Salguero, 2014-06-10 The transmission of Buddhism from India to China was one of the most significant cross cultural exchanges in the premodern world This cultural encounter involved more than the spread of religious and philosophical knowledge It influenced many spheres of Chinese life including the often overlooked field of medicine Analyzing a wide variety of Chinese Buddhist texts C Pierce Salguero examines the reception of Indian medical ideas in medieval China These texts include translations from Indian languages as well as Chinese compositions completed in the first millennium C E Translating Buddhist Medicine in Medieval China illuminates and analyzes the ways Chinese Buddhist writers understood and adapted Indian medical knowledge and healing practices and explained them to local audiences The book moves beyond considerations of accuracy in translation by exploring the resonances and social logics of intercultural communication in their historical context Presenting the Chinese reception of Indian medicine as a process of negotiation and adaptation this innovative and interdisciplinary work provides a dynamic exploration of the medical world of medieval Chinese society At the center of Salguero s work is an appreciation of the creativity of individual writers as they made sense of disease health and the body in the context of regional and transnational traditions By integrating religious studies translation studies and literature with the history of medicine Translating Buddhist Medicine in Medieval China reconstructs the crucial role of translated Buddhist knowledge in the vibrant medical world of medieval China Gendering Chinese Religion Jinhua

Jia, Xiaofei Kang, Ping Yao, 2014-07-30 Gendering Chinese Religion marks the emergence of a subfield on women gender and religion in China studies Ranging from the medieval period to the present day this volume departs from the conventional and often male centered categorization of Chinese religions into Confucianism Buddhism Daoism and popular religion It makes two compelling arguments First Chinese women have deployed specific religious ideas and rituals to empower themselves in various social contexts Second gendered perceptions and representations of Chinese religions have been indispensable to the historical and contemporary construction of social and political power The contributors use innovative ways of discovering and applying a rich variety of sources many previously ignored by scholars While each of the chapters in this interdisciplinary work represents a distinct perspective together they form a coherent dialogue about the historical importance intellectual possibilities and methodological protocols of this new subfield **Buddhist Thought** Paul Williams, Anthony

Boucher, Shayne Clarke, 2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism's art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen's many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen's most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India

Buddhist Rituals of Death and Rebirth Rita Langer, 2007-08-07 In Buddhist thought and practice death has always been a central concept This book provides a careful and thorough analysis of the rituals and social customs surrounding death in the Theravada tradition of Sri Lanka Rita Langer describes the rituals of death and rebirth and investigates their ancient origins analyzing social issues of the relationship between monks and lay people in this context This aspect is of particular interest as death rituals are the only life cycle ritual in which Theravada Buddhist monks are actively involved Drawing on early Vedic sutras and Pali texts as well as archaeological and epigraphical material Buddhist Rituals of Death and Rebirth establishes that Sri Lankan rituals are deeply rooted in their pre Buddhist Vedic precursors Whilst beliefs and doctrines have undergone considerable changes over the centuries it becomes evident that the underlying

practices have largely remained stable The first comprehensive study of death rituals in Theravada Buddhist practice this is an important contribution to the fields of Buddhist studies indology anthropology and religious studies Chinese Buddhism and the Scholarship of Erik Zürcher Jonathan A. Silk, Stefano Zacchetti, 2022-11-14 China has a long and complex history of interactions with the world around it One of the most successful imports arguably the most successful before modern times and the impact of the West is Buddhism which since the first centuries of the Common Era has spread into almost every aspect of Chinese life thought and practice Erik Zürcher was one of the most important scholars to study the history of Buddhism in China and the ways in which Buddhism in China gradually became Chinese Buddhism More than half a century after the publication of Zürcher's landmark *The Buddhist Conquest of China* we now have a collection of essays from the top contemporary specialists exploring aspects of the legacy of Zürcher's investigations bringing forward new evidence new ideas and reconsiderations of old theories to present an up to date and exciting expansion and revision of what was arguably the single most influential contribution to date on the history of Chinese Buddhism Contributors are Tim Barrett Stephen R Bokenkamp Funayama Toru Barend ter Haar Liu Shufen Minku Kim Jan Nattier Antonello Palumbo and Nicolas Standaert

Early Buddhist Transmission and Trade Networks Jason Neelis, 2010-11-19 This exploration of early paths for Buddhist transmission within and beyond South Asia retraces the footsteps of monks merchants and other agents of cross cultural exchange A reassessment of literary epigraphic and archaeological sources reveals historical contexts for the growth of the Buddhist saṅgha from approximately the 5th century BCE to the end of the first millennium CE Patterns of dynamic Buddhist mobility were closely linked to transregional trade networks extending to the northwestern borderlands and joined to Central Asian silk routes by capillary routes through transit zones in the upper Indus and Tarim Basin By examining material conditions for Buddhist establishments at nodes along these routes this book challenges models of gradual diffusion and develops alternative explanations for successful Buddhist movement **Daoism Handbook** Livia Kohn, 2018-12-24 Thirty

major scholars in the field wrote this new authoritative guide to the main features and development of Daoism The chapters are devoted to either specific periods or topics such as Women in Daoism Daoism in Korea and Daoist Ritual Music Each chapter rigidly deals with a fixed set of aspects such as history texts worldview and practices Clear markings in the chapters themselves and a detailed index make this volume the most accessible key resource on Daoism past and present **Voice of**

the Buddha Maria Heim, 2018-09-12 What would a Buddhist theory of texts look like through the lens of the 5th century thinker Buddhaghosa In *Voice of the Buddha* Maria Heim reads from the principal commentator editor and translator of the Theravada intellectual tradition yielding fresh insight into all three collections of the early Pali texts Vinaya the Suttas and the Abhidhamma Buddhaghosa considered the Buddha to be omniscient the Buddha's words to be oceanic Every word passage book indeed the corpus as a whole is taken to be endless and immeasurable in Buddhaghosa's view Commentarial practice thus requires disciplined methods of expansion drawing out the endless possibilities for meaning and application

Heim considers Buddhaghosa's theories of texts and follows his practices of exegesis to discover how he explored scripture's infinity. By examining the significance of the immeasurability of scripture in commentarial practice and as a general principle, this book offers new tools to understand the huge scriptural and commentarial literature of the Pali tradition. And by taking seriously a traditional commentator's theory of texts, it beckons us to learn from commentaries themselves how we might read and interpret them and the texts on which they comment.

Materializing Magic Power Wei-Ping Lin, 2020-10-26

Materializing Magic Power paints a broad picture of the dynamics of popular religion in Taiwan. The first book to explore contemporary Chinese popular religion from its cultural, social, and material perspectives, it analyzes these aspects of religious practice in a unified framework and traces their transformation as adherents move from villages to cities. In this groundbreaking study, Wei Ping Lin offers a fresh perspective on the divine power of Chinese deities as revealed in two important material forms: god statues and spirit mediums. By examining the significance of these religious manifestations, Lin identifies personification and localization as the crucial cultural mechanisms that bestow efficacy on deity statues and spirit mediums. She further traces the social consequences of materialization and demonstrates how the different natures of materials mediate distinct kinds of divine power. The first part of the book provides a detailed account of popular religion in villages. This is followed by a discussion of how rural migrant workers cope with challenges in urban environments by inviting branch statues of village deities to the city, establishing an urban shrine, and selecting a new spirit medium. These practices show how traditional village religion is being reconfigured in cities today.
