Fables Of Subversion:

Fables of Subversion Steven Weisenburger, 1995 Drawing on more than thirty novels by nineteen writers *Fables of Subversion* is both a survey of mid twentieth century American fiction and a study of how these novels challenged the conventions of satire Steven Weisenburger focuses on the rise of a radically subversive mode of satire from 1930 to 1980 This postmodern satire says Weisenburger stands in crucial opposition to corrective normative satire which has served a legitimizing function by generating through ridicule a consensus on values Weisenburger argues that satire in this generative mode does not participate in the oppositional subversive work of much twentieth century art Chapters focus on theories of satire early subversions of satiric conventions by Nathanael West Flannery O Connor and John Hawkes the flowering of Black Humor fictions of the sixties and the forms of political and encyclopedic satire prominent throughout the period Many of the writers included here such as Vladimir Nabokov William Gaddis Kurt Vonnegut Robert Coover and Thomas Pynchon are acknowledged masters of contemporary humor Others such as Mary McCarthy Chester Himes James Purdy Charles Wright and Ishmael Reed have not previously been considered in this context Posing a seminal challenge to existing theories of satire *Fables of Subversion* explores the iconoclastic energies of the new satires as a driving force in late modern and post modern novel writing The Cambridge Companion to Contemporary African American Literature Yogita Goyal, 2023-12-21 This book provides a systematic and vibrant account of the range and achievements of contemporary Black writers

Unvarnishing Reality Derek C. Maus, 2012-10-15 *Unvarnishing Reality* draws original insight to the literature politics history and culture of the cold war by closely examining the themes and goals of American and Russian satirical fiction As Derek C Maus illustrates the paranoia of nuclear standoff provided a subversive storytelling mode for authors from both nations including Thomas Pynchon Robert Coover John Barth Walker Percy Don DeLillo Kurt Vonnegut Jr Vasily Aksyonov Yuz Aleshkovsky Alexander Zinoviev Vladimir Voinovich Fazil Iskander and Sasha Sokolov Maus surveys the background of each nation s culture language sociology politics and philosophy to map the foundation on which cold war satire was built By highlighting common themes of utopianism technology and propaganda Maus effectively shows the ultimate motive of satirists on both sides was to question the various forces contributing to the cold war and to expose the absurdity of the continuous tension that pulsed between the United States and the Soviet Union for nearly half a century Although cold war literature has been studied extensively few critics have focused so keenly on comparisons of satirical fictions by Russian and American writers that condemn and subvert the polarizing ideologies inherent in superpower rivalry Such a comparison reveals thematic and structural similarities that transcend specific national and cultural origins In considering these works together Maus locates a thoroughgoing humanistic refutation of the cold war and its operative doctrines as well as a range of proposed alternatives Just as the cold war combatants ultimately reconciled in 1991 with the fall of the Soviet Union Maus seeks to bring these two literary canons together now Their thematic scope transcends cultural differences and as Maus

demonstrates these writers saw that there was not only the atomic bomb to fear but also the dangers of complete national militarization and the constant polarizing threat of emergency Thus their cold war critiques still resonate today and invite further comparative studies such as this one The Bloomsbury Handbook to Cold War Literary Cultures Greg Barnhisel, 2022-06-30 Adopting a unique historical approach to its subject and with a particular focus on the institutions involved in the creation dissemination and reception of literature this handbook surveys the way in which the Cold War shaped literature and literary production and how literature affected the course of the Cold War To do so in addition to more traditional sources it uses institutions like MFA programs university literature departments book review sections of newspapers publishing houses non governmental cultural agencies libraries and literary magazines as a way to understand works of the period differently Broad in both their geographical range and the range of writers they cover the book s essays examine works of mainstream American literary fiction from writers such as Roth Updike and Faulkner as well as moving beyond the U S and the U K to detail how writers and readers from countries including but not limited to Taiwan Japan Uganda South Africa India Cuba the USSR and the Czech Republic engaged with and contributed to Anglo American literary texts and institutions Modernism, Satire and the Novel Jonathan Greenberg, 2011-09-15 In this groundbreaking study Jonathan Greenberg locates a satiric sensibility at the heart of the modern By promoting an antisentimental education modernism denied the authority of emotion to guarantee moral and literary value Instead it fostered sophisticated detached and apparently cruel attitudes toward pain and suffering This sensibility challenged the novel s humanistic tradition set ethics and aesthetics into conflict and fundamentally altered the ways that we know and feel Through lively and original readings of works by Evelyn Waugh Stella Gibbons Nathanael West Djuna Barnes Samuel Beckett and others this book analyzes a body of literature late modernist satire that can appear by turns aloof sadistic hilarious ironic and poignant but which continually questions inherited modes of feeling By recognizing the centrality of satire to modernist aesthetics Greenberg offers not only a new chapter in the history of satire but a persuasive new idea of what made modernism modern

