Fashioning A Healthier Religion

Christopher G. White

Fashioning A Healthier Religion:

Fashioning a Healthier Religion Thomas Aldworth, 1992 *Healthy Religion* Walter Kania, 2006-07-26 Dr Jacob Bronowski in his book and PBS documentary series entitled *The Ascent of Man* spoke of unhealthy religion when he stood before the ashes of his relatives at the Auschwitz crematorium He said This is how men behave when they believe they have absolute knowledge People seek simple answers and absolute knowledge but anyone or any religion that claims absolute knowledge or absolute and infallible religious sources and tells people what to think is a clear carrier and manifestation of unhealthy religion Is Healthy Religion an oxymoron or is it achievable in one's life This research based document provides you with the means for identifying what is healthy and what is unhealthy in religion You may be surprised to discover that what you believe and the manner in which you practice your religion may be more a function of your personality than of your religion in the way in which your personality attaches itself and expresses itself in your religion Literal dogmatic religious postures of fundamental and evangelical groups are manifestations of close minded authoritarianism They also reflect militant and extremist dictates for one to follow The manipulation and mind control methods of fear guilt and shame used with people to secure membership and provide group consensus in belief violate the very essence of religion and the basic foundations of what is Healthy Religion Certain attributes of healthy personality produce healthy religion and healthy religion promotes healthy personality You will uncover the ingredients and characteristics of both in this book Visit his website walterkaniaphd.com **Unsettled Minds** Christopher G. White, 2009 Christopher White's *Unsettled Minds* makes clear how important new psychologies of religion were for those Protestants navigating their way out of Calvinism and evangelical revivalism Just as his religious liberals remapped mind and spirit White has remapped the historical terrain of religion and psychology in American culture He spotlights not a cultural world absorbed with ecstasy altered states or mythic depths but instead one riveted on measured stages of spiritual growth and effective habits of self discipline Leigh Eric Schmidt Princeton University An important contribution to the growing literature on the history of religious experience and of the distinctive dynamics of Christian interiority in the modern U S Robert Orsi Northwestern University Today when brain researchers and psychologists are again attempting to explain religion this remarkable study suggests that we should not be surprised to see religious believers creatively embracing new scientific findings and making use of them for religious purposes unexpected by scientists Ann Taves author of *Fits Trances and Visions* *Shaping a Healthy Religion* Thomas Aldworth, 1985-02 The Publishers' Trade List Annual , 1883 *The Varieties of Religious Experience* William James, 1902 *The Varieties of Religious Experience* is certainly the most notable of all books in the field of the psychology of religion and probably destined to be the most influential one written on religion in the twentieth century said Walter Houston Clark in *Psychology Today* The book was an immediate bestseller upon its publication in June 1902 Reflecting the pluralistic views of psychologist turned philosopher William James it posits that individual religious experiences rather than the tenets of

organized religions form the backbone of religious life James s discussion of conversion repentance mysticism and hope of reward and fears of punishment in the hereafter as well as his observations on the religious experiences of such diverse thinkers as Voltaire Whitman Emerson Luther Tolstoy and others all support his thesis James s characteristic humor his ability to put down the pretentious and to be unpretentious and his willingness to take some risks in his choices of anecdotal data or provocative theories are all apparent in the book noted Professor Martin E Marty A reader will come away with more reasons to raise new questions than to feel that old ones have been resolved Science and Religion Rogene A.

Buchholz,2023-02-15 Science and religion are two different worldviews that involve different methods of attaining truth one based on evidence using a scientific method to examine the natural world and the other based on belief in certain religious precepts often involving a supernatural dimension based on a holy book in some cases and on the authority of religious leaders This book examines the nature of religion and the role it plays in society along with unresolved problems that have existed for some time The nature of science is then discussed along with the scientific method and problems with science that have not been resolved The origins of science and religion are then examined and the relationship of these two worldviews and the relationship of science to the supernatural Finally the future of religion is examined along with its ongoing relationship to science The real battle between science and religion involves the question of who gets to decide the truth about the world we live in and our status as human beings in this world The answer to that question is not obvious but has enormous implications for human life on a planet that is under stress and may not be able to support human life for much longer as our actions have consequences that are now becoming all too apparent **Religious Telescope** ,1900

