*The First Casualty* Phillip Knightley, 2004-10-05 The first casualty when war comes is truth said American Senator Hiram Johnson in 1917 In his gripping now classic history of war journalism Phillip Knightley shows just how right Johnson was From William Howard Russell who described the appalling conditions of the Crimean War in the Times of London to the ranks of reporters photographers and cameramen who captured the realities of war in Vietnam *The First Casualty* tells a fascinating story of heroism and collusion censorship and suppression Since Vietnam Knightley reveals governments have become much more adept at managing the media as highlighted in chapters on the Falklands War the Gulf War and the conflict between NATO and Serbia over Kosovo And in a new chapter on the post 9 11 wars in Afghanistan and Iraq Knightley details even greater degrees of government manipulation and media complicity as evidenced by the embedding of reporters in military units and the uncritical openly patriotic coverage of these conflicts The age of the war correspondent as hero he concludes appears to be over Fully updated *The First Casualty* remains required reading for anyone concerned about freedom of the press journalistic responsibility and the nature of modern warfare

**The Crimean War** William Howard Russell, 2009-05-01 Armed with only a telescope a watch and a notebook he retrieved from a dead soldier William Howard Russell spent twenty two months reporting from the trenches for the Times of London during the Crimean War A novice in a new field of journalism war reporting when he first set off for Crimea in 1854 the young Irishman returned home a veteran of three bloody battles having survived the siege of Sebastopol and watched a colleague die of cholera Russell's fine eye for detail electrified readers and his remarkably colorful and hugely significant accounts of battles provided those at home for the first time ever with a realistic picture of the brutality of war The Crimean War originally published in 1856 under the title *The Complete History of the Russian War* presents a selection of Russell's dispatches as well as those of other embedded reporters providing a ground eye view of the conflict as depicted in British newspapers Fought on the southern tip of the Crimea from 1853 to 1856 the Crimean War raged on far longer than either side expected largely because of mismanagement and disease more soldiers died from cholera typhus typhoid dysentery and scurvy than battle wounds Russell's biting criticisms of incompetent military authorities and an antiquated military system contributed to the collapse of the contemporary ruling party in Britain In his reports Russell wrote extensively about inept medical care for the wounded which he termed human barbarity Thanks to compelling accounts by Russell and others authorities allowed Florence Nightingale to enter the war zone and nurse troops back to health The Crimean War contains reports from military men who acted as part time reporters articles by professional journalists and letters from others at the front that newspapers back home later published Rapidly pulled together by American publisher John G Wells the volume presents a fascinating contemporary analysis of the war by those on the ground This reissue offers a new introduction by Angela Michelli Fleming and John Maxwell Hamilton that places these reports in context and highlights the critical role they played during a pivotal point in European history The first first hand accounts of the realities of war these dispatches set the tone for future independent war reporting

and Ottoman Empires it was the first conflict to be reported first hand in newspapers painted by official war artists recorded by telegraph and photographed by camera In her new short history Trudi Tate discusses the ways in which this novel representation itself became part of the modern war machine She tells forgotten stories about the war experience of individual soldiers and civilians including journalists nurses doctors war tourists and other witnesses At the same time the war was a retrograde one fought with the mentality and some of the equipment of Napoleonic times Tate argues that the Crimean War was both modern and old fashioned looking backwards and forwards and generating optimism and despair among those who lived through it She explores this paradox while giving full coverage to the bloody battles Alma Balaklava Inkerman the siege of Sebastopol the much derided strategies of the commanders conditions in the field and the cultural impact of the anti Russian alliance

**Selling War to America** Eugene Secunda, Terence P. Moran, 2007-08-30 Battles are won in combat Wars are won by winning the hearts and minds of the people Selling War to America provides a thought provoking look at the propaganda efforts the U S government has exerted to that end It begins with an examination of the government s campaign to instigate a war with Spain and ends with a review of the methods being used to encourage support for the War Against Terrorism The book analyzes each of these wars within the context of the techniques used to generate public support also examining the results of propaganda efforts both before and after each conflict From these historical analyses noting both the blunders and the triumphs of the past century the authors offer the keys to successfully persuading the American public to support wars that must be fought Lies were told and truths withheld because government and military leaders did not trust the American people to make appropriate decisions concerning our national security The attacks of September 11 2001 on The World Trade Center Towers and the Pentagon have summoned the American people to a war on terrorism The U S government is now trying to mobilize American public opinion to support this war But this is just the most recent example of how our government has sought to enlist broad public support for the wars it has waged The job of informing and persuading America to support its war efforts has become increasingly more challenging as media technologies like instant global coverage of television news and the Internet reach into every American home

women are trafficked across borders every year Money laundering represents as much as 10 percent of global GDP Internet child porn is a 20 billion a year industry These are big attention grabbing numbers frequently used in policy debates and media reporting Peter Andreas and Kelly M Greenhill see only one problem these numbers are probably false Their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure As a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences This problem exists in myriad policy realms But it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on In *Sex Drugs and Body Counts* political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation They also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade
