First With The News The History Of Wh Smith 1792 197:

A History of British Publishing John Feather, 2003-09-02 This comprehensive history first published in 1987 covers the whole period in which books have been printed in Britain Though Gutenberg had the edge over Caxton England quickly established itself in the forefront of the international book trade The slow process of copying manuscripts gave way to an increasingly sophisticated trade in the printed word which brought original literature translations broadsheets and chapbooks and even the Bible within the purview of an increasingly broad slice of society Powerful political forces continued to control the book trade for centuries before the principle of freedom of opinion was established In the nineteenth and early twentieth centuries the competition from pirated USA editions where there were no copyright laws provided a powerful threat to the trade This period also saw the rise of remaindering cheap literature and many other modern features of the trade The author surveys all these developments bringing his history up to the present age *The Dawn of the Cheap Press*

in Victorian Britain Martin Hewitt, 2013-12-05 The Dawn of the Cheap Press provides the first detailed study of the mid Victorian campaign for the repeal of the taxes on knowledge for over a hundred years Using the recently discovered papers of the Association for the Promotion of the Repeal of the Taxes on Knowledge and taking advantage of new forms of research made possible by the digitisation of nineteenth century newspapers it assesses the impact of the removal of the last surviving legal disabilities on the newspaper industry the nature of journalism and the cultures and practices of newspaper reading The book demonstrates that the campaign against the taxes on knowledge retained broad popular appeal and played an important role in the politics of mid Victorian budgets It not only makes a seminal contribution to the history of the nineteenth century press and print culture but also illuminates the culture and politics of mid Victorian Britain offers an important re reading of the history of extra parliamentary pressure group politics and provides new insights into the origins of Gladstonian Liberalism *Enterprise, Management and Innovation in British Business, 1914-80* R.P.T.

Davenport-Hines, 2005-06-28 A general introductory text on British business history declared Professor Donald Coleman in an important public lecture published in 1987 has yet to be written 1 This lacunae is extraordinary given Britain's role as the birthplace of the Industrial Revolution and its possession even in the late 1980s of the world's sixth largest Gross Domestic Product 2 It is even more odd given that business history in Britain is almost a sunrise industry every year several scholarly company histories are published although these volumes remain largely unread by business people business scholars and e
