

DID YOU KNOW?

Felix Manalo's (Church of Christ) doctrine was being taught by the Christian Mission since 1901

Iglesia Ni Cristo (Manalo) members naively believe that after spending three days and three nights in a locked room, Felix Manalo discovered the name of the true church, the Church of Christ or Iglesia Ni Cristo in Tagalog. They don't realize that the Church of Christ (Iglesia Ni Cristo) was already preaching this doctrine since the arrival of American Missionaries in 1901, sent by the Foreign Christian Missionary Society (Disciples of Christ), the church that Felix Manalo was an evangelist for between 1909-1911.

It is extremely redundant for Felix Manalo to preach to friends at the Christian Mission (Disciples) who belonged to the group that used the name, Church of Christ and Iglesia Ni Cristo on their chapels and taught the same "Church of Christ" restorationist theology (Stone-Campbell) presented by Felix Manalo.

Felix Manalo hand-picked people from the Christian Mission in Punta Sta. Ana because his "Church of Christ" doctrine was similar to that of the Disciples of Christ. It would be familiar territory with his Christian Mission friends. After all, his teaching was identical to that of the Christian Mission which taught restorationism and used Romans 16:16 and Matthew 18:18 as part of their theology. Thus, it was very easy to set up an independent body of Christ (Church of Christ) that is started by a native Filipino.

It is very clear, that Felix Manalo never fully rejected the Disciples of Christ (Christian Mission) after his departure from them in 1911, to join the Adventists church. It is a fact, that Felix Manalo continued to develop very strong connections with the Christian Mission (Disciples) even until the late 1930s.

The Life of Mohammad, from Original Sources Aloys Sprenger, 1851 **Betwixt and Between Liminality and Marginality** Zohar Hadromi-Allouche, Michael Hubbard MacKay, 2023-03-20 Betwixt and Between Liminality and Marginality Mind the Gap offers an interdisciplinary thinking on the marginal within society Using the framework of Victor Turner's earlier notions of liminality the book both challenges Turner's symbolic anthropology and celebrates its continued influence across disciplines and under new theoretical constraints Liminality in its simplest forms provides language for meaningful approaches to articulate transition and change It also represents complex social theories beyond Turner's classical symbolic approach While demonstrating the enduring relevance of Turner's language for expressing transition this volume keeps an

eye toward the validity of critiques against him. It thus theorizes with Turner's work while updating even abandoning some of his primary ideas when applying it to contemporary social issues. A central focus of this volume is marginality. Turner recognized that marginals like liminars are betwixt and between; however, they lack assurance that their ambiguity will be resolved. This volume explores the dialogic relationship of space and agency to recognize marginal groups and people and inquire without a harmonious resolution what happens to the marginals. Have race, class, gender, and sexual orientation become the space for thinking about reintegration and *communitas*? Each chapter examines how marginal groups or liminal spaces and ideas destabilize shape and affect the dominant culture.

Philippians- Jensen Bible Self Study Guide Irving L. Jensen, 1991-08-09
This self-study guide will introduce you to the church at Philippi where Paul maintained a close and unique relationship with the people who supported him spiritually and financially. Out of a heart of gratitude, he wrote them a thank-you letter while imprisoned at Rome. In it, Paul describes one of the most important and poignant teachings regarding Jesus Christ. In the second chapter, he discusses *kenosis*, the self-imposed humiliation that typified the life of the Lord as a humble servant whose obedience went as far as an undeserved sacrificial death for humanity. If you are looking for a comprehensive, challenging tool to use in personal group or class Bible study, you will find the Jensen Bible Self Study series an exciting way to better understand the important truths of God's Word. Each response-oriented guide in the 39-book series features helpful charts, graphs, maps, and ideas for projects and further study. You will refer back to each completed guide as a reference again and again as you study the Scriptures. This study series has enabled millions to effectively explore and understand God's eternal message, and it continues to be a widely used tool for Bible study today.

Identifications and Alliances in North-East Africa Günther Schlee, Elizabeth E. Watson, 2009
Forms of group identity play a prominent role in everyday lives and politics in north-east Africa. These volumes provide an interdisciplinary account of the nature and significance of ethnic, religious, and national identity in north-east Africa. Case studies from Sudan, Ethiopia,

Uganda and Kenya illustrate the way that identities are formed and change over time and how local national and international politics are interwoven. Specific attention is paid to the impact of modern weaponry, new technologies, religious conversion, food and land shortages, international borders, civil war and displacement on group identities. Drawing on the expertise of anthropologists, historians and geographers, these volumes provide a significant account of a society profoundly shaped by identity politics and contribute to a better understanding of the nature of conflict and war and forms of alliance and peacemaking, thus providing a comprehensive portrait of this troubled region.

Throughout the book, it emphasises the importance of Protestantism for Korean national life, highlights the key role Protestantism has played in Korea's social, political and cultural development, including in North Korea, whose first leader Kim Il Sung was the son of devout Protestant parents, and demonstrates how Protestantism continues to be a vital force for Korean society overall.

The Origins of the New Churches Movement in Southern Ethiopia, 1927-1944 Brian L. Fargher, 2023-09-20 This study describes the beginnings of a movement which has created another face for Ethiopian Christianity. The expatriate missionary evangelists who in 1927 were encouraged by Emperor Haile Selassie to work in southern Ethiopia intentionally bypassed the Orthodox model and made a fresh start. Three of the many facets of the movement comprise the body of the book: There is the religious backdrop of Orthodox Christianity and the expatriates' fundamentalist traditions; then the praxis and polity of their work; finally, the post-Occupation outcome which confirmed their choices. Since its beginning in 1932, the New Churches Movement has impacted every part of Ethiopian society, religious, political and socio-economic. It demonstrates that a fresh start can be complementary rather than competitive. The movement's success encourages missionary evangelists to continue making new beginnings.
