First Orchid For Pat:

The Chicago of Fiction James A. Kaser, 2011-02-01 The importance of Chicago in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians. While databases of bibliographical information on Chicago-centered fiction are available, they are of little use to scholars researching works written before the 1980s. In The Chicago of Fiction: A Resource Guide, James A. Kaser provides detailed synopses for more than 1,200 works of fiction significantly set in Chicago and published between 1852 and 1980. The synopses include plot summaries, names of major characters, and an indication of physical settings. An appendix provides bibliographical information for works dating from 1981 well into the 21st century, while a biographical section provides basic information about the authors, some of whom are obscure and would be difficult to find in other sources. Written to assist researchers in locating works of fiction for analysis, the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies, i.e., class, ethnicity, gender, immigrant experience, and race. The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading, particularly since genre, juvenile, and young adult fiction, as well as literary fiction, are included.

First Orchid for Pat Anne Emery, 1957 Pat wants to get married, but her boyfriend goes away to college and they have to wait. She is afraid that he will find somebody else, but she is the one who finds a new interest. But it's acting not another boy. Pat discovers that life is full of choices.

Schreiber, 2012-02-28 The era of the Old Republic is a dark and dangerous time as Jedi Knights valiantly battle the Sith Lords and their ruthless armies. But the Sith have disturbing plans, and none more so than the fulfillment of Darth Scabrous's fanatical dream, which is about to become nightmarish reality. Unlike those other Jedi sidelined to the Agricultural Corps, young Jedi whose abilities have not proved up to snuff, Hestizo Trace possesses one extraordinary Force talent: a gift with plants. Suddenly, her quiet existence among greenhouse and garden specimens is violently destroyed by the arrival of an emissary from Darth Scabrous. For the rare black orchid that she has nurtured and bonded with is the final ingredient in an ancient Sith formula that promises to grant Darth Scabrous his greatest desire. But at the heart of the formula is a never-before-seen virus that's worse than fatal: it doesn't just kill; it transforms. Now the rotting, ravenous dead are rising, driven by a bloodthirsty hunger for all things living and commanded by a Sith Master with an insatiable lust for power and the ultimate prize: immortality, no matter the cost. Features a bonus section following the novel that includes a primer on the Star Wars
