Kierkegaard and the Quest for Unambiguous Life George Pattison, 2013-01-10 This book looks at Kierkegaard with a fresh perspective shaped by the history of ideas framed by the terms romanticism and modernism Modernism here refers to the kind of intellectual and literary modernism associated with Georg Brandes and such later nineteenth and early twentieth century figures as J P Jacobsen Nietzsche Dostoevsky Ibsen all often associated with Kierkegaard in early secondary literature and the young Georg Lukacs This movement currently attracting increasing scholarly attention fed into such varied currents of twentieth century thought as Bolshevism as in Lukacs himself fascism and the early existentialism of e g Shestov and the radical culture journal *The Brenner* in which Kierkegaard featured regularly and whose readers included Martin Heidegger Each of these movements has arguably its own Romantic aspect and Kierkegaard thus emerges as a figure who holds together or in whom are reflected both the aspirations and contradictions of early romanticism and its later nineteenth and twentieth century inheritors Kierkegaard's specific staging of his authorship in the contemporary life of Copenhagen then undergoing a rapid transformation from being the backward capital of an

absolutist monarchy to a modern cosmopolitan city provides a further focus for the volume In this situation the early Romantic experience of nature as providing a source of healing and an experience of unambiguous life is transposed into a more complex and ultimately catastrophic register In articulating these tensions Kierkegaard's authorship provided a mirror to his age but also anticipated and influenced later generations who wrestled with their own versions of this situation

Martin Luther King, Jr., and the Theology of Resistance Rufus Burrow, Jr., 2014-12-08 It has been nearly fifty years since Martin Luther King Jr was assassinated at the Lorraine Motel in Memphis Tennessee Appraisals of King's contributions began almost immediately and continue to this day The author explores a great many of King's chief ideas and socio ethical practices his concept of a moral universe his doctrine of human dignity his belief that not all suffering is redemptive his brand of personalism his contribution to the development of social ethics the inclusion of young people in the movement sexism as a contradiction to his personalism the problem of black on black violence and others The book reveals both the strengths and the limitations in King's theological socio ethical project and shows him to have relentlessly applied personalist ideas to organized nonviolent resistance campaigns in order to change the world Instructors considering this book for use in a course may request an examination copy here
