Díaz-Guerrero,2014-07-03 In his quest to understand and describe the behavior of the Mexican the distinguished Mexican psychologist R D az Guerrero combines a strong theoretical interest in the relationship of culture to personality with a pragmatic concern for methodology This collection of essays is rooted both in studies of Mexican psychology as an independent phenomenon and in cross cultural comparisons of Mexicans Mexican Americans and Anglo Americans Dr D az Guerrero discusses Mexican attitudes toward sex roles and the family motivations of the Mexican worker and other topics He compares Mexican and American concepts of respect and analyzes the relation between neurosis and the Mexican family structure He attempts to determine the degree of mental personal and social health of urban Mexicans The importance of basic sociocultural premises such as The mother is the dearest person in existence and The stricter the parents are the better the children turn out is explored In one essay D az Guerrero notes the differences in typical reactions to stress in Mexico and the United States concluding that the American pattern involves active response to stress whereas the Mexican response tends to be more passive Psychology of the Mexican deals with a variety of historical psychological biological social economic and anthropological variables attempting to treat them in a scientific way through the use of carefully constructed questionnaires with detailed statistical analyses of the results On the basis of data obtained in this way the author formulates broad conceptual schemes with immediate application to the understanding of human behavior in real situations He is particularly intrigued by the way the individual relates to the significant people in his environment For the Mexican he says such interpersonal relationships are the most important part of life in contrast to the American insistence on liberty and equality Mexican culture emphasizes affiliation and love      **Cancer Survivorship Sourcebook, 3rd Ed.** James Chambers,2020-03-01 Consumer health information about living with cancer after diagnosis making cancer care decisions coping with complications of treatment and maintaining wellness after

Zentall, 2013-02-21 This concise and practical guide thoroughly presents the characteristics of children with specific mild exceptionalities in today's diverse classroom Using an active problem solving approach that reflects how today's students learn Dr Sydney S Zentall identifies the characteristics of children with mild exceptionalities that can be gleaned from observations written descriptions and personal interactions Unlike many texts on this topic which overwhelm students with extraneous information The text focuses on the characteristics of these students within general education and special class settings With this knowledge readers will better understand the implications of characteristics for accommodations and be ready to apply this knowledge with empirically based interventions      Genius Denied Jan Davidson, Bob Davidson, Laura Vanderkam, 2007-11-01 With all the talk of failing schools these days we forget that schools can fail their brightest students too We pledge to leave no child behind but in American schools today thousands of gifted and talented students fall short of their potential In Genius Denied Jan and Bob Davidson describe the quiet crisis in education gifted students spending their days in classrooms learning little beyond how to cope with boredom as they relearn material they've already mastered years before This lack of challenge leads to frustration underachievement and even failure Some gifted students become severely depressed At a time when our country needs a deep intellectual talent pool the squandering of these bright young minds is a national tragedy There are hundreds of thousands of highly gifted children in the U S and millions more whose intelligence is above average yet few receive the education they deserve Many school districts have no gifted programs or offer only token enrichment classes Education of the gifted is in this sorry state say the Davidsons because of indifference lack of funding and the pernicious notion that education should have a leveling effect a one size fits all concept that deliberately ignores the needs of the gifted But all children are entitled to an appropriate education insist the authors those left behind as well as those who want to surge ahead The Davidsons show parents and educators how to reach and challenge gifted students They offer practical advice based on their experience as founders of a nonprofit organization that assists gifted children They show parents how to become their children's advocates how to win support for gifted students within the local schools and when and how to go outside the school system They discuss everything from acceleration skipping a grade to homeschooling and finding mentors for children They tell stories of real parents and students who overcame poor schooling environments to discover the joy of learning Genius Denied is an inspiring book that provides a beacon of hope for children at risk of losing their valuable gift of intellectual potential      **Against Individualism** Henry Rosemont Jr., 2015-03-25 The first part of Against Individualism A Confucian Rethinking of the Foundations of Morality Politics Family and Religion is devoted to showing how and why the vision of human beings as free independent and autonomous individuals is and always was a mirage that has served liberatory functions in the past but has now become pernicious for even thinking clearly about much less achieving social and economic justice maintaining democracy or addressing the manifold environmental and other

problems facing the world today In the second and larger part of the book Rosemont proffers a different vision of being human gleaned from the texts of classical Confucianism namely that we are first and foremost interrelated and thus interdependent persons whose uniqueness lies in the multiplicity of roles we each live throughout our lives This leads to an ethics based on those mutual roles in sharp contrast to individualist moralities but which nevertheless reflect the facts of our everyday lives very well The book concludes by exploring briefly a number of implications of this vision for thinking differently about politics family life justice and the development of a human centered authentic religiousness This book will be of value to all students and scholars of philosophy political theory and Religious Chinese and Family Studies as well as everyone interested in the intersection of morality with their everyday and public lives Reducing Stress in Schools
