Gendered Citizenship and the Politics of Representation Brita Ytre-Arne, Kari Jegerstedt, 2016-08-26 This book sheds new light on gender based inequalities in a globalized world Interdisciplinary in scope it reveals new avenues of research on gendered citizenship analysing the possibilities and pitfalls of being represented and of representing someone Drawing on contexts both historical and contemporary it queries what it means to have access to representation which power structures regulate and produce representation and who counts as a citizen Situating its arguments in the global struggle for hegemony it answers such thought provoking questions as whether one can represent someone or be represented without recourse to citizenship and conversely whether it is possible to be a citizen if one does not have access to representation This engaging edited collection will appeal to students and scholars of sociology social anthropology history media studies political science literature gender studies and cultural studies

Citizenship on the Edge Nancy J. Hirschmann, Deborah A. Thomas, 2022-01-04 What does it mean to claim two decades into the twenty first century that citizenship is on the edge The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand and sex race and gender on the other Who counts as a citizen in today s world and what are the mechanisms through which the rights benefits and protections of liberal citizenship are differentially bestowed upon diverse groups What are the relationships between global economic processes and political and legal empowerment What forms of violence emerge in order to defend and define these rights benefits and protections and how do these forms of violence reflect long histories How might we recognize and account for

the various avenues through which people attempt to make themselves as political subjects Citizenship on the Edge approaches these questions from multiple disciplines including Africana Studies anthropology disability studies film studies gender studies history law political science and sociology Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U S and throughout the world They give a sense of the breathtaking range of the ways that citizenship is controlled repressed undercut and denied at the same time as they outline people s attempts to claim citizenship in ways that are meaningful to them From university speech policies to labor and immigration policies to a rethinking of the security theatre to women s empowerment in the family and economy and a rethinking of marriage and the family we see slivers of possibility for a more inclusive and less hostile world in which citizenship is no longer so in doubt so on the edge for so many As a whole the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times and in relation to dynamic struggle Contributors Erez Aloni Ange Marie Hancock Alfaro Nancy J Hirschmann Samantha Majic Valentine M Moghadam Michael Rembis Tracy Robinson Ellen Samuels Kimberly Theidon Deborah A Thomas

Practiced Citizenship Nimisha Barton, Richard S. Hopkins, 2019 Over fifty years ago sociologist T H Marshall first opened the modern debate about the evolution of full citizenship in modern nation states arguing that it proceeded in three stages from civil rights to political rights and finally to social rights The shortcomings of this model were clear to feminist scholars As political theorist Carol Pateman argued the modern social contract undergirding nation states was from the start premised on an implicit sexual contract According to Pateman the birth of modern democracy necessarily resulted in the political erasure of women Since the 1990s feminist historians have realized that Marshall s typology failed to describe adequately developments that affected women in France An examination of the role of women and gender in welfare state development suggested that social rights rooted in republican notions of womanhood came early and fast for women in France even while political and economic rights would continue to lag behind While their considerable access to social citizenship privileges shaped their prospects the absence of women s formal rights still dominates the conversation Practiced Citizenship offers a significant rereading of that narrative Through an analysis of how citizenship was lived practiced and deployed by women in France in the modern period Practiced Citizenship demonstrates how gender normativity and the resulting constraints placed on women nevertheless created opportunities for a renegotiation of the social and sexual contract

Genders 22 Ellen E. Berry, 1995-07-01 The epidemic of mass rape in the former Yugoslavia has illustrated once again and in particularly brutal fashion the inextricable relationship between national politics sexual politics and body politics The nexus of these three forces is highly charged in any culture at any time in history but especially so among cultures in which rapid even cataclysmic changes in material realities and national self conceptions are eroding or overwhelming previously secure boundaries The postcommunist moment in the so called Second World Central and Eastern Europe and the former Soviet

Union has dramatically exposed the opportunities and dangers that arise when the political cultural and economic foundations of a society are de and then re structured Gender roles and relations expressions of sexuality or attempts to recontain them representations of the body especially the female body and the larger cultural meanings it assumes are particularly marked sites to witness the performance of complex national dramas of crisis and change This groundbreaking volume turns its attention to the Second World specifically to such subjects as the birth of the sex media and porn industry in Russia Russian women and alcoholism cinema in post communist Hungary patriotism and gender in Poland sexual dissidence in Eastern Europe and women in the former Yugoslavia go to the Genders website Gender and Citizenship Birte

Siim,2000-09-07 Feminist analysis shows that the prevailing concepts of citizenship often assume a male citizen How then does this affect the agency and participation of women in modern democracies This insightful book first published in 2000 presents a systematic comparison of the links between women s social rights and democratic citizenship in three different citizenship models republican citizenship in France liberal citizenship in Britain and social citizenship in Denmark Birte Siim argues that France still suffers from the contradictions of pro natalist policy and that Britain is only just starting to re conceptualise the male breadwinner model that is still a dominant feature In her examination of the dual breadwinner model in Denmark Siim presents research about Scandinavian social policy and makes an important and timely contribution to debates in political sociology social policy and gender studies *The Gender of Democracy* Maro Pantelidou

Maloutas,2007-05-07 As developments in the European Union and elsewhere make the re examination of citizenship a pressing issue this book reflects on the persisting masculine character of contemporary democracy and the measures taken in the EU to combat it Combining a theoretical approach with a specific critique of EU gender policy *The Gender of Democracy* argues that substantial democracy as a social project cannot co exist with the existing system of gender relations which are inherently dichotomous and thus demarcate social categories of superior and inferior status Drawing on utopian thought Maro Pantelidou Maloutas proposes a re examination of the notion of the gendered subject and a revision of the dominant perceptions of the relations between sex sexuality and gender The book contains a critique of specific EU gender policies and shows how in seeking to do away with gender inequality simply formulating policies that are pro women is not enough In order to approach democracy s emancipatory component far reaching policies which deconstruct rather than modernize gender relations are needed Gendered Citizenship Bishnupriya Dutt,Janelle Reinelt,Shrinkhla

Sahai,2017-12-29 This book explores how citizenship is differently gendered and performed across national and regional boundaries Using citizenship as its organizing concept it is a collection of multidisciplinary approaches to legal socio cultural and performative aspects of gender construction and identity violence against women victimhood and agency and everyday issues of socialization in a globalized world It brings together scholars of politics media and performance who are committed to dialogue across both nation and discipline This study is the culmination of a two year project on the topic of Gendered

Citizenship arising from an international collaboration that has sought to develop a comparative and yet singular perspective on performance in relation to key political themes facing our countries of origin in the early decades of this century The research is interdisciplinary and multinational drawing on Indian European and North and South American contexts