The Varieties of Religious Experience William James,2012-07-26 Is life worth living Yes a thousand times yes when the world still holds such spirits as Professor James Gertrude Stein A classic of American thought William James The Varieties of Religious Experience is an extraordinary study of human spirituality in all its forms and one of the most profound works of Psychology ever written When the book was published in 1902 the study of the human mind was a thrillingly new field of scientific enquiry James was one of the first to seriously examine the psychology of religious faith and where he led both Jung and Freud would follow Yet for all its historical significance this is a book full of humanity wit and some deeply personal stories of revelation religious devotion and mystical experience The Routledge Classics edition of The Varieties of Religious Experience makes available in paperback for the first time the Centenary Edition published by Routledge in 2002 with new introductions on the historical and contemporary significance of James work and a foreword by the author s grandson Micky James **Reinventing Religion** Peter Moore,2020-10-07 Many of us proponents and critics alike commonly make assumptions about religion We may presume that religion is mainly about having beliefs or being good or that it is concerned with spiritual rather than material issues or that religious ideas and practices are meant to be somehow timeless Such views Peter Moore argues work only to obscure the truth that religion is essentially humanity s quest to become fully human This

enlightening exposition questions our very understanding of faith and contends that religions should remain open to reinventing themselves both practically and intellectually rediscovering neglected traditions and finding new ways forward Written with subtlety and passion this book gets to the heart of ongoing debates about the validity and purpose of religion

Varieties of Religious Experience William James, 2018-10-17 Classic study of spirituality by the influential psychologist examines the meaning of the term divine reality of the unseen the divided self and the process of its unification mysticism more *Selected Work of William James (Memories and Studies/The Varieties of Religious Experience: A Study In Human Nature) (Set of 2 Books) Vol 1* William James, 2022-06-06 Selected Work of William James Memories and Studies The Varieties of Religious Experience A Study in Human Nature Set of 2 Books Vol 1 by William James Memories and Studies Delve into the mind of the renowned philosopher and psychologist William James as he reflects on his memories and intellectual pursuits This collection offers a glimpse into the personal experiences and intellectual journey of one of the most influential thinkers of his time The Varieties of Religious Experience A Study in Human Nature In this seminal work William James explores the diversity of religious experiences across cultures and individuals Through his insightful analysis James provides a nuanced understanding of the psychological and philosophical aspects of religious beliefs and practices This set of two books by William James showcases the breadth and depth of his intellectual contributions From introspective reflections to groundbreaking studies on human nature and religious experiences James's work continues to resonate with readers and scholars alike Whether you are interested in the exploration of personal memories and thoughts or seeking a profound understanding of religious experiences this collection promises to enrich your intellectual journey Experience the brilliance of William James's mind through *Memories and Studies* and *The Varieties of Religious Experience A Study in Human Nature*

[Healthy Conflict in Contemporary American Society](#) Jason A. Springs,2018-04-12 US citizens perceive their society to be one of the most diverse and religiously tolerant in the world today Yet seemingly intractable religious intolerance and moral conflict abound throughout contemporary US public life from abortion law battles same sex marriage post 9 11 Islamophobia public school curriculum controversies to moral and religious dimensions of the Black Lives Matter and Occupy Wall Street movements

and Tea Party populism Healthy Conflict in Contemporary American Society develops an approach to democratic discourse and coalition building across deep moral and religious divisions Drawing on conflict transformation in peace studies recent American pragmatist thought and models of agonistic democracy Jason Springs argues that in circumstances riven with conflict between strong religious identities and deep moral and political commitments productive engagement may depend on thinking creatively about how to constructively utilize conflict and intolerance The result is an approach oriented by the recognition of conflict as a constituent and life giving feature of social and political relationships **The Religious Life** Donald Capps,2016-09-29 William James called his classic work The Varieties of Religious Experience a study in human nature For James it is a fundamental feature of human nature that we have a conscious and a subconscious mind and that the subconscious mind is deeply implicated in the religious life especially in conversion and other experiences of spiritual enlightenment In The Religious Life Donald Capps addresses religious melancholy the divided self and discordant personality religious conversion the saintly character and the prayerful consciousness He contrasts the cases of two clergymen one deeply troubled the other exemplary of the spiritual person Aimed at general readers Capps work makes William James a popular author in his own day accessible to a modern audience *The varieties of religious experience.
