Extended Travels In Romantic America:

Extended Travels in Romantic America Joseph Jobé, 1966 The weather was grey in Lausanne and I was spending the afternoon as I often do in a shop selling old books and prints Leafing through a portfolio of topographical engravings old maps and loose pages from travel books I came upon a print of about 1830 showing New York City I am familiar enough with prints of European cities of this period Usually they are easily identifiable even without a title or a caption either the city looks today very much as it did more than a century ago or at the very least some famous landmark like the Louvre or the Coliseum or Trafalgar Square unmistakably recalls present day Paris or Rome or London But there was nothing familiar whatever about the print that I now held in my hand A charming countrified landscape romantic in the literary sense of the word it contained nothing except its title to link it with the streets and sky line of present day Manhattan Suddenly I realised something which of course is obvious but which I had never before thought of history and change have wrought far different patterns in the Old World and the New Despite the enormous growth and industrialisation that has gone on here a European today can form a fairly clear idea just by looking around him of what his city or town must have looked like a hundred and fifty years ago But in America especially in the great cities nothing of the kind is possible For better or for worse the visual remains of early 19th century America have largely disappeared In the weeks and months that followed I began trying to recreate that lost America as well as I could hunting for diaries and drawings in libraries and museums all over Europe later in the United States too What I wanted were the comments and everyday views of the European visitors who flocked to 19th century America full of prejudices and misconceptions in some cases but always eager to record their opinions of the land and its people and to talk about what they encountered and what they thought of those astonishing and still to be united States Gradually after much research and not a little travel on my part enough material came to light for me to sketch the itinerary of an illustrated journey through the America of a century or more ago seen through the eyes of European visitors This book is the result All the authors included are European that is to say either Continental or British and nearly all the illustrations too were done at the time and by European visitors All the travellers made their journey to the New World in the period between the War of Independence and the War between the States Preface *Extended Travels in Romantic America*

Joseph Jobé, 1966 **Italian Literature Before 1900 in English Translation** Robin Healey, 2011-01-01 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English and published between 1929 and 2008 It lists works from all genres and subjects and includes translations wherever they have appeared across the globe In this annotated bibliography Robin Healey covers over 5 200 distinct editions of pre 1900 Italian writings Most entries are accompanied by useful notes providing information on authors works translators and how the translations were received Among the works by over 1 500 authors represented in this volume are hundreds of editions by Italy's most translated authors Dante Alighieri Niccolò Machiavelli and Giovanni Boccaccio and

other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's *Twentieth Century Italian Literature in English Translation*, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature. Pub desc **Savory Suppers & Fashionable Feasts** Susan Williams, Margaret Woodbury Strong Museum, 1985. In addition to offering a detailed view of the intricate rituals of the dining table and the environment that both supported and shaped those rituals, this book provides menus and recipes for actual nineteenth-century meals. **The Cambridge Companion to Democracy in America** Richard Boyd, 2022-03-24. These essays explore important themes and contemporary legacies of Alexis de Tocqueville's classic work *Democracy in America*. *Geographies of Travel* Susan L. Roberson, 2025-05-01. Travel writing was the most popular genre of writing in the nineteenth century. Initially published in newspapers and journals as dispatches from the road, these works allowed readers to join in on fabulous adventures by becoming armchair tourists, second-hand voyeurs of the peoples and places the writer visited. In order to take readers along on their journeys, travel writers typically recorded miles covered and dates of travel in a log or diary. They also documented key details of the experience itself, describing the conditions of the road, the people they met, and their accommodations, food, and clothing. The nineteenth century specifically offered a form of travel writing that commented on the ruined environment that ran afoul of the century's ethos of progress, with voices such as Henry David Thoreau, John Muir, and John James Audubon exploring a newfound environmental consciousness. *Geographies of Travel* is organized geographically by region, with essays examining local journeys in the Northeast, Midwest, Far West, and the South. This regional arrangement allows readers to consider the geographic imagination of each region and the kinds of travel it invited, as well as providing valuable insight on the ways in which Americans reacted to both natural and social regional landscapes. Each region is treated chronologically so as to interrogate not only individual narratives but also the ways that travel, tourism, and modes of transportation evolved over time. The work concludes with an examination of Henry James's *The American Scene* in a coda that brings together his astute observations of the Northeast and the South at the turn of the century. Occasional interludes point to the ways that travel reverberates in the artistic work of some of the authors, making connections between travel and the imagination.

Romantic Geographies Amanda Gilroy, 2000. This first book-length study explores the history of postwar England during the end of empire through a reading of novels which appeared at the time, moving from George Orwell and William Golding to Penelope Lively, Alan Hollinghurst, and Ian McEwan. Particular genres are also discussed, including the family saga, travel writing, detective fiction, and popular romances. All included reflect on the predicament of an England which no longer lies at the centre of imperial power, arriving at a fascinating diversity of conclusions about the meaning and consequences of the end of empire and the privileged location of the novel for discussing what decolonization meant for the domestic English population of the metropole. The book is written in an easy style, unburdened by large sections of abstract reflection. It

endeavours to bring alive in a new way the traditions of the English novel **Travels in the Interior of North America** Maximilian Wied (Prinz von), 1843 Adult Catalog: Authors Los Angeles County Public Library, 1970 *Early Western Travels, 1748-1846* Reuben Gold Thwaites, 1905 **Travels, Explorations and Empires, 1770-1835, Part I Vol 4** Tim Fulford, Peter J Kitson, Tim Youngs, 2021-12-24 A collection of work that attempts to reflect the diversity of travel literature from the late 18th and early 19th centuries This literature often reveals something of the cultural and gender difference of the travellers as well as ideas on colonialism anthropology and slavery *New York Folklore Quarterly*, 1967 Includes music
