*Manchurian Railways and the Opening of China: An International History* Bruce Elleman, Stephen Kotkin, 2015-01-28 The railways of Manchuria offer an intriguing vantage point for an international history of northeast Asia Before the completion of the Trans Siberian railway in 1916 the only rail route from the Imperial Russian capital of St Petersburg to the Pacific port of Vladivostok transited Manchuria A spur line from the Manchurian city of Harbin led south to ice free Port Arthur Control of these two rail lines gave Imperial Russia military economic and political advantages that excited rivalry on the part of Japan and unease on the part of weak and divided China Meanwhile the effort to defend and retain that strategic hold against rising Japanese power strained distant Moscow Control of the Manchurian railways was contested in the Russo Japanese War of 1904 5 Japan's 1931 invasion and establishment of the puppet state of Manchukuo the second Sino Japanese War and World War II in Asia and the Chinese civil war that culminated in the Communist victory over the Nationalists Today the railways are critical to plans for development of China's sparsely populated interior This volume brings together an international group of scholars to explore this fascinating history

**Empire in Asia: A New Global History** Brian P. Farrell, Donna Brunero, 2018-09-20 Asia was the principle focus of empire builders from Alexander and Akbar to Chinggis Khan and Qianlong and yet until now there has been no attempt to provide a comprehensive history of empire in the region Empire in Asia addresses the need for a thorough survey of the topic This volume covers the long 19th century commonly seen in terms of high imperialism and the global projection of Western power This volume explores the dynamic volatile and often contested processes by which by the early years of the 20th

century Asian states space and peoples became deeply integrated into the wider dynamics of global reordering Drawing on case studies from across Asia the contributors discuss key themes including ideology concepts of identity religion and politics state building and state formation the relationships between space people and sovereignty the movements of goods money people and ideas and the influence and impact of conflict and military power The two volumes of *Empire in Asia* offer a significant contribution to the theory and practice of empire when considered globally and comparatively and are essential reading for all students and scholars of global imperial and Asian history

**Rise of a Japanese Chinatown** Eric C. Han, 2020-05-11 *Rise of a Japanese Chinatown* is the first English language monograph on the history of a Chinese immigrant community in Japan It focuses on the transformations of that population in the Japanese port city of Yokohama from the Sino Japanese War of 1894 1895 to the normalization of Sino Japanese ties in 1972 and beyond Eric C Han narrates the paradoxical story of how during periods of war and peace Chinese immigrants found an enduring place within a monoethnic state This study makes a significant contribution to scholarship on the construction of Chinese and Japanese identities and on Chinese migration and settlement Using local newspapers Chinese and Japanese government records memoirs and conversations with Yokohama residents it retells the familiar story of Chinese nation building in the context of Sino Japanese relations But it builds on existing works by directing attention as well to non elite Yokohama Chinese those who sheltered revolutionary activists and served as an audience for their nationalist messages Han also highlights contradictions between national and local identifications of these Chinese who self identified as Yokohama ites hamakko without claiming Japaneseness or denying their Chineseness Their historical role in Yokohama s richly diverse cosmopolitan past can offer insight into a future more inclusive Japan

*Lost and Found* Hiraku Shimoda, 2020-05-11 *Lost and Found* offers a new understanding of modern Japanese regionalism by revealing the tense and volatile historical relationship between region and nation in the late nineteenth and early twentieth centuries Aizu a star crossed region in present day Fukushima prefecture becomes a case study for how one locale was estranged from nationhood for its treasonous blunder in the Meiji Restoration yet eventually found a useful place within the imperial landscape Local mythmakers historians memoirists war veterans and others harmonized their rebel homeland with imperial Japan so as to affirm ironically the ultimate integrity of the Japanese polity What was once lost and then found again was not simply Aizu s sense of place and identity but the larger value of regionalism in a rapidly modernizing society In this study Hiraku Shimoda suggests that region which is often regarded as a hard natural place that impedes national unity is in fact a supple and contingent spatial category that can be made to reinforce nationalist sensibilities just as much as internal diversity

**Knowing the Amorous Man** Jamie L. Newhard,2020-05-11 Tales of Ise Ise monogatari is traditionally identified as one of the most important Japanese literary texts of the Heian period 794 1185 Since its enshrinement in the classical literary canon as early as the eleventh century the work has also been the object of intensive study and extensive commentary Its idiosyncratic form 125 loosely connected episodes recounting the life and loves of an anonymous courtier and mysterious authorship have provoked centuries of explication Jamie Newhard s study skillfully combines primary source research with a theoretically framed analysis exploring commentaries from the medieval period into the early twentieth century and situating the text s critical reception within an evolving historical and social context By giving a more comprehensive picture of the social networks and scholastic institutions within which literary scholarship developed and circulated Newhard identifies the ideological methodological and literary issues that shaped the commentators agendas as the audience for classical literature expanded beyond aristocratic circles to include other social groups Her approach illuminates how exegesis of Tales of Ise ultimately reflects shifting historical and social assessments that construct transform and transmit the literary and cultural value of the work over time

