Living Things Need Water Bobbie Kalman,2008 Introduces the importance of water to all life on earth **Frog** Isabel

Thomas,2025-05-15 If frogs come from eggs and eggs come from frogs, where did the first frog come from? This is the incredible story of how frogs came to be. To find out, we go all the way back to the very beginning. Before frogs, dinosaurs, planet Earth, before even the stars existed, back 13.7 billion years to the moment just before the universe began. And from there, through Isabel Thomas's beautifully lyrical text and Daniel Egnus's breathtaking illustrations, we are transported through time to the evolution of the very first frogs. The story of frog is an epic, an adventure in space and time. It's a story still being told in every garden, every pond, and every corner of our extraordinary planet. **Living Things for Grades K-2** Jennifer E.
