Country Life and the Sportsman Reginald Townsend Townsend,1938 *Modern Art From Fauvism to Abstract Expressionism* David Sylvester,1956 Fauvism: Biographical and Critical Study Jean Leymarie,1959 **The Irresistible Appeal of the Archaic** Pasquale De Marco,2025-04-17 Embark on a captivating journey into the depths of primitivism a movement that has left an indelible mark on art culture and thought This comprehensive book delves into the allure of the archaic exploring our innate fascination with the past and its profound impact on our understanding of the world Through engaging chapters we uncover the rise of primitivism in art and culture witnessing the rejection of modernism and the rediscovery of indigenous influences We encounter the avant garde and primitivist movements marveling at their radical departure from traditional norms and their embrace of the raw and untamed We also examine the primitivist critique of modernity its indictment of a world devoid of meaning and purpose Beyond the realm of art we explore the spiritual dimension of primitivism its search for the sacred in the archaic We encounter transformative experiences of individuals who have encountered the numinous in the depths of the primitive gaining a glimpse into the power of these encounters We also delve into the primitivist worldview its holistic understanding of reality that encompasses both the natural and supernatural realms Furthermore we engage with the critics of primitivism those who question its nostalgia for a lost paradise and its romanticized view of indigenous cultures We grapple with the debates surrounding primitivist essentialism violence

irrationalism and elitism seeking to understand the complexities and contradictions of this multifaceted movement We also investigate the impact of primitivism on education and the media examining how these institutions have shaped public perceptions of the archaic We consider the potential of primitivism to contribute to a more sustainable and just world its call for a return to simplicity self sufficiency and harmony with nature This book is an invitation to embark on an intellectual odyssey to question our assumptions about modernity and progress and to explore the enduring allure of the archaic It is a must read for anyone interested in art culture philosophy and the human condition If you like this book write a review on google books

Computational Formalism Amanda Wasielewski, 2023-05-23 How the use of machine learning to analyze art images has revived formalism in art history presenting a golden opportunity for art historians and computer scientists to learn from one another Though formalism is an essential tool for art historians much recent art history has focused on the social and political aspects of art But now art historians are adopting machine learning methods to develop new ways to analyze the purely visual in datasets of art images Amanda Wasielewski uses the term computational formalism to describe this use of machine learning and computer vision technique in art historical research At the same time that art historians are analyzing art images in new ways computer scientists are using art images for experiments in machine learning and computer vision Their research says Wasielewski would be greatly enriched by the inclusion of humanistic issues The main purpose in applying computational techniques such as machine learning to art datasets is to automate the process of categorization using metrics such as style a historically fraught concept in art history After examining a fifteen year trajectory in image categorization and art dataset creation in the fields of machine learning and computer vision Wasielewski considers deep learning techniques that both create and detect forgeries and fakes in art She investigates examples of art historical analysis in the fields of computer and information sciences placing this research in the context of art historiography She also raises questions as which artworks are chosen for digitization and of those artworks that are born digital which works gain acceptance into the canon of high art
