Lean Software Strategies Peter Middleton, James Sutton, 2020-03-06 Lean production which has radically benefited traditional manufacturing can greatly improve the software industry with similar methods and results This transformation is possible because the same overarching principles that apply in other industries work equally well in software development The software industry follows the same industrial concepts of production as those applied in manufacturing however the software industry perceives itself as being fundamentally different and has largely ignored what other industries have gained through the application of lean techniques

Playing The Field Charles C. Euchner, 1994-09-01 Details how owners have shamelessly played cities against one another to get sweetheart deals for their stadiums Sports Illustrated Can a sports franchise blackmail a city into getting what it wants a new stadium say or favorable leasing terms by threatening to relocate In 1982 the owners of the Chicago White Sox pledged to keep the team in Chicago if the city approved a 5 million tax exempt bond to finance construction of luxury suites at Comiskey Park The city council approved it A few years later when Comiskey Park was in need of renovation the owners threatened to move the team to Florida unless a new stadium was built A site was chosen near the old stadium property condemned residents evicted and a new stadium built We had to make threats the owners said If we didn't have the threat of moving we wouldn't have gotten the deal Sports is not a dominant industry in any city this book points out yet it receives the kind of attention one might expect to be lavished on major producers and employers In *Playing the Field* Charles Euchner examines the relationships between Los Angeles and the Raiders Baltimore and the Colts and the Orioles and Chicago and the White Sox arguing that in the absence of public standards for equitable arbitration between cities and teams the sports industry has the ability to steer negotiations in a way that leaves cities vulnerable He reveals what lies behind this leverage and what that says about the urban political process
