Golden Dawn the United Kingdom Independence Party Beppe Grillo's Five Star Movement in Italy and the Austrian FP has been perceived as a political wave which is transforming the face of the European Parliament and challenging at some level the hegemony of the big four well established European political forces that lead the Strasbourg's assembly the ALDE EPP S D and Greens ALE As populism has become a major issue in many EU countries this collection aims to provide a critical understanding of related trends and recommend ways in which they can be challenged both in policy and praxis by using the gender race ethnicity sexual orientation intersectionality approach This international volume combines extensive transnational comparative data analysis as well as research at discursive attitudinal and behavioural levels **Researching the Far Right** Stephen D. Ashe, Joel Busher, Graham Macklin, Aaron Winter, 2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with

an interest in understanding the many manifestations of the far right and cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature *Legal Challenges to the Far-Right* Natalie Alkiviadou,2019-11-22 The work considers the international and European obligations of the UK in the realm of challenging the far right and assesses the extent to which it adheres to them It looks at the role of criminal law in tackling hate speech and hate crime and assesses how English law deals with political parties which may deviate from agreed norms and principles such as non discrimination The legal analysis is placed within a contextual framework of far right parties in the United Kingdom and also incorporates a definitional framework in terms of how the law defines themes relevant to challenging the far right such as racial discrimination terrorism and extremism The book presents a valuable guide for students academics and policy makers in the areas of International Human Rights Law Criminal Law Comparative Constitutional Law National Security Law Comparative Politics and Terrorism Studies *The Sociology of Violent Extremism* Suraj Lakhani,Amarnath Amarasingam,2025 The Sociology of Violent Extremism is an essential collection addressing key challenges in studying violent extremism Since 9 11 terrorism literature has expanded aiming to understand prevent and predict evolving threats However early research often lacked academic rigor and empirical depth As the field has developed more thorough studies have appeared but the focus is often reactive centred on recent attacks and ideological waves and tends to remain isolated from other disciplines The urgent need for policy relevance has limited deep theoretical exploration Despite these challenges valuable contributions have come from criminology psychology sociology social psychology and communications theory Yet sociological theory is still underused in terrorism studies The Sociology of Violent Extremism highlights the importance of a sociological approach to understanding violent extremism It promotes using established theoretical frameworks to gain deeper insights into the social dynamics of these phenomena This book features interdisciplinary case studies and theoretical developments showing the value of sociological perspectives in addressing current issues in violent extremism The book aims to provide researchers with a theoretical toolbox that can be deployed in their own work encouraging the use of sociological theories to improve the understanding of violent extremism and develop effective countermeasures It emphasizes viewing violent extremism as a result of complex social processes embedded in societal structures Provided by publisher *The Far-Right Discourse of Multiculturalism in Intergroup Interactions* Katarina Pettersson,Emma Nortio,2022-03-02 This book employs discursive psychology to examine how far right discourse on issues related to multiculturalism is received interpreted adapted and contested in political rhetoric and informal talk It brings together the latest research from sociology and media studies concerning the circulation of far right messages in the era of digitalization and the hybrid media system and critical discursive psychology research into political and lay discourse pertaining to multiculturalism Drawing on empirical material from the Nordic context allows for an analysis of political

discourse within societies in which a strong tradition of social democratic welfare states now exists alongside the rise of populist and far right parties Operating in countries with comparatively high national internet and social media penetration this book explores the extent to which the success of these parties is linked to their skilful use of social media in order to mobilise popular support for their political agendas The collection s multilevel perspective aims to further the understanding of how the anti immigration and anti multiculturalist ideologies propagated by these parties contributes to the mainstreaming of their rhetoric among the political elite as well as to the societal normalization of nationalist and xenophobic discourse In doing so it will provide fresh insights for students and scholars of sociology social psychology discourse analysis media and communication and political science *The Church, The Far Right, and The Claim to Christianity* Helen

