**First Contact** Ben Bova, Byron Preiss, 1990 Major scientists involved in the search for extraterrestrial intelligence explain their work and consider philosophical questions      **The Search for Extra Terrestrial Intelligence** David Lamb, 2005-07-26 Looks at SETI's validity as a research programme and examines recent attempts to contact other intelligent life forms Also assesses theories on the origin of life on Earth discoveries of former solar planets and proposals for space colonies      *Contact with Extraterrestrial Intelligence and Human Law* Michael Bohlander, 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario      **Science, Religion, and the Search for Extraterrestrial Intelligence** David Wilkinson, 2013-08 This book is about the search for extraterrestrial intelligence taking seriously the current scientific arguments and its implications for religion      The Humaniverse Guide to First Contact with ET Keith Seland, 2020-10-19 If extraterrestrial intelligence ETI exists elsewhere in our universe any meaningful and absolute confirmation would require either a transformative announcement global broadcast single fantastic irrefutable event experience or acknowledgment of a large accumulation of increasing evidence which equates to that historical revelation The Humaniverse Guide to First Contact with ET embarks on an exploration of how ETI is viewed by theologians and their antagonists as well as by advocates and refuters alike This work is a detailed investigation of how religious philosophy aligns with other worldviews and its potential reliability toward application and assistance in the development of a future relationship with ETI The lens is focused on humankind's evolution of cognition conjecture logic and knowledge about ETI as transformative toward these end points As we know the only way these end points can be resolved are through the eyes experiences and activities as undertaken by the only intelligent life form of which we are aware namely ourselves Do you think your worldview about the meaning and purpose of life will be changed if and when ET comes calling      *NASA Technical Memorandum* , 1992      **Meeting the Alien** Andreas Anton, Michael Schetsche, 2023-06-22 Is mankind alone in the universe Will we ever encounter intelligent life beyond Earth These questions have been asked for centuries Recent advances in the fields of astrophysics astronomy and astrobiology make it more likely than ever before that Earth may not be the only inhabited planet and that humanity may not be the only intelligent species in the universe What would be the consequences of contact with an extraterrestrial intelligence This question is at the heart of the emerging discipline of exosociology According to the authors first contact with an extraterrestrial intelligence poses enormous risks for humanity These risks come not only from extraterrestrials but above all from ourselves We should be prepared Michael Schetsche and Andreas Anton's comprehensive introduction to exosociology
