[With] A key** John Tahourdin White,1867      **The Song of Songs and the Fashioning of Identity in Early Latin Christianity** Karl Shuve,2016-03-24 In this work Karl Shuve provides a new account of how the Song of Songs became one of the most popular biblical texts in medieval Western Christianity through a close and detailed study of its interpretation by late antique Latin theologians It has often been presumed that early Latin writers exercised little influence on the medieval interpretation of the poem since there are so few extant commentaries from the period But this is to overlook the hundreds of citations of and allusions to the Song in the writings of influential figures such as Cyprian Ambrose Jerome and Augustine as well as the lesser known theologian Gregory of Elvira Through a comprehensive analysis of these citations and allusions Shuve argues that contrary to the expectations of many modern scholars the Song of Songs was not a problematic text for early Christian theologians but was a resource that they mined as they debated the nature of the church and of the virtuous life The first part of the volume considers the use of the Song in the churches of Roman Africa and Spain where bishops and theologians focused on images of enclosure and purity invoked in the poem In the second part the focus is late fourth century Italy where a new ascetic interpretation concerned particularly with women s piety began to emerge This erotic poem gradually became embedded in the discursive traditions of Latin Late Antiquity which were bequeathed to the Christian communities of early medieval Europe      Easy English pieces for translation into Latin prose. by A.C.
