Fascism And The Industrial Leadership In Italy 1919 1940

Vera Zamagni

Fascism And The Industrial Leadership In Italy 1919 1940:

Fascism and the Industrial Leadership in Italy, 1919-1940 Roland Sarti, 1971 *Fascism & the Industrial Leadership in Italy* Roland Sarti, 1971 *Fascist Italy and the League of Nations, 1922-1935* Elisabetta Tollardo, 2016-10-27 This book analyses the relationship between Fascist Italy and the League of Nations in the interwar years By uncovering the traces of those Italians working in the organization this volume investigates Fascist Italy's membership of the League and explores the dynamics between nationalism and internationalism in Geneva The relationship between Fascist Italy and the League of Nations was contradictory shifting from active collaboration to open disagreement Previous literature has not reflected this oscillation in policy focusing disproportionately on the problems Italy caused for the League such as the Ethiopian crisis Yet Fascist Italy remained in the League for more than fifteen years and was the third largest power within the institution How did a Fascist dictatorship fit into an organization espousing principles of liberal internationalism By using archival sources from four countries Elisabetta Tollardo shows that Fascist Italy was much more concerned with and involved in the League than currently believed **The Oxford Illustrated History of Italy** George Holmes, 1997 Traces the history of Italy from the Roman Empire to the present and examines the connections between Italian society politics and culture **Fascist Italy and the Middle East, 1933-40** N. Arielli, 2010-06-09 An examination of why and how Fascist Italy sought to increase its influence in the Middle East and why Italian efforts ultimately failed Offering fresh insights into Fascist Italy's foreign and colonial policies this book makes an important contribution to the complex history of relations between Europe and the Arab world *The Fascist Experience in Italy* John Pollard, 2005-07-22 This source book examines the development of Italian Fascism and surveys the themes and issues of the movement It spans from the emergence of the united Italian state in the nineteenth century to the post war aftermath of fascism It provides analysis of propaganda and Mussolini's journalism new documentary material previously unavailable in English an extensive range of other source material including images thematic coverage of major topics such as the transformation of agrarian and urban society analysis of the political social and economic status of Italy the legacy of fascism in modern Italy John Pollard also includes extensive notes on sources as well as a glossary and guide to further reading **The Economic History of Italy 1860-1990** Vera Zamagni, 1993-10-28 This book gives a full account of the economic and social history of Italy since unification 1860 with an introduction covering the previous period since the Middle Ages The Economic History of Italy represents a scholarly and authoritative account of Italy's progress from a rural economy to an industrialized nation The book makes a broad division of the period into three parts the take off 1860 1913 the consolidation in the midst of two wars and a world depression 1914 47 and the great expansion 1948 1990 Professor Zamagni traces the growth of industrialization and argues that despite several advanced areas Italy only became an industrialized nation after the Second World War and that during the 1980s the South was still clearly behind the rest of the country Zamagni analyses data both from a macroeconomic position in looking at the growth of the finance sector

or the role of the State and from a microeconomic position when she draws conclusions from the changing population structure or from the actions of individual businesses Professor Zamagni reveals that even though the population more than doubled during this time the level of national income rose 19 fold to move Italy from a peripheral status in Europe to a central position as a prosperous country A central theme of the book is Professor Zamagni's argument that the Italian economy has been successful not by any great individuality of its own but by being flexible enough to incorporate the successes of other countries Japan's integrated business network for example or Germany's financial structure She places the industrialization of Italy in the international context by comparing Italy's GDP and other measures of prosperity at different times to the USA Japan the UK France and Germany The book is based on original field work by the author and the many detailed but small scale studies existing in Italian Quantitative trends are described in more than 70 tables of data while the book provides appendices containing chronologies of main events in various sectors and biographies

An Industrial Geography of Italy Russell King, 2015-03-27 At the time this book was originally published in 1985 Italy was one of Europe's leading industrial nations This volume provides a comprehensive overview of Italian industry during the 1980s It introduces Italy's physical and human resources and outlines the historical development of the industry It then examines the major sectors of Italian industry and then describes the different regions of the country and the striking differences between them are explored and discussed

