## **First World War Major New History Of The:**

The British Army and the First World War Ian Beckett, Timothy Bowman, Mark Connelly, 2017-05-15 This is a major new history of the British army during the Great War written by three leading military historians Ian Beckett Timothy Bowman and Mark Connelly survey operations on the Western Front and throughout the rest of the world as well as the army's social history pre war and wartime planning and strategy the maintenance of discipline and morale and the lasting legacy of the First World War on the army's development They assess the strengths and weaknesses of the army between 1914 and 1918 engaging with key debates around the adequacy of British generalship and whether or not there was a significant learning curve in terms of the development of operational art during the course of the war Their findings show how despite limitations of initiative and innovation amongst the high command the British army did succeed in developing the effective combined arms warfare necessary for victory in 1918

The French Army and the First World War Elizabeth Greenhalgh, 2014-11-13 This is a comprehensive new history of the French army's critical contribution to the Great War Ranging across all fronts Elizabeth Greenhalgh examines the French army's achievements and failures and sets these in the context of the difficulties of coalition warfare and the relative strengths and weaknesses of the enemy forces it faced Drawing from new archival sources she reveals the challenges of dealing with and replenishing a mass conscript army in the face of slaughter on an unprecedented scale and shows how through trials and defeats French generals and their troops learned to adapt and develop techniques which eventually led to victory In a unique account of the largest Allied army on the Western Front she revises our understanding not only of wartime strategy and combat but also of other crucial aspects of France's war from mutinies and mail censorship to medical services railways and weapons development

**The New History** Alun Munslow, 2016-09-17 The notion of history has always been one strenuously debated by both academics and the wider population This deeply provocative re thinking of our engagement with the past by one of the world's leading post modern historians takes that debate one step further Alun Munslow re assesses history in the light of post modernism and other intellectual challenges which have questioned the primacy of the modernist epistemology of empiricism In an original and stimulating vision of history that will intrigue all those seriously interested in the subject Munslow argues that history is not only about the sources but a literary construction Munslow concludes that history as a cultural narrative about the past can never tell us what the past really means This far reaching conclusion is based on the radical idea that the content of history is

defined as much by the nature of the language used to represent and interpret that content as it is by research into the sources This suggests that history does not produce the most likely meaning of the past but rather can only generate alternative meanings The lead volume in a major new series on historical thinking and practice this is an accessible yet absorbing study that breaks new ground in discussing the stage history is at now and perhaps most engagingly the direction it will take in the future

**The First World War** Hew Strachan,2003-02-06 This is the first truly definitive history of the First World War the war that has done most to shape the twentieth century The first generation of its historians had access to only a limited range of sources and their focus was primarily on military events More recent approaches have embraced cultural diplomatic economic and social history In Hew Strachan s authoritative and readable history these fresh perspectives are incorporated with the military and strategic narrative The result is an account that breaks the bounds of national preoccupations to become both global and comparative To Arms the first of three volumes in this magisterial study examines not only the causes of the war and its opening clashes on land and sea but also the ideas that underpinned it and the motivations of the people who supported it It provides full and pioneering accounts of the war s finances of the war in Africa and of the Central Powers bid to widen the war outside Europe

**New Perspectives on the First World War** Mandy Link,Matthew M. **Model Cases** Monika Krause,2021-09-03 In Model Cases Monika Krause asks about the concrete material research objects behind shared conversations about classes of objects periods and regions in the social sciences and humanities It is well known that biologists focus on particular organisms such as mice fruit flies or particular viruses when they study general questions about life development and disease Krause shows that scholars in the social sciences and humanities also draw on some cases more than others selecting research objects influenced by a range of ideological but also mundane factors such as convenience historicist ideas about development over time schemas in the general population and schemas particular to specific scholarly communities Some research objects are studied repeatedly

and shape our understanding of more general ideas in disproportionate ways The French Revolution has profoundly influenced our concepts of revolution of citizenship and of political modernity just like studies of doctors have set the agenda for research on the professions Based on an extensive analysis of the role of model cases in different fields Krause argues that they can be useful for scholarly communities if they are acknowledged and reflected as particular objects she also highlights the importance of research strategies based on neglected research objects and neglected combinations of research objects and scholarly concerns

**Disorderly Women and the Order of God** Michele A. Connolly,2018-04-19 Michele A Connolly s postcolonial analysis links the Gospel of Mark produced in the context of the Roman Empire with contemporary Australia established

initially as a colony of the British Empire Feminist analysis of texts from two foundational events in Australian colonial history reveal that women in such texts tend to be marginalised silenced and denigrated Connolly posits that imperialist sexism both ancient and modern perceives women as a threat to the order that males alone can impose on the world The Gospel of Mark portrays Jesus bringing the order of the Reign of God to combat the disorder of apocalyptic evil Jesus task is a markedly male project against which eleven female characters are portrayed as disorderly distractions who are managed by being marginalised silenced and denigrated contradicting Jesus message of mutual service and non domination In his death under apocalyptic power Jesus is likewise depicted as isolated silenced and denigrated subtly associating femininity with chaos failure and disgrace Monty and Rommel Peter Caddick-Adams,2013-09-24 An accessible well honed study of two

fascinating characters who famously fought each other in numerous battles during WWII from Egypt to D Day Kirkus Bernard Montgomery and Erwin Rommel faced one another in a series of extraordinary battles that established each man as one of the greatest generals in history Born four years apart their lives were remarkably similar Each came from provincial roots nearly died in WWI yet emerged from that great conflict with glowing records Through their many duels including their legendary conflicts in North Africa and later at the Normandy D Day invasion Peter Caddick Adams tracks and compares their military talents and personalities Monty and Rommel explores how each general was raised to power by their war leaders Churchill and Hitler and how the innovative military strategy and thought of both permeate down to today s armies
