Designers and industries have been forced to imagine a world in which the only way to move forward is to look back. The design and industry sectors need to understand the role they can play in removing obstacles to social progress and work together to create healthier human societies that can interact with the world in a sustainable way. This book presents contributions from leading experts that reveal that a better and more prosperous world is achievable through good work and system design. This book consists of chapters that bring together researchers, academics, policy makers, and designers from technology companies and business associations with the objective of developing a focused vision that enhances innovation through design and industry for a better future.
