**The Fantasy of J. R. R. Tolkien** Robert J. Dobie, 2024 At the heart of Tolkienian fantasy is recovery a cleaning of the windows of our perception that we may learn to see the world again in all its strange and bewildering beauty And for Tolkien to recover the world anew is to recover a sense of the world as a meaningful act of creation by a living and loving Creator How does Tolkien accomplish this Through sub creation or mythopoeia the fashioning of myth For it is in creating an imaginary world ourselves through poetry fairy story and myth that we come to see our primary world as itself an act of creation In short mythopoetic creation far from being lies breathed through silver uncovers for us the truth of our world as a story of creation This book is the first sustained attempt

to show not only the centrality of recovery to Tolkien's fantasy but the way in which his fantasy affects that primal recovery in every reader. In doing so, this book not only reveals the marvelous philosophical and theological riches that underlie Tolkien's fantasy but shows how his mythopoetic fiction allows the recovery and enactment of these riches in our own lives. In these pages we learn how Tolkien's fantasy addresses fundamental problems such as the relation of language to reality, the nature of evil, the distinction between time and eternity and its relation to death and immortality, the paradox of necessity and free will in human action, and the grounds for providential hope in a happy ending. Indeed, *The Fantasy of J. R. R. Tolkien* shows how for Tolkien, fantasy has within itself a healing power through which intellectual, moral, and existential paradoxes are resolved and our intellectual and perceptual faculties are made whole again so that they may participate with renewed vigor in the life-giving work of creation of every sort.

### **Discourse, Desire, and Fantasy in Jürgen Habermas' Critical Theory**

Kenneth MacKendrick, 2008-03-25 This book argues that Jürgen Habermas' critical theory can be productively developed by incorporating a wider understanding of fantasy and imagination as part of its conception of communicative rationality and communicative pathologies. Given that meaning is generated both linguistically and performatively, MacKendrick argues that desire and fantasy must be taken into consideration as constitutive aspects of intersubjective relations. His aim is to show that

Habermasian social theory might plausibly renew its increasingly severed ties with the early critical theory of the Frankfurt School by taking account of these features of practice life thus simultaneously rekindling the relevance of the nearly forgotten emancipatory intent in his earlier work and rejuvenating an emphasis on the contemporary critique of reason This innovative new study will be of interest to those focusing on the early writings of Habermas the writings of the Frankfurt School and the relation between critical theory hermeneutics and psychoanalysis