Fairy Tales and the Art of Subversion Jack Zipes, 2007-05-07 The fairy tale may be one of the most important cultural and social influences on children s lives But until *Fairy Tales and the Art of Subversion* little attention had been paid to the ways in which the writers and collectors of tales used traditional forms and genres in order to shape children s lives their behavior values and relationship to society As Jack Zipes convincingly shows fairy tales have always been a powerful discourse capable of being used to shape or destabilize attitudes and behavior within culture For this new edition the author has revised the work throughout and added a new introduction bringing this classic title up to date **Satire as the Comic Public Sphere** James E. Caron, 2021-04-19 Stephen Colbert Samantha Bee John Oliver and Jimmy Kimmel these comedians are household names whose satirical takes on politics the news and current events receive some of the highest ratings on television In this book James E Caron examines these and other satirists through the lenses of humor studies cultural theory

and rhetorical and social philosophy arriving at a new definition of the comic art form Tracing the history of modern satire from its roots in the Enlightenment values of rational debate evidence facts accountability and transparency Caron identifies a new genre truthiness satire He shows how satirists such as Colbert Bee Oliver and Kimmel along with writers like Charles Pierce and Jack Shafer rely on shared values and on the postmodern aesthetics of irony and affect to foster engagement within the comic public sphere that satire creates Using case studies of bits parodies and routines Caron reveals a remarkable process when evidence based news reporting collides with a discursive space asserting alternative facts the satiric laughter that erupts can move the audience toward reflection and possibly even action as the body politic in the public sphere With rigor humor and insight Caron shows that truthiness satire pushes back against fake news and biased reporting and that the satirist today is at heart a citizen albeit a seemingly silly one This book will appeal to anyone interested in and concerned about public discourse in the current era especially researchers in media studies communication studies political science and literary and cultural studies

States of Disconnect Adhira Mangalagiri, 2023-01-24 Winner 2025 Anna Balakian Prize International Comparative Literature Association In an interconnected world literature moves through transnational networks crosses borders and bridges diverse cultures In these ways literature can bring people closer together Today as hopes for globalization wane and exclusionary nationalism is on the march can literature still offer new ways of relating with others Comparative literature has long been under the spell of circulation contact connectivity and mobility what if it instead sought out their antitheses *States of Disconnect* examines the breakdown of transnationalism through readings of literary texts that express aversion to pairing ideas of China and India Focusing on practices of comparison Adhira Mangalagiri considers how these texts articulate the undesirability or impossibility of relating with national others tracing portrayals of violence silence and distance She proposes the concept of disconnect a crisis of transnationalism perceptible in moments when a connection is severed interrupted or disavowed Despite their apparent insularity texts of disconnect offer possibilities for relating ethically across national borders while resisting both narrow nationalisms and globalized habits of thought Reading a variety of largely untranslated twentieth century Chinese and Hindi short stories novels and poems Mangalagiri develops three new strategies for comparison friction ellipses and contingency that together comprise a critical vocabulary of disconnect Foregrounding transnationalism's discontents *States of Disconnect* offers a different path by which literary texts can cultivate a critical sensibility for making sense of a world rife with division

Jesting in Earnest Derek C. Maus, 2019-04-02 A critical analysis of Percival Everett's oeuvre through the lens of Menippean satire Percival Everett a distinguished professor of English at the University of Southern California is the author of more than thirty books on a wide variety of subjects and genres Among his many honors are the American Academy of Arts and Letters Literature Award the Huston Wright Legacy Award for Fiction the PEN Center USA Literary Award for Fiction and the Dos Passos Prize in Literature Derek C Maus proposes that the best way to analyze Everett's varied oeuvre is within the framework of