**French Banking and Entrepreneurialism in China and Hong Kong** Hubert Bonin,2019-06-07 Many books have addressed the economic and financial history of Hong Kong and the imperialist conflicts in the key Chinese port cities but very few books have explored French initiatives and performance in this area beyond diplomacy geopolitics or cultural issues In this book Hubert Bonin confronts arguments about the great divergence the first globalisation and forms of economic patriotism He gauges the competitive edge of French companies and banks their struggle with British domination HBS

Chartered shipping trade houses hongs and their resistance against competitors from other countries Japan Germany Netherlands Belgium USA or Russia The book delves into studies of management abroad therefore mixing broad geo economic issues with precise business history and deep banking history The connections between French interests in China and Hong Kong and the colony of Indochina are established too A second part of the book is dedicated to the case study of Hong Kong as the British colony acted as a hub for Asian and European interests at the heart of connections with mainland China and some neighbouring territories Indochina etc This is essential reading for academics interested in banking and business history the history of entrepreneurship as well as those involved in the contemporary history of China and Hong Kong in the assessment of world wide geo economic competition between European powers in Asia Great Britain and France and in the first stages of economic modernity along European models in emerging modern China Comparative Entrepreneurship Initiatives C. Usui, 2011-08-31 This book investigates entrepreneurial initiatives in the three largest economies of the world China Japan and the USA It brings together historical institutional and ethnographic approaches and highlights entrepreneurial patterns that result from cultural legal and political forces that facilitate and constrain entrepreneurship *Public Law, Private Practice* Darryl E. Flaherty, 2020-03-17 Long ignored by historians and repudiated in their time practitioners of private law opened the way toward Japan's legal modernity From the seventeenth to the turn of the twentieth century lawyers and their predecessors changed society in ways that first samurai and then the state could not During the Edo period 1600 1868 they worked from the shadows to bend the shogun's law to suit the market needs of merchants and the justice concerns of peasants Over the course of the nineteenth century legal practitioners changed law from a tool for rule into a new epistemology and laid the foundation for parliamentary politics during the Meiji era 1868 1912 This social and political history argues that legal modernity sprouted from indigenous roots and helped delineate a budding nation's public and private spheres Tracing the transition of law regimes from Edo to Meiji Darryl E Flaherty shows how the legal profession emerged as a force for change in modern Japan and highlights its lasting contributions in founding private universities political parties and a national association of lawyers that contributed to legal reform during the twentieth century **Illusory Abiding** Natasha Heller, 2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism Illusory Abiding offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese Buddhism in late imperial China and demonstrates the importance of situating monks as

actors within broader sociocultural fields of practice and exchange

**Remembering Restoration Losers** Michael Wert, 2020-05-11 This book is about the losers of the Meiji Restoration and the supporters who promoted their legacy. Although the violence of the Meiji Restoration is typically downplayed, the trauma was real and those who felt marginalized from the mainstream throughout modern Japan looked to these losers as models of action. Using a wide range of sources from essays by former Tokugawa supporters like Fukuzawa Yukichi to postwar film and lost decade manga, Michael Wert traces the shifting portrayals of Restoration losers. By highlighting the overlooked sites of memory such as legends about buried gold, the awarding of posthumous court rank, or fighting over a disembodied head, Wert illustrates how the process of commemoration and rehabilitation allows individuals a voice in the formation of national history. He argues that the commingling of local memory activists with nationally known politicians, academics, writers, and treasure hunters formed interconnecting memory landscapes that promoted local figures as potential heroes in modern Japan.

**The People's Post Office** Patricia L. Maclachlan, 2020-03-17 In 2001, Prime Minister Koizumi Junichirō launched a crusade to privatize Japan's postal services. The plan was hailed as a necessary structural reform, but many bemoaned the loss of traditional institutions and the conservative values they represented. Few expected the plan to succeed given the staunch opposition of diverse parties, but four years later it appeared that Koizumi had transformed not only the post office but also the very institutional and ideological foundations of Japanese finance and politics. By all accounts, it was one of the most astonishing political achievements in postwar Japanese history. Patricia L. Maclachlan analyzes the interplay among the institutions, interest groups, and leaders involved in the system's evolution from the early Meiji period until 2010. Exploring the postal system's remarkable range of economic, social, and cultural functions and its institutional relationship to the Japanese state, this study shows how the post office came to play a leading role in the country's political development. It also looks into the future to assess the resilience of Koizumi's reforms and consider the significance of lingering opposition to the privatization of one of Japan's most enduring social and political sanctuaries.

