Expression Of Knowledge Neurobehavioral Transformation Into Action:

The Expression of Knowledge Robert L. Isaacson, Norman E. Spear, 2012-12-06 What we know about the world and its opportunities limits what we do If we do not know that there is a pot of gold at the end of the rainbow we will not follow it If we do not know that a desert cactus contains water we will not cut into it for sustenance Often however we do know things about the world and yet the knowledge does not seem to be reflected in behavior Explaining this fact simply in terms of inadequate motivation for expression or incomplete memory for the important information does not really add much to our understanding The expression of knowledge can be interrupted in very special ways by a variety of more specific conditions fatigue sources of forgetting that may include failure of memory retrieval emotion and various dysfunctions of brain and body systems that are not satisfactorily incorporated by any current theories of motivation or memory Also a dissociation between knowledge and its expression can take the form of applying knowledge without apparent awareness of this action a phenomenon that requires complicated assumptions for explanation in terms of either motivation or memory Dissociations between knowledge and action may be striking After driving home on a familiar route we may not be able to report whether the last three traffic lights were red or green yet we must have responded appropriately to them *Comparative*

Perspectives on the Development of Memory R. V. Kail, Jr., N. E. Spear, 2013-08-21 Published in the year 1984 *Comparative Perspectives on the Development of Memory* is a valuable contribution to the field of Developmental Psychology **1990**