Paynter,2024-08-30 In recent years far right organisations have invaded mosques across the UK with army issued Bibles declaring their actions a Christian crusade Others have paraded large crosses through Muslim majority areas and invaded migrant hotels harassing residents in their so called crusade Far right appeals to clean up society and restore Christian Britain can be quite attractive to some Christians However what they may fail to appreciate is that this rhetoric may be cynically employed by those whose allegiance and values are quite contrary to Christian ones Despite all this the response from official church sources in the UK has been notably subdued and resources to help churches address hate crimes or racial tensions are scarce This book aims to fill that void Bringing together insights from theologians church practitioners and leading experts this volume examines the church s response to the rise of far right thinking in UK society and explores how it can respond more effectively With a foreword by David Gushee this book offers critical and constructive perspectives for the church to confront these challenges Normalization of the Global Far Right Ulrike M. Vieten,Scott

Poynting,2022-09-26 Exploring how the boundary between the extremist far right and centre right parties and politics became blurred *Normalization of the Global Far Right* deconstructs one of the most pressing issues of today the rise of the far right **A Fortified Far Right?** Katalin Petho-Kiss,Rohan Gunaratna,2024-04-30 Petho Kiss and Gunaratna understand the nature of the threat posed by the far right because of their findings and they propose effective provisions and mechanisms for detecting and countering it The book undertakes a consistent procession and empirical examination of available information to arrive at the recognition that in order to dissolve the complexity of the associated threat we need to scrutinize the functioning of far right threat groups In depth and consistent analysis on their mode of operation and mindset enables us to identify ways to detect and counter their malicious efforts and activities The theoretical framework for the analysis lies upon the concept of wave theory The main question that this book examines is whether far right terrorism constitutes a new wave of global terrorism One question emerges from this statement that requires further elaboration Is far right terrorism a novel wave of terrorism If yes how is it novel and what are the novelties or developments in it This book is for scholars as well as practitioners in the counter terrorism CT and the prevention countering violent extremism PCVE field

Through specific case studies students studying CT and or PCVE could gain insight into the operational functionalities of far right threat groups This may help them to get a more accurate understanding of the threat posed by these entities Examining the recruitment funding communication practices and modus operandi of worrisome threat actors equips us to design the most effective countermeasures and identify the hiatuses in applicable legislative regimes Exposing the Right and Fighting for Democracy Pam Chamberlain,Matthew N. Lyons,Abby Scher,Spencer Sunshine,2021-09-29 This book celebrates the life and work of scholar activist Chip Berlet His contributions over four decades have had broad ranging impacts on activists independent intellectuals and academics from think tanks and social movements to generations of scholars Berlet s work over the decades has covered a wide range of topics from the Christian Right armed militias social movement theory and white supremacy to conspiracism civil liberties and government surveillance This book features contributions reflecting on many of these topics by leading scholars and activists who have been inspired by his work and example This book will be of great interest to scholars students and activists within anti racist anti fascist and progressive social movements

Extreme Right Wing Political Violence and Terrorism Max Taylor,Donald Holbrook,P.M. Currie,2013-02-14 In this collection senior experts explore all aspects of extreme right wing political violence from the nature of the threat processes of engagement and ideology to the lessons that can be drawn from exiting such engagement Further right wing activism and political violence are compared with Jihadi violence and engagement Also the European experience is placed within a greater framework including that of the United States and the Arab Spring The book opens with an essay on U S far right groups investigating their origins and processes of recruitment It then delves into violence against UK Mosques and Islamic centers the relationship between Ulster loyalism and far right extremism the Dutch extremist landscape and the July 2011 Norway attacks Also discussed are how narratives of violence are built and justified at what point do individuals join into violence and how differently states respond to left wing vs right wing extremism This comparative work offers a unique look into the very nature of right wing extremism and will be a must read for anyone studying political violence and terrorism **The**

