First Nations Race Class Gender Relati:

First Nations Vic Satzewich, Terry Wotherspoon, 2000 First published in 1993 First Nations Race Class and Gender Relations remains unique in offering systematically from a political economy perspective an analysis that enables us to understand the diverse realities of Aboriginal people within changing Canadian and global contexts The book provides an extended analysis of how changing social dynamics organized particularly around race class and gender relations have shaped the life chances and conditions for Aboriginal people within the structure of Canadian society and its major institutional forms The authors conclude that prospects for First Nations and Aboriginal people remain uncertain insofar as they are grounded in contradictory social economic and cultural and political realities

Understanding Indigenous Gender Relations and Violence Catherine E. McKinley, 2023-01-09 This book focuses on the inequities that are persistently and disproportionately severe for Indigenous peoples Gender and racial based inequities span from the home life to Indigenous women s wellness including physical mental and social health The conundrum of how and why Indigenous women many of whom historically held respected and even held sacred status in many matrilineal and female centered communities now experience the highest rates of gendered based violence is focal to this work Unlike Western European and colonial contexts Indigenous societies tended to be organized in fundamentally distinct ways that were woman centered and where gender roles and values were reportedly more egalitarian fluid flexible inclusive complementary and harmonious Understanding how Indigenous gender relations were targeted as a tool of patriarchal settler colonization and how this relates to women more broadly can be a key to unlocking gender liberation a catalyst for readers to become gender AWake Living gender AWake encompasses living in alignment with agility AWA with clear awareness of how gender and other sociostructural factors affect daily life as well as how to navigate such factors To live in alignment is to live from ones center and in accordance with one s authentic self with agility by nimbly responding to life s constantly shifting situations This empirically grounded work extends and deepens the Indigenist framework of historical oppression resilience and transcendence FHORT by delving deep into the resilience transcendence and wellness components of FHORT while centering gender Understanding the changing gender roles for Indigenous peoples over time fosters decolonization more broadly by enabling greater understanding of how sexism and misogyny hurt people across personal and political spheres This understanding can foster the process of becoming gender AWake by identifying and dismantling of sexism and by becoming decolonized from prescriptive gender roles that inhibit living in alignment with one s true or authentic self Readers will gain a research based approach linking historical oppression gender based inequities and violence against Indigenous women understanding of how patriarchal colonialism undermines all genders a tool to dismantle sexism more broadly pathways to become Gender AWake through the understanding of Indigenous women s resilience and transcendence

Contact Zones Myra Rutherdale, Katie Pickles, 2011-11-01 Contact Zones locates Canadian women s history within

colonial and imperial systems As both colonizer and colonized sometimes even simultaneously women were uniquely positioned at the axis of the colonial encounter the so called contact zone between Aboriginals and newcomers Some women were able to transgress the bounds of social expectation while others reluctantly conformed to them Aboriginal women such as E Pauline Johnson Bernice Loft and Ethel Brant Monture shaped identities for themselves in both worlds By recognizing the necessity to perform they enchanted and educated white audiences across Canada On the other side of the coin newcomers imposed increasing regulation on Aboriginal women s bodies Missionaries for example preached the virtues of Christian conjugality over mixed race and polygamous marriages especially those that hadn t been ratified by the church The Department of Indian Affairs agents withheld treaty payments or removed the children of Aboriginal women who did not properly perform their duties as wives and mothers In short Aboriginal women were expected to consent to moral sexual and marital rules that white women were already beginning to contest Contact Zones draws upon a vast array of primary sources to provide insight into the ubiquity and persistence of colonial discourse and to demonstrate how it ultimately was an embodied experience Above all it shows how the colonial enterprise was about embodied contacts What bodies belonged inside the nation who were outsiders and who transgressed the rules these are the questions at the heart of this provocative book Jean Barman s chapter from Contact Zones Aboriginal Women on the Streets of Victoria Rethinking Transgressive Sexuality during the Colonial Encounter won the award from the Canadian Committee on the History of Sexuality Cecilia Morgan s Performing for Imperial Eyes Bernice Loft and Ethel Brant Monture Ontario 1930s 60s from Contact Zones was awarded the Hilda Neatby Prize in Canadian Women s History First Nations Gaming in Canada Yale D. Campbell, Dominique Clement, Gregory S. Kealey, 2012-10-09 Although the 1960s are overwhelmingly associated with student radicalism and the New Left most Canadians witnessed the decade's political economic and cultural turmoil from a different perspective *Debating Dissent* dispels the myths and stereotypes associated with the 1960s by examining what this era's transformations meant to diverse groups of Canadians and not only protestors youth or the white middle class With critical contributions from new and senior scholars *Debating Dissent* integrates traditional conceptions of the 1960s as a time apart within the broader framework of the long sixties and post 1945 Canada and places Canada within a local national and international context Cutting edge essays in social intellectual and political history reflect a range of historical interpretation and explore such diverse topics as narcotics the environment education workers Aboriginal and Black activism nationalism Quebec women and bilingualism Touching on the decade's biggest issues from changing cultural norms to the role of the state *Debating Dissent* critically examines ideas of generational change and the sixties *Compassionate Canadians* Rhoda E. Anthropology of Gender and Sexuality Cecilia McCallum, Silvia Posocco, Martin Fotta, 2023-10-19 The tense but enduring engagement between anthropology and gender and sexuality studies has had profound effects upon anthropological theory and practice Bringing together contributions from an international team of authors this Handbook shows that anthropological work has taken inspiration from feminist and LGBTQI movements to create a transformative body of research It provides an accessible state of the art overview of the anthropology of gender and sexuality whilst also documenting its historical emergence highlighting the varied impact gender and sexuality studies have had on anthropological theory It is split into five parts with each chapter introducing a contemporary anthropological theory through in depth ethnographical discussion It features intersectional black and indigenous authors providing a forum for established and emerging voices to gesture towards futures of anthropology of gender and sexuality Authoritative and cutting edge it is essential reading for researchers and students in anthropology and will set the agenda for future research in the field **Mapping Geographies of Violence**

