gun designs Eager for a new challenge the club's President Barbicane sets an ambitious goal to build the largest gun in the world powerful enough to shoot a man to the moon Such a gun has never been attempted so the club faces a myriad of challenges including what to make it from where to build it when to shoot it and most importantly how to ensure that a passenger inside the gun's projectile can survive the trip In *From Earth to the Moon* the members of the gun club undertake the engineering challenge and *Around the Moon* follows the three voyagers on their journey to the moon and back ***FROM THE EARTH TO THE MOON & Its Sequel, Around the Moon*** Jules Verne, 2017-10-16 *From the Earth to the Moon* is a humorous science fantasy story written in 1865 by Jules Verne and is one of the earliest entries in that genre It tells the story of three well to do members of a post American Civil War gun club who build an enormous sky facing columbiad and ride a spaceship fired from it to the moon *Around the Moon* is the sequel which continues the trip to the moon which left the reader in suspense after the previous novel Jules Verne 1828-1905 was a French novelist who pioneered the genre of science fiction A true visionary with an extraordinary talent for writing adventure stories his writings incorporated the latest scientific knowledge of his day and envisioned technological developments that were years ahead of their time Verne wrote about undersea air and space travel long before any navigable or practical craft were invented Verne wrote over 50 novels and numerous short stories ***From the Earth to the Moon, and a Trip Around It*** Jules Verne, 2013-12-24 Jules Verne was an incredible visionary His two stories regarding the first attempts by man to leave the surface of the Earth travel across a vast distance and visit our satellite were incredible for the time in which they were written But even more so in that Verne predicted that Florida in the United States would be the point of takeoff and that three men would take part in the journey There are many other surprises in store for the reader and though Verne was incorrect on a few details it is almost as if he had visited his future and witnessed the events This is a combination of the two stories detailing the trip and the return to our planet Eighty illustrations accompany the text This is a fine translation of Verne's original French writings with only minor interference by several editors over the years to standardize spellings and correct a few obvious typos ***From the Earth to the Moon: Direct in Ninety-Seven Hours and Twenty Minutes and a Trip Round It*** Jules Verne, *Adventures of three men accompanied by two dogs shot to the moon in a specially constructed shell from enormous gun* ***From the Earth to the Moon*** Jules Verne, 1905 ***From Passaic to the Moon*** Bob Rosenthal, 2001-11 A series of true adventures is described in the life of Bob Rosenthal one of the aerospace engineers who put the first man on the moon ***How Apollo Flew to the Moon*** W.
