from sociology psychology anthropology history education cultural studies and allied fields Writing from different disciplinary traditions and about a range of international contexts the contributors explore the role of sexuality in children s and adolescents everyday experiences of identity family school neighborhood religion and popular media Are You Being Bullied? Kathleen Winkler,2014-09 Teasing name calling showing and hitting excluding people and spreading rumors about them are all examples of bullying and happens to thousands of teens every day Advances in social media email instant messaging and cell phones have moved bullying from a schoolyard fear to a constant threat Learn how people are working together to put an end to bullying and cyberbullying and make the world safer **Maiden USA** Kathleen Sweeney,2008 Maiden USA Girl Icons Come of Age explores images of powerful contradictory pop culture icons of the past decade which run the gamut from Mean Girls and their Endangered Victims to Superheroines and Ingenue Goddesses Are girls of the Title IX generation in need of Internet protection or are they Supergirls evolving beyond gender stereotypes to rescue us all Maiden USA provides an overview of girl trends since the 90s including the emergence of girls digital media making and self representation venues on MySpace Facebook and YouTube as the newest wave of Girl Power Forever Young Marcel Danesi,Director of the Program in Semiotics and Communication Theory Marcel Danesi, PH.D.,2003-01-01 The excessive worship of adolescence and its social empowerment by adult institutions is the deeply rooted cause of a serious cultural malaise So argues semiotician Marcel Danesi in Forever Young an unforgiving and controversial look at modern culture s incessant drive to create a teen aging of adult life Written for the general reader and based on five year s worth of interviews with over 200 adolescents and their parents Danesi begins by asserting that one of the early causes of this crystallization of adolescence as an age category can be traced back to theories of psychology at the turn of the twentieth century Since then the psychological view of adolescence as a stressful period of adjustment has become a self fulfilling prophecy This in tandem with the devaluation of the family by the media and society at large has led to a maturity gap a fissure in family dynamics that is eagerly and ably exploited by the mass media Unlike many academic digressions into the malaise of modern culture Forever Young provides concrete answers on how the forever young syndrome can be addressed One solution is to dispel the myth that experts and professionals are the people best equipped to give advice on raising children The second is to recognize the value of family in all its different combinations as the primary institution of child rearing The third is to challenge the pervasive notion that teen culture is a sophisticated endeavour that for example pop music can claim to have produced some of the best musical art in the world surpassing Mozart or Bach By laying bare the misguided tenets that have brought about and continue to promote a forever young mentality Marcel Danesi demonstrates that the teen aging of culture has come about because it is simply put good for business Teen tastes have achieved cultural supremacy because the western economic system requires a conformist and easily manipulated market and has thus joined forces with the media entertainment oligarchy to promote a deterministic forever young market **Hijas Americanas** Rosie Molinary,2007-05-10