Heather A. Kitchin Dahringer, 2021-01-29T00:00:00Z The contributors to *Mapping Geographies of Violence* explore the multi layered meaning of violence and the various ways it occupies our daily lives be they overt institutional structural or covert With an eye towards social justice each chapter offers a discrete definition of violence and provides readers with a range of theoretical orientations from social psychology symbolic interactionism and Marxism to discourse analysis From these perspectives several examples of violence are explored anti feminism police raids gendered violence mental illness sex work and poverty *Mapping Geographies of Violence* presents readers with a larger understanding and analysis of how violence far from just an expression of individuals or groups is rooted in social constructs like class patriarchy and racism

Dis/Consent KelleyAnne Malinen,2019-04-29T00:00:00Z Sexual violence is prevalent in our society We know this directly because of the courage survivors have shown in facing their perpetrators in courts online and in the public eye But society is hesitant incapable or unwilling to hold offenders to account they keep their jobs or get promoted to powerful positions and survivors frequently end up being on trial themselves Furthermore mainstream discourse and thinking about sexual violence and consent are limited to problematic op eds oversimplified viral videos or tweets These will not end sexual violence The contributors to Dis Consent argue that the conversations happening today around consent and sexual violence ignore and erase the multiple forms of oppression that are part and parcel of sexual violence They highlight the relationships between our social structures social institutions and individual experiences of sexual consent and sexual violence And because sexism racism misogyny homophobia transphobia and ableism are deeply intertwined with sexual violence it will not be undone without systemic anti oppressive decolonizing change Refusing to reduce intersectionality to a hasty footnote this volume examines the construction of sexual violence and consent at diverse intersections of identity and includes a diversity of perspectives and positionalities rarely found in conversations about sexual violence and sexual consent

Gender Relations in Global Perspective Nancy Cook,2007 Faced with an increasingly diverse student population an expanding field of gender scholarship and an academic emphasis on multidisciplinary social science professors often struggle to address and integrate such a broad array of gender issues in their courses This book addresses that challenge by increasing students understandings of gender relations in multiple social fields across time and space *Gender Relations in Global Perspective* is truly multidisciplinary It is partially drawn from the work of sociologists but articles written by gender scholars from the disciplines of cultural studies history political science geography and literary theory are also included The readings examine historically persistent cross culturally relevant and empirically grounded concerns such as men s position in the family and women s relationship to work media and the global economy as well as the gendered problems of violence sexuality and reproduction and racism This book presents an engaging range of comparative and cross cultural gender analyses from various world regions including the Middle East South Asia South East Asia Europe the Americas and Africa As the articles are dialogically situated in this text readers will be able to analyse gender similarities and differences around the globe and learn about the diversity of gender experiences across cultures and regions This range of analyses demonstrates how a global perspective enriches feminist analyses Students will quickly learn that to investigate gender dynamics adequately attention must be paid simultaneously to the processes of racialization class colonialism and imperialism and sexuality that interweave with gender to produce complex forms of oppression

