Stevenson,2020-11-23 This book illuminates the origins of Roman Christian diplomacy through two case studies Constantius II s imperial strategy in the Red Sea and John Chrysostom s ecclesiastical strategy in Gothia and Sasanian Persia Both men have enjoyed a strong narrative tradition Constantius as a persecuting theological fanatic and Chrysostom as a stubborn naïve reformer Yet this tradition has often masked their remarkable innovations As part of his strategy for conquest Constantius was forced to focus on Alexandria demonstrating a carefully orchestrated campaign along the principal eastern trade route Meanwhile whilst John Chrysostom s preaching and social reform have garnered extensive discussion his late sermons and letters composed in exile reveal an ambitious program to establish church structures outside imperial state control The book demonstrates that these two pioneers innovated a diplomacy that utilised Christianity as a tool for forging alliances with external peoples a procedure that would later become central to Byzantine statecraft It will appeal to all those interested in Early Christianity and late antique medieval history **The Hope of the Christian** Rev. Norman Holmes,2021 The Bible

tells us that every overcoming Christian will become conformed to the image of Christ But what does this mean And how can we prepare ourselves for an abundant fulfillment of our Christian hope In this book Rev Norman Holmes will answer these questions and much more What is the eternal goal for every believer How should we prepare ourselves for a glorious future Developing spiritual discernment How to hit the mark of the high calling of God *Let the Communion Commence* Kevin

Avarice in Late Renaissance France Jonathan Patterson,2015-01-22 Why did people talk so much about avarice in late

Renaissance France nearly a century before Molière's famous comedy *L'Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avarés with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re described as something less vicious excusable or even expedient In this word history of avarice close readings of well known authors Marguerite de Navarre Ronsard Montaigne and of their lesser known contemporaries are connected to broader socio economic developments of the late French Renaissance c 1540 1615 The final chapter situates key themes in relation to Molière's *L'Avare* As such *Representing Avarice in Late Renaissance France* newly illuminates debates about avarice within broader cultural preoccupations surrounding gender enrichment and status in early modern France
