Twentieth edition ... improved by the author Esq. J. GREENLEAF, 1846     **We as Self** Hye Young Kim, 2021-01-28 *We as Self* argues for a notion of we-ness based not on a self-centered or a self-less point of view in which the we is only either a collection of individuals or an anonymous whole but on relation This relation is pre-subjective meaning that the conscious reflective subjective self is not the conceptual basis of the relation The irreducible metaphysical distinction between self and other is always there but the awareness of it is not prior to this relation which is an ontological pre-condition of self Hye Young Kim demonstrates that the distinction and unity of self and other in this relation can be comprehended spatially by applying knot logic The author analyzes certain linguistic practices in Korean to show one representation of pre-subjective we-ness in language but not in an ethnographical manner

By doing so the author criticizes and challenges the Eurocentric tendency of philosophy and contributes to efforts to expand diversity in philosophy      **Linguae Anglicanae clavis, or, Rudiments of English grammar, ed. by C. Heycock** Henry St. John Bullen, 1870
