book concludes with a discussion of the 1937 Spanish Pavilion where Picasso's famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson's book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture     Annual Reports of the Department of the Interior ...
