First Glance At Adrienne Von Speyr:

First Glance at Adrienne Von Speyr Hans Urs von Balthasar, 1981 Swiss Catholic physician writer and theologian Adrienne von Speyr 1902-1967 was an author of over 60 books of spirituality and theology This book includes a short account of Adrienne's life with a collection of enlightening statements and prayers **Heaven Opens** Matthew Lewis

Sutton, 2014-02-01 Adrienne von Speyr was one of the most important mystical theologians of the last century However her work has been eclipsed in many ways by her personal connection to Hans Urs von Balthasar Heaven Opens provides one of the first comprehensive accounts of von Speyr's theology Matthew Lewis Sutton argues that the eternal immanent relations of the Triune God ground the mystical theological vision of von Speyr Here von Speyr's work is for the first time given an independent hearing expositing its content features and connections and assessing its contribution to contemporary Catholic theology Shining Garment of the Text Alison Jasper, 1998-09-01 Taking the prologue of John's Gospel as a case study in

feminist biblical criticism the author engages with a persistent view that the biblical text is seriously compromised by its association with patriarchal values Close analysis of five interpretations by Augustine Hildegard von Bingen Martin Luther Adrienne von Speyr and Rudolf Bultmann shows how unavoidably interpretation clothes the biblical text with the varied and dazzling patterns of the patriarchal reading context But in a second turn drawing on the techniques of both structuralist criticism and deconstruction and offering three further inventive readings of this powerful passage Jasper reflects woman and the feminine in the shining garment of her own contextualized reading *The Analogy of Beauty* John Riches, John K. Riches, 1986-03-10 Examines the whole range of von Balthasar's theology and provides a clear introduction to his work

The Concept of Woman Prudence Allen, 2024-06-20 A comprehensive account of the concept of woman in Western thought from ancient Greece through the Middle Ages to today In her sweeping three volume study Sister Prudence Allen examined how women and men have been defined in relation to one another scientifically philosophically and theologically Now synthesized for students The Concept of Woman is the ideal textbook for classes on gender in Catholic thought Allen surveys Greek philosophers medieval saints and modern thinkers to trace the development of integral gender complementarity This doctrine a living idea according to the criteria of John Henry Newman affirms the equal dignity of men and women and the synergetic relationship between them Allen pays special attention to John Paul II's contributions to this holistic idea of gender Readers will gain valuable context for current debates over womanhood and come to a greater appreciation of human personhood **The Sacrament of Confession as a** William Schmitt, 2001 Adrienne von Speyr in her book Confession and throughout her writings speaks of the confession of Jesus Christ This is a startling use of the term because Christ never sinned The author examines all the writings of von Speyr in the light of Roman Catholic soteriology and sacramental theology and in view of the influences that existed between her and Hans Urs von Balthasar The author then shows how the theme of confession is central to von Speyr's writing aids in illuminating her theology of Holy Saturday and

the Paschal Mystery and serves as the basis for the renewal of the sacrament of confession The Modern Theologians David F. Ford, 2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century **Text as Pretext** Robert P. Carroll, 1992-05-01 This collection of essays in honour of Professor Robert Davidson celebrates a number of notable achievements of this outstanding Scottish churchman and scholar It is published for the occasion of his sixty fifth birthday but it also marks his retirement from full time university teaching and nods in the direction of his having been the Moderator of the General Assembly of the Church of Scotland 1990 91 The guiding principle governing this collection of essays is the notion of the Bible as the generator of other texts and cultural productions The contributors are drawn from Davidson s wide range of colleagues and former students and focus on many different aspects of this generative force within the Bible itself and in materials related to it Contributors include A G Auld J M G Barclay E Best J C L Gibson W Johnstone H A McKay J K Riches and the editor among others *Balthasar for Thomists* Fr. Aidan Nichols, O.P., 2020 Students of Catholic theology are often presented with a choice between two great masters Thomas Aquinas and Hans Urs von Balthasar What starts as a cordial difference in form and method often morphs into a bitter rivalry Dominican theologian Father Aidan Nichols sees no need for competition Balthasar for Thomists gives a panoramic view of Balthasar s thought and spirituality unearthing many of his innumerable debts to Aquinas and providing context for their points of divergence The enormous cultural project of Balthasar writes Father Nichols differs too much from St Thomas pedagogical one to count as a rival to Thomism on the latter s own ground and of course vice versa While constituting an original form of faithful Catholic thought Balthasar s approach may be regarded as a synthesis of the influences of Thomas and his Franciscan contemporary St Bonaventure In its breadth Balthasar for Thomists serves as a general introduction to Balthasar for those unacquainted with his profound and wide ranging theology *Barth on the Descent into Hell* David Lauber, 2017-09-29 The Christian confession that Jesus Christ descended into hell has been variously misunderstood or simply neglected by the Church and dogmatic theology This work is a significant retort to dogmatic forgetfulness and ecclesial misunderstanding It succeeds in doing so by offering a close reading and critical analysis of Karl Barth s treatment

of the descent into hell and its relation to his extraordinary theology of the atonement The reach of David Lauber s work is extended by placing Barth in conversation with Hans Urs von Balthasar s innovative theology of Holy Saturday In revealing and unexpected ways this book casts light upon the ecumenical breadth of Barth s theology It is a valuable interpretation of significant facets of Barth s doctrine of God reflection upon the passion of Jesus Christ and ethics In addition Lauber offers a constructive theological proposal for how the descent into hell affects the theological interpretation of Scripture the trinitarian being and activity of God and the non violent and authentic shape of Christian life and witness before our enemies

also through their relationships with each other and with other animals Drawing on classical sources particularly the work of Thomas Aquinas Deane Drummond explores various facets of humans and other animals in terms of reason freedom language and community In probing and questioning how human distinctiveness has been defined using philosophical tools she engages with a range of scientific disciplines including evolutionary biology biological anthropology animal behavior ethology and cognitive psychology The result is a novel deeply nuanced interpretation of what it means to be distinctively human in the image of God
