### **Conversations with Nalo**

**Hopkinson** Isiah Lavender III, 2022-12-28 A key figure in contemporary speculative fiction, Jamaican-born Canadian Nalo Hopkinson (b. 1960) is the first Black queer woman as well as the youngest person to be named a Grand Master by the Science Fiction and Fantasy Writers of America. Her Caribbean-inspired narratives, *Brown Girl in the Ring*, *Midnight Robber*, *The Salt Roads*, *The New Moon's Arms*, *The Chaos and Sister Mine*, project complex futures and complex identities for people of color in terms of race, sex, and gender. Hopkinson has always had a vested interest in expanding racial and ethnic diversity in all facets of speculative fiction, from its writers to its readers, and this desire is reflected in her award-winning anthologies. Her work best represents the current and ongoing colored wave of science fiction in the twenty-first century. In twenty-one interviews ranging from 1999 until 2021, *Conversations with Nalo Hopkinson* reveals a writer of fierce intelligence and humor in love with ideas and concerned with issues of identity. She provides powerful insights on code-switching, race, Afrofuturism, queer identities, sexuality, Caribbean folklore, and postcolonial science fictions among other things. As a result, the conversations presented here very much demonstrate the uniqueness of her mind and her influence as a writer.

### **The Time Machines:**

**The Pulp Era of Science Fiction** Pasquale De Marco, 2025-07-24 In the early days of the 20th century, the pulp magazines emerged as a new and exciting medium for science fiction. These magazines were filled with stories of adventure, exploration, and the future. They were a way for readers to escape from the everyday world and dream of a better tomorrow. One of the most influential pulp magazines was *Amazing Stories*, founded by Hugo Gernsback in 1926. Gernsback was a visionary editor who believed that science fiction could be a force for good in the world. He published some of the greatest science fiction writers of the day, including Isaac Asimov, Robert A. Heinlein, and Arthur C. Clarke. The pulp magazines had a profound impact on the development of science fiction. They helped to popularize the genre and bring it to a wider audience. They also helped to create a sense of community among science fiction fans. In the 1950s, the pulp magazines began to decline in popularity. This was due in part to the rise of television and the paperback novel. However, science fiction continued to thrive in other formats, such as books, movies, and television shows. Today, science fiction is one of the most popular genres in the world. It continues to explore the unknown and imagine the impossible. It is a genre that is constantly evolving, and it is sure to

continue to entertain and inspire readers for many years to come This book is a comprehensive history of the pulp science fiction magazines from their beginnings in the early 20th century to their decline in the 1950s It traces the growth and development of the genre from its early days as a niche interest to its eventual mainstream success The book also examines the impact of the pulp magazines on science fiction and popular culture It discusses the role of the magazines in shaping the genre and inspiring future generations of writers and readers This book is a must read for anyone interested in the history of science fiction or pulp magazines It is a fascinating and informative look at a genre that has had a profound impact on our culture If you like this book write a review     The Year's Best Science Fiction: Eleventh Annual Collection Gardner