Mussolini Richard J. B. Bosworth, 2014-03-04 In 1945 disguised in German greatcoat and helmet Mussolini attempted to escape from the advancing Allied armies Unfortunately for him the convoy of which he was part was stopped by partisans and his features made so familiar by Fascist propaganda gave him away Within 24 hours he was executed by his captors joining those he sent early to their graves as an outcome of his tyranny at least one million people He was one of the tyrant killers who so scarred interwar Europe but we cannot properly understand him or his regime by any simple equation with Hitler or Stalin Like them his life began modestly in the provinces unlike them he maintained a traditional male family life including both wife and mistresses and sought in his way to be an intellectual He was cruel though not the cruelist his racism existed but never without the consistency and vigor that would have made him a good recruit for the SS He sought an empire but in the most part his was of the old fashioned costly nineteenth century variety not a racial or ideological imperium And self evidently Italian society was not German or Russian the particular patterns of that society shaped his dictatorship Bosworth's *Mussolini* allows us to come closer than ever before to an appreciation of the life and actions of the man and of the political world and society within which he operated With extraordinary skill and vividness drawing on a huge range of sources this biography paints a picture of brutality and failure yet one tempered with an understanding of Mussolini as a human being not so different from many of his contemporaries

Companion to Historiography Michael Bentley, 2006-02-27 The *Companion to Historiography* is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed

the creation of historical perspectives Contributed by a distinguished panel of academics each essay conveys in direct jargon free language a genuinely international wide angled view of the ideas traditions and institutions that lie behind the contemporary urgency of world history Companion to Historiography Michael Bentley,2006-02-27 This Companion presents a clear thematic overview of historiography explored through a series of stimulating and wide ranging articles Compiled by experts in the field the Companion is fully indexed for ease of access *The Human Tradition in Modern Europe, 1750 to the Present* Cora Ann Granata,Cheryl A. Koos,2008 This engaging and humanizing text traces the development of Europe since the mid eighteenth century through the lives of people of the time Capturing key moments themes and events in the continent s turbulent modern past the book explores how ordinary Europeans both shaped their societies and were affected by larger historical processes By focusing on the lives of individual actors both famous and obscure students can gain a sense for how the well known revolutions wars and social transformations of the modern era were experienced in private homes work places political forums and on battlefields throughout the region Fittingly the book opens with the French Revolution and concludes with the fall of the Berlin Wall and the collapse of Eastern European communism Throughout the contributors use compelling biographies to examine many of the major events and developments in European history including the age of reaction and revolutions in the early nineteenth century industrialization Victorianism new imperialism fin de si cle culture the first and second World Wars the Russian Revolution Italian fascism Nazism the Holocaust and decolonization Americanization and the 1968 youth revolts Contributions by Karin Breuer Helen Harden Chenut John Cox Stephen P Frank Cora Granata Maura E Hametz Michael Kilburn Cheryl A Koos Robert A McLain Karen Petrone Paolo Scrivano Alyssa Goldstein Sepinwall Matthew G Stanard Michele M Strong and Patricia Tilburg *The Fascist Persuasion in Radical Politics* A. James Gregor,2015-03-08 How valid are the assertions of contemporary radicals who insist that they are Marxists A James Gregor measures the distance that separates today s radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Wealth and The Wealthy in the Modern World** W.D. Rubinstein,2024-01-01 First published in 1980 *Wealth and The Wealthy in the Modern World* looks at the careers of the very wealthy and the extent of wealth holding and wealth distribution in the major Western nations since the Industrial Revolution Each essay examines how

wealth was created controlled and maintained in each country It also considers the relationship between wealthy persons and the rest of society and the divisions amongst the wealthy class Social mobility into top wealth and income brackets is also discussed as are the idiosyncratic features of wealth holding in each society Together these essays provide a broad yet detailed portrait of a social class which has had extraordinary influence on shaping the social history of the Western world in the nineteenth and twentieth centuries This book will be of interest to students of economics political science and development studies

Aesthetic Modernism and Masculinity in Fascist Italy John Champagne,2013 Aesthetic Modernism and Masculinity in Fascist Italy is an interdisciplinary historical re reading of a series of representative texts that complicate our current understanding of the portrayal of masculinity in the Italian fascist era Champagne seeks to evaluate how the aesthetic analysis of the artifacts explored offer a more sophisticated and nuanced understanding of what world politics is what is at stake when something like masculinity is rendered as being an element of world politics and how such an understanding differs from more orthodox cultural analyses common to international relations

