Gainsborough Monthly Meeting, 1948 **The First Minute Book of the Gainsborough Monthly Meeting of the Society of Friends** Gainsborough Monthly Meeting (Society of Friends), 1949 The Quakers, 1656-1723 Richard C. Allen, Rosemary Moore, 2018-11-02 This landmark volume is the first in a century to examine the Second Period of Quakerism a time when the Religious Society of Friends experienced upheavals in theology authority and institutional structures and political trajectories as a result of the persecution Quakers faced in the first decades of the movement's existence The authors and special contributors explore the early growth of Quakerism assess important developments in Quaker faith and practice and show how Friends coped with the challenges posed by external and internal threats in the final years of the Stuart age not only in Europe and North America but also in locations such as the Caribbean This groundbreaking collection sheds new light on a range of subjects including the often tense relations between Quakers and the authorities the role of female Friends during the Second Period the effect of major industrial development on Quakerism and comparisons between founder George Fox and the younger generation of Quakers such as Robert Barclay George Keith and William Penn Accessible well researched and seamlessly comprehensive *The Quakers 1656 1723* promises to reinvigorate a conversation largely ignored by scholarship over the last century and to become the definitive work on this important era in Quaker history In addition to the authors the contributors are Erin Bell Raymond Brown J William Frost Emma Lapsansky Werner Robynne Rogers Healey Alan P F Sell and George Southcombe , *The Friend* , 1861 The British Friend , 1850

The English Woman in History Doris Stenton, 2022-03-29 First published in 1957 *The English Woman in History* displays the place women have held and the influence they have exerted within the changing pattern of English society Ever since the days of Queen Elizabeth I the position of women in English society has been a matter of general debate In the seventeenth century many men produced books in praise of women following the example of Thomas Heywood Most of these books were devoted to the praises of individual women but their authors generally produced arguments against subjection of all women to the unthinking dominance of men While married women were still legally subject to their husbands and no women were allowed to take part in public affairs it was impossible to write objectively about women s place in the world The women who at the end of the seventeenth century began to write were generally fired by a sense of injustice and men tended to write condescendingly of charm and beauty which interested them more than intelligence and wit Now that women are bearing public responsibilities with success it is possible for historians to look back dispassionately over the centuries and trace the stages by which this position has been won It is a survey of this nature which Lady Stenton has attempted in this book This is a must read for students and scholars of women s history gender studies and women s movement *The Publications of the Lincoln Record Society* , 1951 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
