Levy, Gerald A. Meehl, 2008 In the gruesome battle for Guadalcanal David Levy was skipper of PT 59 one of several Patrol Torpedo boats that were among the first U S Navy vessels to engage Japanese warships at the beginning of World War II Dave's wartime experiences in the South Pacific marked one of the most transformative periods in his life In the Navy he quickly learned to assume a deal maker persona that helped him get along with fellow PT boat skippers many of whom like future president John F Kennedy came from privileged East Coast families He got to be known in the Navy by the nickname Hogan famous as the guy to go to who could get things done organize parties well stocked with liquor and women obtain supplies when none seemed available and in those early desperate days of the battle for Guadalcanal also perform in the top ranks of competent PT boat skippers The PT boats were small maneuverable and fast and they were given the seemingly impossible mission of regularly engaging and sinking the much larger and more numerous destroyers cruisers and battleships of the Imperial Japanese Navy Dave's PT 59 was in the thick of all the action These brave PT boat skippers many of whom were graduates of Ivy League colleges or the U S Naval Academy were a hard partying group and their fast times during World War II epitomized the intensity with which life was lived by those who like Dave were fully engaged in the deadly struggles of the Pacific War Dave's wartime experiences shaped the rest of his life a long journey that has included a successful law career annual ski trips to his vacation home in Aspen since the early 1950s and fishing all over the world **Speedboats** Charles Hofer, 2007-12-15 Introduces speedboats including information about their history how the boats are designed the races that they compete in and their potential future **Superboats** Ian Graham, 2008 Describes the specifications safety equipment and uses of a variety of fast powerful and luxurious powerboats including ski boats motor yachts one person hydroplanes and 2000 horsepower offshore racing powerboats *Physics of Sailing* John Kimball, 2009-12-22 Breaking down the complicated concepts of speed acceleration torque fluid mechanics and surface physics *Physics of Sailing* provides a lively easily accessible introduction to the basic science underlying the sport of sailing It illustrates the many ways physics can be used to understand the principles of sailboat propulsion and how a scientist