Far-Right in International and European Law Natalie Alkiviadou,2019-04-18 Since the Second World War the international community has sought to prevent the repetition of destructive far right forces by establishing institutions such as the United Nations and by adopting documents such as the Universal Declaration of Human Rights Jurisprudence and conventions directly prohibit far right speech and expression Nevertheless recently violent far right entities such as Golden Dawn of Greece have received unprecedented electoral support xenophobic parties have done spectacularly well in elections and countries such as Hungary and Poland are being led by right wing populists who are bringing constitutional upheaval and violating basic elements of doctrines such as the rule of law In light of this current reality this book critically assesses the international and European tools available for States to regulate the far right It conducts the analysis through a militant democracy lens This doctrine has been considered in several arenas as a concept more generally in the sphere of the

European Convention on Human Rights in relation to particular freedoms such as that of association and as a tool for challenging the far right movement through the spectrum of political science However this doctrine has not yet been applied within a legal assessment of challenging the far right as a single entity After analysing the aims objectives scope and possibility of shortcomings in international and European law the book looks at what state obligations arise from these laws It then assesses how freedom of opinion and expression freedom of association and freedom of assembly are provided for in international and European law and explores what limitation grounds exist which are directly relevant to the regulation of the far right The issue of the far right is a pressing one on the agenda of politicians academics civil society and other groups in Europe and beyond As such this book will appeal to those with an interest in International European or Human rights Law and political science

The Far-Right in Contemporary Australia Mario Peucker, Debra Smith, 2019-07-15 This book is the first to elaborate on radical and extreme right movements in contemporary Australia It brings together leading scholars to present cutting edge research on various facets and manifestations of Australia's diverse far right which has gained unprecedented public presence and visibility since the mid 2010s The thematic breadth of the chapters in this volume reflects the complexity of the far right in Australia ranging from the attitudes of far right populist party voters and the role of far right groups in anti mosque protests to online messaging and rhetoric of radical and extreme right wing movements The contributions are theoretically grounded and come from a range of disciplines including media and cultural studies sociology politics and urban studies exploring issue of far right activism on the micro and macro level with both qualitative and quantitative research methods

Faith, folk and the far right Dominic Alessio, Robert J. Wallis, 2025-06-24 This book offers the first examination of extremist Heathenry and occultism in the UK and how anti racist Heathens act to counter this discourse It explores the spectrum of Heathen practice today and the historical origins of racist Heathenry in nineteenth century Germanic romanticism and twentieth century folkish nationalism Treating each of the three main extremist Heathen organisations the book extends the analysis to the neo Nazi occult organization the Order of the Nine Angles O9A and the wider racist Heathen cultural scene in Black Metal and Dark Folk music The authors balance this with discussion of how inclusivist Heathens are countering this discourse from visible protests at far right rallies to inter faith forums and an active presence on social media platforms The book makes an important contribution to the intersecting fields of new religious movements nationalist history and racist politics

Connective Action and the Rise of the Far-Right Steven Livingston, Michael Miller, 2025-05-30 This is an open access title available under the terms of a CC BY NC ND 4.0 International license It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations In *Connective Action and the Rise of the Far Right* Platforms Politics and the Crisis of Democracy the contributors explain democratic backsliding in the 21st century through what it terms a cross disciplinary engagement between democracy scholars and data scientists The former describe the necessary social and economic conditions for a

healthy democracy while the latter tell us something about the role of digital platforms in the realization or not of these same conditions In turn volume editors Steven Livingston and Michael Miller bring these two broad research traditions together to define a new analytical framework for understanding the potential demise of contemporary democracy The chapters argue that the current threat to democracy comes from the organization of illiberal movements both on and offline Put differently democratic backsliding is the consequence of far right connective action In this process digital surrogate organizations or networks mix with more conventional organizations aligned with conservative parties themselves facing a uniquely precarious position in today s democracies Democracy scholars or what the editors of this book call institutionalists emphasize the critical role of economics elites and organized interests and look outward into society when searching for an explanation of backsliding The technocentric model of democratic backsliding looks to digital networks and their effects on individual level cognitive processes To date despite their shared intellectual focus on democracy there has been little overlap between these two fields of study The chapters in the book collectively assess the effects of digitized public communication on democracy without losing sight of social and economic power structures

