From a Distance (Timber Ridge Reflections Book #1) Tamera Alexander,2008-06-01 First in a romantic historical series from a bestselling author set in the Colorado Territory during the 1870 s **Seen from a Distance** Paul Hoffman,2012-02 SEEN FROM A DISTANCE is the story of Cusack an Iraq war veteran now working for a private security firm Alienated from his past and haunted by it too he lives determinedly in the here and now His assignment is surveillance of an elderly professor W S Tyler whose dead son in law had ties to a shadowy Senegalese rebel army accused by the U S government of being a terrorist organization Cusack s preferred method of surveillance the detached technology of camera and microphone is abruptly abandoned in favor of a role which puts him in Tyler s classroom and soon thereafter in a complicated relationship with his family Cusack s boss increasingly obsessed with Tyler drags Cusack into his hidden agenda where deadly unforeseen events occur in rapid succession and the situation spins rapidly out of control In the end Cusack is confronted with choices that will change his future as radically as his earlier choices fixed his past Seen From A Distance can be read as a character study or a dramatic adventure or considered for its parallels to political events of the recent past At every level it is a terrific read

BCE-37 CE Ralph Lange,2024-10-17 Roman political leaders used distance from Rome as a key political tool to assert pre eminence Through the case studies of Caesar s hegemony Augustus s autocracy and Tiberius s reign this book examines how these figures experiences and manipulations of absence established a multipolar focus of political life centred less on the city of Rome and more on the idea of a single leader The Roman expansion over Italy and the Mediterranean put the political system under considerable stress and eventually resulted in a dispersal of leadership and a decentralization of power Absent generals rivalled their peers in Rome for influence and threatened to surpass them from the provinces Roman leaders from Sulla to Tiberius used absence as a mechanism to act autonomously but it came at the cost of losing influence and control at the centre In order to hold influence while being split off from the decision making powers of the geographical nucleus that was Rome communication channels to mitigate necessary absences were developed during this period such as travel intermediate meetings letters propaganda writings and a complex network of mediators ultimately forming the circle from which the imperial court emerged Absent leadership as it developed throughout the Late Republic a hitherto neglected issue eventually became a valuable asset in the institutionalising process of the autocracy of Caesar Augustus and Tiberius

Politics at a Distance from the State Lucien van der Walt,Kirk Helliker,2022-08-23 For decades most anti capitalist and anti imperialist movements identified radical transformation with capturing state power The collapse of these statist projects from the 1970s led to a global crisis of left and working class politics But crisis has also opened space for rediscovering alternative society centered anti capitalist modes of bottom up change operating at a distance from the state These have registered important successes in practice such as the Zapatistas in Mexico and Rojava in Syria They have been a key influence on movements from Occupy in United States to the landless in Latin America to anti austerity struggles in Europe and Asia to urban movements in Africa Their lineages include anarchism syndicalism autonomist Marxism philosophers like Alain Badiou and radical popular praxis This path breaking volume recovers this understanding of social transformation long side lined but now resurgent like a seed in the soil that keeps breaking through and growing It provides case studies with reference to South Africa and Zimbabwe and includes a dossier of key texts from a century of anarchists syndicalists

insurgent unionists and anti apartheid activists in South Africa Originating in an African summit of radical academics
 struggle veterans and social movements the book includes a preface from John Holloway Physics Chris Carter,2001