Labor and Imperial Democracy in Prewar Japan Andrew Gordon,1991-02-20 Labor and Imperial Democracy in Prewar Japan examines the political role played by working men and women in prewar Tokyo and offers a reinterpretation of the broader dynamics of Japan s prewar political history Gordon argues that such phenomena as riots labor disputes and union organizing can best be understood as part of an early twentieth century movement for imperial democracy shaped by the nineteenth century drive to promote capitalism and build a modern nation and empire When the propertied educated leaders of this movement gained a share of power in the 1920s they disagreed on how far to go toward incorporating working men and women into an expanded body politic For their part workers became ambivalent toward working within the imperial democratic system In this context the intense polarization of laborers and owners during the Depression helped ultimately to destroy the legitimacy of imperial democracy Gordon suggests that the thought and behavior of Japanese workers both reflected and furthered the intense concern with popular participation and national power that has marked Japan s modern history He points to a post World War II legacy for imperial democracy in both the organization of the working class movement and the popular willingness to see GNP growth as an index of national glory Importantly Gordon shows how historians might reconsider the roles of tenant farmers students and female activists for example in the rise and transformation of imperial democracy

Fascist Italy in the Age of Corporatism Alessio Gagliardi,2024-03-29 The interwar period was marked in Europe by the rediscovery of corporatism as a possible solution to the crucial problems of modern mass society This was the result of general changes across industrialised countries in the relationship between the state and social groups In Italy it took on a uniquely authoritarian shape Fascist regime became the cradle of a new model of corporatism a third way alternative to both capitalism and communism destined to influence both political juridical and economic debate and similar legislative experiments undertaken by other countries be they democratic or authoritarian The book offers an overview of corporatism

in Fascist Italy It examines not only the ideology but also the acts and real activities of corporative institutions corporazioni It dwells upon internal debates the political and institutional importance acquired by corporative institutions in the Fascist regime and the behaviour of entrepreneurial organizations and labour unions At the same time the book highlights the role of Italy in the transnational circulation of the corporative ideal by reconstructing both the considerable influence of Mussolini's regime in a range of different political and geographical contexts and the way in which the authorities in Rome turned to coeval international experiences

Fascism: The Total Society H.R. Morgan, 2013-09-09 After years of research American syndicalist author H R Morgan presents a collection of the key statements made by the early Fascist leaders and their best thinkers Included are criticisms of and solutions to all of the problems troubling the world today Both the causes of global misery and the reasons for their having happened are plainly mentioned The solutions are simply stated and strait forward If you want to know why things today are the way they are read this book Contained within its pages is a sweeping panorama of pertinent statements made by those realists of the twentieth century that is actually from the 1880s on up to today Fascism is not racism says Morgan Fascism is realism It is a doctrine of realistic social and economic policies for today's world It is neither right wing or left wing it is the extreme radical center It is thinking outside of the box as they say The book begins with a very informative introduction containing a large amount of historical background It is however preceded with a preface of equally historical and semi biographical importance Afterward is the main text called the Codex The Codex is a long anthology of excerpts quotes paraphrases citations and commentary The book ends with a final word by Morgan Also included is a complete bibliography and index It is recommended for first or second year political science majors and for all those who are interested in the true meaning of Fascism for our time rather than what they've seen and heard on television and in the mass media

Hegemony and Revolution Walter L. Adamson, 1983-01-01 As a result of his inquiry into the nature of class culture and the state Antonio Gramsci became one of the most influential Marxist theorists *Hegemony and Revolution* is the first full fledged study of Gramsci's Prison Notebooks in the light of his pre prison career as a socialist and communist militant and a highly original Marxist intellectual Walter Adamson shows how Gramsci's concepts of revolution grew out of his experience with the Turin worker councils of 1919-1920 as well as his experience combatting the Fascist movement For Gramsci revolution meant the steady ascension of a mass based educated and organized collective will in which the final seizure of power would be the climax of a broader educative process Success depended on countering not just the coercive power of the existing economic and political order but also the cultural hegemony of the state A counter hegemony for Gramsci required the leadership of an organized political party but at its core lay his conviction that the common people were capable of self enlightenment and could produce an alternative conception of the world that challenged the prevailing hegemonic culture Adamson shows how these ideas which Gramsci developed prior to his imprisonment led him to a highly original concept of subaltern class movements that cohere not just on the basis of economic interest but by virtue of religious

ideological regional folkloric and other sorts of cultural ties as well These ideas of Gramsci have had enormous influence on a wide variety of subsequent cultural theories including postcolonialism and Foucault style analyses of discursive practices

The Routledge Companion to World History since 1914 Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history
