Mobilities in Remote Places Phillip Vannini, 2023-07-21 Mobilities in Remote Places explores the meanings challenges and opportunities of remoteness as practiced and experienced by those who live and work in some of the world s most remote communities As mobilities around the world proliferate in countless forms the meanings of remoteness undergo significant change Places once considered impossibly distant have appeared to become closer more accessible and less

distinct from global centers of geopolitical power But instead of disappearing altogether configurations of remoteness evolve manifesting themselves through new possibilities new challenges and new insecurities Drawing from a variety of case studies from around the globe the contributors of the book examine remoteness as an outcome of evolving mobility constellations Rather than defining remoteness as an absolute or objective time distance condition the book shows how remoteness is a practice experience and representation that is situated relational and emergent This collection of original and thought provoking chapters will be of interest to students and researchers in the humanities and social sciences with an interest in mobilities place and human geography The Charisma of Distant Places Courtney Luckhardt, 2019-07-15 This cultural history of early medieval travel and religion reveals how movement affected society demonstrating the connectedness of people and regions between 500 and 850 CE In The Charisma of Distant Places Courtney Luckhardt enriches our understanding of migration through her examination of religious movement Vertical links to God and horizontal links to distant regions identified religious travelers both men and women as holy connected to the human and the divine across physical and spiritual distances Using textual sources material culture and place studies this project is among the first to contextualize the geographic and temporal movement of early medieval people to reveal the diversity of religious travel from the voluntary journeys of pilgrims to the forced travel of Christian slaves Luckhardt offers new ways of understanding ideas about power holiness identity and mobility during the transformation of the Roman world in the global Middle Ages By focusing on the religious dimensions of early medieval people and the regions they visited this book addresses probing questions including how and why medieval people communicated and connected with one another across boundaries both geographical and imaginative **Catalog of Copyright Entries.
