The Screw Propeller Albert Edward Seaton,1909 Shipbuilding & Shipping Record ,1924 Boat Watching Edmund W. Jupp,2003-01-01 The aim of the Watching series is to draw attention to some of the very interesting items around us things that perhaps we don t notice as much as we might The first was Bridge Watching and when this was put on the Net it produced to the surprise of the author such a pleasant flood of e mail that another was written called Water Watching This too was kindly received So it was tempting to continue with the theme Boat Watching doesn t set out to teach you how to design a boat build a boat or even how to use a boat I hope it will help you to look at boats though really look at them and to enjoy doing so When I say boats I mean boats and things for boats have things on and about them and they are all interesting If you are looking at boats you can t help seeing all the other things too Boats are truly lovely things from the humblest to the noblest Given a bit of time you can lounge against a wall or a post or stretch out in a chair and just drink in the happiness of looking Looking at things is one of the great free benefits of being alive You don t have to be an expert but a little knowledge does help to enjoy the details This treatment doesn t set out to turn you into a mariner or boat designer It isn t meant intended for that kind of person It is chiefly for idlers loafers those who have time to like stand and stare or who can make such time taking life at a reasonable pace and enjoying it even if only between bouts of frenzied exertions