Menippean satire which focuses its ridicule on faulty modes of thinking especially the kinds of willful ignorance and bad faith that are used to justify corruption violence and bigotry In *Jesting in Earnest* Maus critically examines fourteen of Everett's novels and several of his shorter works through the lens of Menippean satire focusing on how it supports Everett's broader aim of stimulating thoughtful interpretation that is unfettered by common assumptions and preconceived notions

Religious Stories in Transformation: Conflict, Revision and Reception Alberdina Houtman, Tamar Kadari, Marcel Poorthuis, Vered Tohar, 2016-10-18 In *Religious Stories in Transformation Conflict Revision and Reception* the editors present a collection of essays that reveal both the many similarities and the poignant differences between ancient myths in Judaism Christianity Islam and modern secular culture and how these stories were incorporated and adapted over time This rich multidisciplinary research demonstrates not only how stories in different religions and cultures are interesting in their own right but also that the process of transformation in particular deserves scholarly interest It is through the changes in the stories that the particular identity of each religion comes to the fore most strikingly

In the Eye of the Animal Patricia Cox Miller, 2018-06-15 Early Christian theology posited a strict division between animals and humans Nevertheless animal figures abound in early Christian literature and art from Augustine's renowned wonder at the agility of the mosquito on the wing to vivid exegeses of the six days of creation detailed in Genesis and when they appear the distinctions between human and animal are often dissolved How asks Patricia Cox Miller does one account for the stunning zoological imagination found in a wide variety of genres of ancient Christian texts In *In the Eye of the Animal* complicates the role of animals in early Christian thought by showing how textual and artistic images and interpretive procedures actually celebrated a continuum of human and animal life Synthesizing early Christian studies contemporary philosophy animal studies ethology and modern poetry Miller identifies two contradictory strands in early Christian thinking about animals The dominant thread viewed the body and soul of the human being as dominical or the crowning achievement of creation animals with their defective souls related to humans only as reminders of the brutish physical form However the second strand relied upon the idea of a continuum of animal life which enabled comparisons between animals and humans This second tendency explains Miller arises particularly in early Christian literature in which ascetic identity the body and ethics intersect She explores the tension between these modes by tracing the image of the animal in early Christian literature from the ethical animal behavior on display in Basil of Caesarea's *Hexaemeron* and the anonymous *Physiologus* to the role of animals in articulating erotic desire and from the idyllic intimacy of monks and animals in literature of desert ascetism to early Christian art that envisions paradise through human animal symbiosis

Fables of the Law Daniela Carpi, Marett Leiboff, 2016-10-24 The latest development concerning the metaphorical use of the fairy tale is the legal perspective The law had and has recourse to fairy tales in order to speak of the *nomos* and its subversion of the politically correct and of the various means that have been used to enforce the law Fairy tales are a fundamental tool to examine legal

procedures and structures in their many failings and errors Therefore we have privileged the term fables of the law just to stress the ethical perspective they are moral parables that often speak of justice miscarried and justice sought Law and jurists are creators of fables on the view that law is born out of the facts ex facto ius oritur so that there is a need for narrative coherence both on the level of the case and the level of legislation or turned the other way around what does it mean if no such coherence is found This is especially of interest given the influx of all kinds of new technologies that are fabulous in themselves and hard to incorporate in traditional doctrinal schemes and thus in the construction of a new reality

What if fairy tale characters lived in New York City What if a superhero knew he was a fictional character What if you could dispense your own justice with one hundred untraceable bullets These are the questions asked and answered in the course of the challenging storytelling in Fables Tom Strong and 100 Bullets the three twenty first century comics series that Karin Kukkonen considers in depth in her exploration of how and why the storytelling in comics is more than merely entertaining Applying a cognitive approach to reading comics in all their narrative richness and intricacy Contemporary Comics Storytelling opens an intriguing perspective on how these works engage the legacy of postmodernism its subversion self reflexivity and moral contingency Its three case studies trace how contemporary comics tie into deep traditions of visual and verbal storytelling how they reevaluate their own status as fiction and how the fictional minds of their characters generate complex ethical thought experiments At a time when the medium is taken more and more seriously as intricate and compelling literary art this book lays the groundwork for an analysis of the ways in which comics challenge and engage

readers minds It brings together comics studies with narratology and literary criticism and in so doing provides a new set of tools for evaluating the graphic novel as an emergent literary form
