Friend Against Friend:

The Friend, 1879 **The British Friend**, 1869 **Rules of Discipline of the Religious Society of Friends, with Advices** London Yearly Meeting (Society of Friends), 1834 **Friends' Intelligencer**, 1857 *Vindication of Friends*, 1852
Friends' Weekly Intelligencer, 1927 **Close Relationships** Clyde Hendrick, 2000

The authors in the volume extend the reach of their comprehensive reviews into theoretically driven and innovating explorations. The scope of coverage across and within chapters is striking. The developmentalist, the methodologist, the feminist, the contextualist, and the cross culturalist alike will find satisfaction in reading the chapters.

Catherine A. Surra, The University of Texas at Austin: The science of close relationships is relatively new and complex. *Close Relationships: A Sourcebook* represents the growing maturity of this multidisciplinary enterprise. The volume offers 26 chapters organized into four thematic areas: relationship methods, forms, processes, and threats, as well as a foreword and an epilogue. The volume provides a panoramic view of close relationship research as it enters the 21st century, offering highlights from current literature, original research, practical applications, and projections for future research.

Relationship Methods includes both qualitative and quantitative chapters. *Relationship Forms* includes many of the stages, types, and roles that characterize intimate relationships. In a developmental fashion, chapters address social networks, children's friendships, adolescent relationships, adult friendships, and friendships in later life. Chapters on multicultural and multiracial relationships, and gay, lesbian, and bisexual relationships, illustrate the variety of relationship forms that the science of close relationships must consider. The alignments and realignments of traditional family structure are considered in terms of contemporary marriage, divorce, and single parenting, and remarried families.

Relationship Processes includes chapters on emotion, attachment, romantic love, sexuality, intimacy, communication, conflict, social support, and relational maintenance. The important topic of gender concludes the section. The shadow side of human nature is explored in the *Relationship Threats* section, with chapters on infidelity and jealousy, physical and sexual aggression, depression, and loss and bereavement. A foreword by Ellen Berscheid sets the stage for this broad-ranging collection of chapters. Steve Duck and Linda Acitelli conclude with an epilogue that provides a new beginning for the science of close relationships.

The joke is that all the prostitutes go on vacation when the philosophers come to town. The reason that the other conventioners do it, philosophers just talk about it. And talk about sex and love and friendship is what the contributors to this volume do. They talk and argue, split hairs, and clarify, all trying to advance our understanding of this most interesting practice of the human species. Some of the best minds on three continents, from four nations, and eighteen of the United States, discuss such topics as adultery, commitment, cross-dressing, gender politics, date rape, family, friendship,

friends as lovers gayness love marital pluralism marriage prostitution religiously motivated anti queer sentiments same sex marriage seduction and self respect Rather than preach participants probe our attitudes and practices involving these issues with the aim of better understanding the broad range of sexual practices of our species The result is a collection of stimulating essays that can enliven class discussions as well as provide guidance for the sexually perplexed The work is accessible to readers from high school through college and beyond Friends' Review Samuel Rhoads, Enoch Lewis, 1875
