Arnold, Johanna Minich, 2018-09-12 This is the first volume to bring together archaeology anthropology and art history in the analysis of pre Columbian pottery While previous research on ceramic artifacts has been divided by these three disciplines this volume shows how integrating these approaches provides new understandings of many different aspects of Ancient American societies Contributors from a variety of backgrounds in these fields explore what ceramics can reveal about ancient social dynamics trade ritual politics innovation iconography and regional styles Essays identify supernatural and humanistic beliefs through formal analysis of Lower Mississippi Valley Great Serpent effigy vessels and Ecuadorian depictions of the human figure They discuss the cultural identity conveyed by imagery such as Andean head motifs and they analyze symmetry in designs from locations including the American Southwest Chapters also take diachronic approaches methods that track change over time to ceramics from Mexico's Tarascan State and the Valley of Oaxaca as well as from Maya and Toltec societies This volume provides a much needed multidisciplinary synthesis of current scholarship on Ancient American ceramics It is a model of how different research perspectives can together illuminate the relationship between these material artifacts and their broader human culture Contributors Dean Arnold George J Bey III Michael Carrasco David Dye James Farmer Gary Feinman Amy Hirshman Yumi Park Huntington Johanna Minich Shelia Pozorski and Thomas Pozorski Jeff Price Sarahh Scher Dorothy Washburn Robert F Wald

Palaces and Power in the Americas Jessica Joyce Christie, Patricia Joan Sarro, 2010-01-01 Ancient American palaces still captivate those who stand before them Even in their fallen and ruined condition the palaces project such power that according to the editors of this new collection it must have been deliberately

drawn into their formal designs spatial layouts and choice of locations Such messages separated palaces from other elite architecture and reinforced the power and privilege of those residing in them Indeed as Christie and Sarro write the relation between political power and architecture is a pervasive and intriguing theme in the Americas Given the variety of cultures time periods and geographical locations examined within the editors of this book have grouped the articles into four sections The first looks at palaces in cultures where they have not previously been identified including the Huaca of Moche Site the Wari of Peru and Chaco Canyon in the U S Southwest The second section discusses palaces as stage sets that express power such as those found among the Maya among the Coast Salish of the Pacific Northwest and at El Tajín on the Mexican Gulf Coast The third part of the volume presents cases in which differences in elite residences imply differences in social status with examples from Pasado de la Amada the Valley of Oaxaca Teotihuacan and the Aztecs The final section compares architectural strategies between cultures the models here are Farfán Peru under both the Chimú and the Inka and the separate states of the Maya and the Inka Such scope and the quality of the scholarship make *Palaces and Power in the Americas* a must have work on the subject
