Cardiovascular Eponymic Signs Steven H. Yale, Halil Tekiner, Joseph J. Mazza, Eileen S. Yale, Ryan C. Yale, 2021-04-10 This book proposes a novel learning approach that complements and augments the prevailing method of case based learning Learning these signs requires the application and integration of the fundamental skills of observation palpation percussion and auscultation and in more advanced cases the use of maneuvers performed at the patient's bedside The book provides a discussion of the utility of the signs and reviews the mechanism and pathophysiology of related cardiovascular diseases Each chapter discusses eponymic signs for a variety of cardiovascular diseases such as atherosclerosis heart failure hypertension venothromboembolism ischemic heart disease pericarditis and peripheral vascular disease Finding a particular sign during the physical examination enhances clinical suspicion for a specific cardiovascular disease directing physicians to obtain more specific studies to confirm a diagnosis This should lead to the delivery of more efficient care with the potential benefit of lowering health care costs *Cardiovascular Eponymic Signs Diagnostic Skills Applied During the Physical Examination* is an essential resource for physicians and related professionals residents fellows and graduate students in cardiology primary care and internal medicine *The Absolute Realist* Albert Renger-Patzsch, 2023-03-07 This annotated anthology presents the first English translation of German photographer Albert Renger Patzsch's collected writings A towering figure in the history of photography Albert Renger Patzsch 1897-1966 has come to epitomize New Objectivity the neorealist movement in modernist literature film and the visual arts recognized as the signature artistic style of Germany's Weimar Republic Today his images are regularly exhibited and widely considered key influences on contemporary photographers Whether they capture geometrically intricate cacti flooded tidal landscapes stacks of raw materials or imposing blast furnace towers Renger Patzsch's photographs embody what his peer Hugo Sieker termed absolute realism an approach predicated upon the idea that photographers have one task to exploit the camera's unique capacity to document with uncompromising detail Not only a photographer Renger Patzsch was also an influential and lucid writer who advocated his unique brand of uncompromising realism in almost a half century's worth of articles essays lectures brochures and unpublished manuscripts addressing photography technology and modernity Drawing on his papers at the Getty Research Institute and other archives *The Absolute Realist* unites in one volume this skillful photographer's ideas about the defining visual medium of modernity

Conflicted American Landscapes David E. Nye, 2021-04-27 How conflicting ideas of nature threaten to fracture America's identity Amber waves of grain purple mountain majesties American invest much of their national identity in sites of natural beauty And yet American lands today are torn by conflicts over science religion identity and politics Creationists believe that the Biblical flood carved landscapes less than 10 000 years ago environmentalists protest pipelines Western

states argue that the federal government's land policies throttle free enterprise Native Americans demand protection for sacred sites In this book David Nye looks at Americans irreconcilably conflicting ideas about nature A landscape is conflicted when different groups have different uses for the same location for example when some want to open mining sites that others want to preserve or when suburban development impinges on agriculture Some landscapes are so degraded from careless use that they become toxic anti landscapes Nye traces these conflicts to clashing conceptions of nature ranging from pastoral to Native American to military industrial that cannot be averaged into a compromise Nye argues that today's environmental crisis is rooted in these conflicting ideas about land Depending on your politics global warming is either an inconvenient truth or fake news America's contradictory conceptions of nature are at the heart of a broken national consensus The Alcalde, 2009-07 As the magazine of the Texas Exes The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years The Alcalde serves as an intellectual crossroads where UT's luminaries artists engineers executives musicians attorneys journalists lawmakers and professors among them meet bimonthly to exchange ideas Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater The magazine's unique name is Spanish for mayor or chief magistrate the nickname of the governor who signed UT into existence was The Old Alcalde *A Clinical Lens on Pediatric Engineering* Jamie Leigh Wells, 2025-04-29 A Clinical Lens on Pediatric Engineering Pioneering Science and Technology for Cutting Edge Patient Care explores the depth and breadth of the newly applied science of pediatric engineering and its dawning era Placing into context the origins of pediatric medicine and engineering this deep dive into and beyond medical digital to device innovation integrates scientific rigor with clinical perspective incorporating case examples of diagnostic and therapeutic breakthroughs cautionary tales and lessons in translation The book begins by explaining the unique considerations of the developing child and the importance of including nuanced end user and human factors early and often in the process of seeking biomedical solutions It provides an overview of this population's diverse and dynamic biopsychosocial characteristics compared to adults contrasting organ systems cognitive maturation bioethics growth and drug metabolism A distinguished team of contributors supplies a comprehensive blueprint for transforming an idea through to clinical implementation featuring the ever expanding influences and intricacies of discovery The book covers a wide array of topics including fetal intervention transplantation regenerative medicine addiction ophthalmology surgery e.g. minimally invasive orthopedic cancer nanotechnology radiology imaging modalities gene therapy artificial intelligence AI machine learning liquid biopsy immersive technologies e.g. augmented and virtual reality neurodiversity rare disease critical care robotics materials science and tissue engineering The design challenges specific to children's hospitals and healthcare facilities are discussed highlighting the flexibility needed to achieve optimal patient outcomes gather meaningful data and drive innovative progress This landmark work calls on key stakeholders to address the obstacles related to funding practices clinical trials and other impediments that hinder the timely and safe

delivery of life altering and life saving results It provides child health innovators with the essential tools to bridge these gaps and drive transformation in the rapidly evolving landscape of pediatric care