Being Again of One Mind Lina Sunseri,2010-11-21 *Being Again of One Mind* combines the narratives of Oneida women of various generations with a critical reading of feminist literature on nationalism to reveal that some Indigenous women view nationalism in the form of decolonization as a way to restore traditional gender balance and well being to their own lives and communities By giving a voice to Oneida women s thoughts

on tradition and nation this book challenges mainstream feminist ideas about the masculine bias of Western theories of nation and about the dangers of nationalist movements that idealize women's so called traditional role Lina Sunseri shows that feminist insights although useful to many women's and feminist groups cannot be applied universally to all women or to societies with traditional forms of nation based on good relations between men and women Oneida women do not view nationalism as a threat but rather as a way for women and men to be again of one mind *An Act of Genocide* Karen Stote, 2015-04-01T00:00:00Z During the 1900s eugenics gained favour as a means of controlling the birth rate among undesirable populations in Canada Though many people were targeted the coercive sterilization of one group has gone largely unnoticed An Act of Genocide unpacks long buried archival evidence to begin documenting the forced sterilization of Aboriginal women in Canada Grounding this evidence within the context of colonialism the oppression of women and the denial of Indigenous sovereignty Karen Stote argues that this coercive sterilization must be considered in relation to the larger goals of Indian policy to gain access to Indigenous lands and resources while reducing the numbers of those to whom the federal government has obligations Stote also contends that in accordance with the original meaning of the term this sterilization should be understood as an act of genocide and she explores the ways Canada has managed to avoid this charge This lucid engaging book explicitly challenges Canadians to take up their responsibilities as treaty partners to reconsider their history and to hold their government to account for its treatment of Indigenous peoples *When Did Indians Become Straight?* Mark Rifkin, 2011-01-27 When Did Indians Become Straight explores the complex relationship between contested U S notions of normality and shifting forms of Native American governance and self representation Examining a wide range of texts including captivity narratives fiction government documents and anthropological tracts Mark Rifkin offers a cultural and literary history of the ways Native peoples have been inserted into Euramerican discourses of sexuality and how Native intellectuals have sought to reaffirm their peoples sovereignty and self determination *Social Fabric Or Patchwork Quilt* Jeff Keshen, Raymond Benjamin Blake, 2006-01-01 Both historical and contemporary features of Canadian social welfare are explored in this wide ranging and in depth collection Social Fabric or Patchwork Quilt explores the evolution of the Canadian social welfare state from a system based upon voluntarism and philanthropy to one in which the State's involvement has increased considerably It also shows how the roles of governments at all levels have changed in recent times Chapters describe the developing Canadian welfare state from Confederation to the present Beginning with an integrative framework in the general introduction the selected essays represent many perspectives chronological regional multidisciplinary and ideological An important feature of this collection is the consideration of providers and recipients Such wide ranging outlooks are possible given the diverse backgrounds of contributors which include historians sociologists social workers public policy experts and political scientists As well as historical and sociological studies topics include key programs discussed in detail the quality of services received by principal target groups new directions in research some contributions even revisit

foundational older works and key government documents Remapping Gender in the New Global Order Marjorie Griffin-Cohen, Janine Brodie, 2007-06-11 This book analyses changes in gender relations as a result of globalization in countries on the semi periphery of power Semi periphery refers to those nations which are not drivers of change globally but have enough economic and political security to have some power in determining their own responses to global forces Individual countries obviously face challenges that are to some extent unique although the prescriptions for economic and social restructuring are based on a common competitive logic Remapping Gender in the New Global Order draws on examples from four countries on the semi periphery of power but still located in the top category of the UNDP's Human Development Index At one end is Norway one of the world's richest and most developed welfare states and at the other is Mexico a country that is considerably poorer and more susceptible to the power of the United States and international agencies Australia and Canada the other two semi peripheral countries examined are in the middle Also included are comparisons with the epicentre of the core base of power the United States The individual chapters focus on the effect on specific groups of people including males and indigenous groups the mechanisms people use to both cope with dramatic social changes and the strategies and alliances that are used to affect the course of changes It covers topics that range from implications of labour migration on care regimes to globalism's effect on masculinity and the male breadwinner model

Economic Rights in Canada and the United States Rhoda Howard-Hassmann, Claude Emerson Welch, 2009 This volume explains how economic rights are realized or violated in Canada and the United States Contributors analyze the philosophy law and politics of these rights and discuss specific issues such as poverty health care and the rights of people with disabilities
