Gary Miller, 2012-08-02 This book provides the fullest account ever published of the external influences on English during the first thousand years of its formation In doing so it makes profound contributions to the history of English and of western culture more generally English is a Germanic language but altogether different from the other languages of that family Professor Miller shows how and why the Anglo Saxons began to borrow and adapt words from Latin and Greek He provides detailed case studies of the processes by which several hundred of them entered English He also considers why

several centuries later the process of importation was renewed and accelerated He describes the effects of English contacts with the Celts Vikings and French and the ways in which these altered the language s morphological and syntactic structure He shows how loanwords from French for example not only increased the richness of English derivation but resulted in a complex competition between native and borrowed suffixes Gary Miller combines historical cultural and linguistic perspectives His scholarly readable and always fascinating account will be of enduring value to everyone interested in the history of English

The Internal Impact and External Influence of the Greek Financial Crisis John Marangos,2017-08-03 This contributed volume explores the political economy and socioeconomic aspects of the Greek Financial Crisis both within the country s borders and as part of the global economy With chapters authored by international experts this book examines and explicitly deals with specific and important issues that have been ignored by the dominant socioeconomic theory and practice which have largely focused on the causes and broad economic consequences of the crisis Discussions include the efficacy of new EU institutions created to address the crisis the rise of unregistered economic activity and comparisons with financial crises in countries beyond Europe This diverse collection argues that the Greek Financial Crisis was not just an economic crisis but a political and social crisis as well one with repercussions beyond Europe
