Face Of Britain Chiltern Country:

Electoral Pledges in Britain Since 1918 David Thackeray, Richard Toye, 2020-08-04 Nobody doubts that politicians ought to fulfil their promises what people cannot agree about is what this means in practice The purpose of this book is to explore this issue through a series of case studies It shows how the British model of politics has changed since the early twentieth century when electioneering was based on the articulation of principles which it was expected might well be adapted once the party or politician that promoted them took office Thereafter manifestos became increasingly central to electoral politics and to the practice of governing and this has been especially the case since 1945 Parties were now expected to outline in detail what they would do in office and explain how the policies would be paid for Brexit has complicated this process with the will of the people as supposedly expressed in the 2016 referendum result clashing with the conventional role of the election manifesto as offering a mandate for action *The Wood for the Trees* Richard Fortey, 2016-12-06 From the author of *Earth An Intimate History* an exuberant biography of four acres of woodland evoking a cosmos of living and inanimate things and imagining its millennia of existence A few years ago award winning scientist Richard Fortey purchased four acres of woodland in the Chiltern Hills of Oxfordshire England *The Wood for the Trees* is the joyful lyrical portrait of what he found there With one chapter for each month we move through the seasons tree felling in January moth hunting in June finding golden mushrooms in September Fortey along with the occasional expert friend investigates the forest top to bottom discovering a new species and explaining the myriad connections that tie us to nature and nature to itself His textured evocative prose and gentle humor illuminate the epic story of a small forest But he doesn't stop at mere observation *The Wood for the Trees* uses the forest as a springboard back through time full of rich and unexpected tales of the people plants and animals that once called the land home With Fortey's help we come to see a universe in miniature **General catalogue of printed books** British museum. Dept. of printed books, 1931 **Sussex, Kent and Surrey 1939** Richard Wyndham, 2019-12-12 A remarkable and eccentric insight into the south east of England in the pre war period Richard Wyndham's last look round was a tour taken immediately before the Second World War in 1939 and was originally published in the following year as *South Eastern Survey* Wyndham is a very agreeable companion as he travels in his self confessed haphazard way around the counties of Sussex Kent and Surrey Often eccentric but always good fun he drives for the most part on side roads only and through villages and lesser towns A selection of Wyndham's own black and white photographs taken on his expedition are included *Sussex Kent and Surrey 1939* is a wonderful insight into south east of England before the outbreak of the Second World War which brought so much change to the country Wyndham is a superb travel companion who completed the writing as he was called up for active service [The British Library General Catalogue of Printed Books to 1975](#) British Library, 1983 **The English Scene** John Betjeman, 1951 *Bibliography of the Openhym Collection of Modern British Literature and Social History*, Herrick Memorial Library, Alfred University, 1980 *Nature* Sir Norman