Raced Markets Lisa Tilley,Robbie Shilliam,2021-05-30 Despite rich archives of work on race and the global economy most notably by scholars of colour and Global South intellectuals the discipline of Political Economy has largely avoided an honest confrontation with how race works within the domains it studies not least within markets By way of corrective this book draws together scholarship on the material function of race at various scales in the global political economy The collective provocation of the contributors to this volume is that race has been integral to the formation of capitalism as extensively laid out by the racial capitalism literature and takes on new forms in the novel market spaces of neoliberalism The chapters within this volume also reinforce that the current political conjuncture marked by the ascension of neo fascist power cannot be defined by an exceptional intrusion of racism nor can its racism be dismissed as epiphenomenal Raced Markets will be of great value to scholars students and researchers interested in political economy and racial capitalism as well as those willing to explore how race takes on new forms in the novel market spaces of contemporary neoliberalism The chapters in this book were originally published as a special issue of the New Political Economy

Religious Othering Mark Juergensmeyer,Kathleen Moore,Dominic Sachsenmaier,2022-09-19 Perhaps the most disturbing feature of globalization is the emergence of a new tribalism an attitude expressed in the common phrase thank God we re not like them Religious Othering Global Dimensions explores this political and religious phenomenon Why are these new xenophobic movements erupting around the world at this moment in history and what are the features of religious identity that seem to appeal to them How do we make sense of the strident forms of religious exclusion that have been a part of the past and re emerged around the world in recent years This book brings together research scholars from different fields who have had to answer these questions in their own ground breaking research on religious othering movements Written in an engaging personal style these essays share these

scholars attempts to get inside the worldviews of these neo nationalists through such research approaches as participant observation empathetic interviews and close textual reading Religious Othering Global Dimensions is of interest to students and scholars in religious studies and the social sciences In addition anyone concerned about the rise of religious extremism in the contemporary world will be fascinated with these journeys into the mindsets of dogmatic and sometimes violent religious groups

The Women of the Far Right Eviane Leidig, 2023-09-19 On mainstream social media platforms far right women make extremism relatable They share Instagram stories about organic foods that help pregnant women propagate the pure white race and post behind the scenes selfies at antivaccination rallies These social media personalities model a feminine lifestyle at once promoting their personal brands and radicalizing their followers Amid discussions of issues like dating marriage and family life they call on women to become housewives to counteract the corrosive effects of feminism and champion the Great Replacement conspiracy theory which motivated massacres in Christchurch El Paso and Buffalo Eviane Leidig offers an in depth look into the world of far right women influencers exploring the digital lives they cultivate as they seek new recruits for white nationalism Going beyond stereotypes of the typical male white supremacist she uncovers how young attractive women are playing key roles as propagandists organizers fundraisers and entrepreneurs Leidig argues that far right women are marketing themselves as authentic and accessible in order to reach new followers and spread a hateful ideology This insidious and highly gendered strategy takes advantage of the structure of social media platforms where far right women influencers content is shared with and promoted to mainstream audiences Providing much needed expertise on gender and the far right this timely and accessible book also details online and offline approaches to countering extremism

Right-wing Extremism in the Twenty-first Century Peter Merkl, Weinberg LEONARD, 2004-08-02 Revising the 1997 first edition this study covers events that occurred in Oldham and Bradford after the year 2000 The rise of right wing extremist groups is put under scrutiny in a number of states including Britain Germany Austria Russia and France

Far Right And Racism Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Far Right And Racism PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing

financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Far Right And Racism PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Far Right And Racism free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Far Right And Racism Books

1. Where can I buy Far Right And Racism books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Far Right And Racism book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