**Realms of Literacy** David B. Lurie, 2020-03-17 In the world history of writing, Japan presents an unusually detailed record of transition to literacy. Extant materials attest to the social, cultural, and political contexts and consequences of the advent of writing and reading from the earliest appearance of imported artifacts with Chinese inscriptions in the first century BCE through the production of texts within the Japanese archipelago in the fifth century to the widespread literacies and the simultaneous rise of a full-fledged state in the late seventh and eighth centuries. David B. Lurie explores the complex processes of adaptation and invention that defined the early Japanese transition from orality to textuality. Drawing on archaeological and archival sources varying in content, style, and medium, this book highlights the diverse modes and uses of writing that coexisted in a variety of configurations among different social groups. It offers new perspectives on the pragmatic contexts and varied natures of multiple simultaneous literacies, the relations between languages and systems of inscription, and the aesthetic dimensions of writing. Lurie's

investigation into the textual practices of early Japan illuminates not only the cultural history of East Asia but also the broader comparative history of writing and literacy in the ancient world

*Eating Rice from Bamboo Roots* Jacob Eyferth, 2020-03-23 This book charts the vicissitudes of a rural community of papermakers in Sichuan The process of transforming bamboo into paper involves production related and social skills as well as the everyday skills that allowed these papermakers to survive in an era of tumultuous change The Chinese revolution understood as a series of interconnected political social and technological transformations was Jacob Eyferth argues as much about the redistribution of skill knowledge and technical control as it was about the redistribution of land and political power The larger context for this study is the rural urban divide the institutional social and economic cleavages that separate rural people from urbanites This book traces the changes in the distribution of knowledge that led to a massive transfer of technical control from villages to cities from primary producers to managerial elites and from women to men It asks how a vision of rural people as unskilled has affected their place in the body politic and contributed to their disenfranchisement By viewing skill as a contested resource subject to distribution struggles it addresses the issue of how revolution state making and marketization have changed rural China

**Asian Imperial Banking History** Hubert Bonin, 2015-10-06 When European powers annexed parts of Asia banking systems were an important part of that process The essays in this edited collection are based on original research using primary sources in English French Russian Chinese and Japanese The book as a whole provides new insights into banking in imperial Asia and a platform for further research

**Spectacle and Sacrifice** David Johnson, 2020-03-17 This book is about the ritual world of a group of rural settlements in Shanxi province in pre 1949 North China Temple festivals with their giant processions elaborate rituals and operas were the most important influence on the symbolic universe of ordinary villagers and demonstrate their remarkable capacity for religious and artistic creation The great festivals described in this book were their supreme collective achievements and were carried out virtually without assistance from local officials or educated elites clerical or lay Chinese culture was a performance culture and ritual was the highest form of performance Village ritual life everywhere in pre revolutionary China was complex conservative and extraordinarily diverse Festivals and their associated rituals and operas provided the emotional and intellectual materials out of which ordinary people constructed their ideas about the world of men and the realm of the gods It is David Johnson argues impossible to form an adequate idea of traditional Chinese society without a thorough understanding of village ritual Newly discovered liturgical manuscripts allow him to reconstruct North Chinese temple festivals in unprecedented detail and prove that they are sharply different from the Daoist and Buddhist based communal rituals of South China

**Down a Narrow Road** Jay Dautcher, 2020-03-17 The Uyghurs a Turkic group account for half the population of the Xinjiang region in northwestern China This ethnography presents a thick description of life in the Uyghur suburbs of Yining a city near the border with Kazakhstan and situates that account in a broader examination of Uyghur culture Its four sections explore topics

ranging from family life to market trading from informal socializing to forms of religious devotion Uniting these topics are an emphasis on the role folklore and personal narrative play in helping individuals situate themselves in and create communities and social groups and a focus on how men's concerns to advance themselves in an agonistic world of status competition shape social life in Uyghur communities The narrative is framed around the terms identity community and masculinity As the author shows Yining's Uyghurs express a set of individual and collective identities organized around place gender family relations friendships occupation and religious practice In virtually every aspect of their daily lives individuals and families are drawn into dense and overlapping networks of social relationships united by a shared engagement with the place of men's status competition within daily life in the community

**The Oxford Handbook of Business History** Geoffrey Jones, Jonathan Zeitlin, 2008-01-25 This Handbook provides a state of the art survey of research in business history Business historians study the historical evolution of business systems entrepreneurs and firms as well as their interaction with their political economic and social environment They address issues of central concern to researchers in management studies and business administration as well as economics sociology and political science and to historians They employ a range of qualitative and quantitative methodologies but all share a belief in the importance of understanding change over time The Oxford Handbook of Business History has brought together leading scholars to provide a comprehensive critical and interdisciplinary examination of business history organized into four parts Approaches and Debates Forms of Business Organization Functions of Enterprise and Enterprise and Society The Handbook shows that business history is a wide ranging and dynamic area of study generating compelling empirical data which has sometimes confirmed and sometimes contested widely held views in management and the social sciences The Oxford Handbook of Business History is a key reference work for scholars and advanced students of Business History and a fascinating resource for social scientists in general
