

"All this will not be finished in the first 100 days.
Nor will it be finished in the first 1,000 days, nor in
the life of this Administration, nor even perhaps in
our lifetime on this planet. But let us begin."

~ President John F. Kennedy

The First 100 Days of the Kennedy Administration Richard L.. Grossman,1961 *Starman* Jamie Doran,Piers Bizony,2011-04-04 On April 12 1961 Yuri Gagarin became the first human to leave the Earth s atmosphere and venture into space An icon of the 20th century he also became a danger to himself and a threat to the Soviet state At the age of 34 he was killed in a plane crash Based on KGB files restricted documents from Russian space authorities and interviews with his friends and colleagues this biography of the Russian cosmonaut reveals a man in turmoil torn apart by powerful political pressures fighting a losing battle against alcoholism and rebelling against the cruelties of a corrupt totalitarian regime 2011 marks the fiftieth anniversary of Gagarin s flight This new edition of *Starman* includes a new afterword that celebrates the importance of that momentous expedition and reflects on Gagarin s legacy *Starman* Piers Bizony,Jamie Doran,2011-05-01 On April 12 1961 Yuri Gagarin became the first person in history to leave the Earth s atmosphere and venture into space His flight aboard a Russian Vostok rocket lasted only 108 minutes but at the end of it he had become the most famous man in the world Back on the ground his smiling face captured the hearts of millions around the globe Film stars politicians and pop stars from Europe to Japan India to the United States vied with each other to shake his hand Despite this immense fame almost nothing is known about Gagarin or the exceptional people behind his dramatic space flight *Starman* tells for the first time Gagarin s personal odyssey from peasant to international icon his subsequent decline as his personal life began to disintegrate under the pressures of fame and his final disillusionment with the Russian state President Kennedy s quest to put an American on the Moon was a direct reaction to Gagarin s achievement yet before that successful moonshot occurred Gagarin himself was dead aged just thirty four killed in a mysterious air crash Publicly the Soviet hierarchy mourned privately their sighs of relief were almost audible and the KGB report into his death remains secret Entwined with Gagarin s history is that of the breathtaking and highly secretive Russian space program its technological daring its triumphs and disasters In a gripping account Jamie Doran and Piers Bizony reveal the astonishing world behind the scenes of the first great space spectacular and how Gagarin s flight came frighteningly close to destruction *The Age of Sustainability* Denis Pombriant,2018-11-07 While most people acknowledge the toll of burning fossil fuels on earth s climate few consider what will happen when demand for carbon based fuels inevitably outstrips supply In *The Age of Sustainability* Denis Pombriant evaluates and recommends solutions for energy provisioning and reducing carbon pollution that will keep the planet habitable and accommodating to human life Far from being an unsolvable problem climate change and its solution should be seen as another in a long line of inflection points that have dotted human history Cracking the problem is more like solving Rubic s Cube than playing whack a mole As in all earlier eras the next evolutionary step involves disruptive innovations

beginning with new energy alternatives and treating carbon pollution as a chronic problem rather than as an emergency By doubling the amount of photosynthesis planet wide we can stabilize climate and provision for the additional billions of people who will be born by mid century The Age of Sustainability shows that many the innovations needed to provide workable solutions are already available and that the free market is already adopting them It also demonstrates how earlier generations have followed a common path to solving the big challenges of their times This is a hopeful tour of solutions and most importantly including economic models that will stabilize climate and provide a livable future for the human race
