Hastings,2019-03-13 This book presents attitudes information and tools for a holistic approach to medicine health and mental health In our discussions among ourselves and with the contributing authors we defined three aspects of a holistic approach First such an approach involves expanding our focus to include the many personal familial social and environmental factors that promote health prevent illness and encourage healing Second a holistic approach views the patient as an individual person not as a symptom bearing organism This attitude emphasizes the self responsibility of the person for his or her health and the importance of mobilizing the person s own health capacities rather than treating illness only from the outside Third the holistic approach tries to make wise use of the many diagnostic treatment and health modalities that are available in addition to the standard materia medica including alternative medical and healing systems as well as psychological techniques and physical modalities Some of these methods of treatment and health practices are already accepted others are accepted but not applied in practice and still others need further research to explore the range of their uses      **Family Guide to Homeopathy** Andrew Lockie,1993-07-07 From first aid to preventive medicine a comprehensive reference to health care for the entire family Lockie presents a concise and enlightening explanation of how homeopathy works and shows readers how to incorporate its principles in their life styles diets and exercise programs 13 line drawings      Sports Injuries Leslie J Speight,2011-08-31 In these days of intense competition in both amateur and professional athletics there is an increasing number of injuries Homoeopathy and Acupressure do not supplant the normal manipulative therapy but homoeopathic remedies are usually speedier in action and more effective than the usual drug

therapy In addition there is no risk of undesirable effects which can often occur after the administration of orthodox drugs It can be fairly claimed that homoeopathy gives earlier relief from shock and pain and quicker and more lasting healing of sprains fractures and other injuries The manipulations of the trainer based on the sound principles of restoring position and function at the earliest moment are not called into question It will be found however that homoeopathic treatments plus the use of acupressure complement them and provide speedy recovery Certain injuries and conditions have a habit of cropping up in sport and each particular sport has its own collection of regular injuries With this in mind the book is divided into separate chapters each concentrating on a particular sport A simple to use practical handbook *First Aid Homoeopathy in Accidents and Ailments* D.
