The Vigorous Core of Our Nationality Stanley E. Blake, 2016-01-01 The Vigorous Core of Our Nationality explores conceptualizations of regional identity and a distinct population group known as nordestinos in northeastern Brazil during a crucial historical period Beginning with the abolition of slavery and ending with the demise of the Estado Novo under Getúlio Vargas Stanley E Blake offers original perspectives on the paradoxical concept of the nordestino and the importance of these debates to the process of state and nation building Since colonial times the Northeast has been an agricultural region based primarily on sugar production The area's population was composed of former slaves and free men of African descent indigenous Indians European whites and mulattos The image of the nordestino was for many years linked with the predominant ethnic group in the region the Afro Brazilian For political reasons however the conception of the nordestino later changed to more closely resemble white Europeans Blake delves deeply into local archives and determines that politicians intellectuals and other urban professionals formulated identities based on theories of science biomedicine race and social Darwinism While these ideas served political social and economic agendas they also inspired debates over social justice and led to reforms for both the region and the people Additionally Blake shows how debates over northeastern identity and the concept of the nordestino shaped similar arguments about Brazilian national identity and true Brazilian people

Mayblin, 2010-03-29 Through the ethnography of a Catholic community in Northeast Brazil Maya Mayblin offers a vivid and provocative rethink of gendered portrayals of Catholic life For the residents of Santa Lucia life is conceptualized as a series of moral tradeoffs between the sinful and productive world against an idealized state of innocence conceived with reference to local Catholic teachings As marriage

marks the beginning of a productive life in the world it also marks a phase in which moral personhood comes most actively and poignantly to the fore This book offers lucid observations on how men and women as husbands and wives fathers and mothers negotiate this challenge As well as making an important contribution to the ethnographic literature on morality Christianity and Latin America the book offers a compelling alternative to received portrayals of gender polarity as symbolically all encompassing throughout the Catholic world

Spirits of the Space Age Kelly E. Hayes, 2024 Since its inauguration in 1960 Brazil's capital city Brasília has become an internationally recognized center for eclectic forms of modern mysticism Among the dozens of New Age Spiritist esoteric and occult communities that have sprouted in the city and its environs the most spectacular is the Valley of the Dawn Vale do Amanhecer Equal parts religious movement enchanted

city utopian vision and theatrical spectacle the Valley of the Dawn is a unique psychic ecosystem Community members consider themselves the spiritual descendants of an ancient race of extraterrestrials originally sent to galvanize humanity's cultural and spiritual evolution Wearing dazzling garments that reference their past lives in different cultural eras adherents perform daily ceremonies for karmic redemption and offer spiritual healing services free of charge to the public The Valley of the Dawn was founded by a charismatic spirit medium called Aunt Neiva a widowed mother of four who came to Brasília in 1957 to work in the construction of the new capital city Over two decades Aunt Neiva established a spiritual metropolis that today is home to over 25 000 people and the headquarters of a global religious movement with more than 800 affiliated temples worldwide Spirits of the Space Age details the Valley's historical emergence placing it within the context of mid twentieth century Brazil and explores its imagined world the imaginative and collectively shared representations that foster a common sense of identity meaning and purpose among Valley members Drawing on extensive ethnographic fieldwork it offers a narrative portrait of a new religious movement as seen in and through the lives of Aunt Neiva her most important collaborators and contemporary adherents By presenting a more complete picture of the Valley of the Dawn this book counters the persistent media representations of the Valley as a cult But it also illuminates how religious movements respond to their place and time even as they situate themselves in relationship to imagined otherworlds and times

Technocrats and the Politics of Drought and Development in Twentieth-Century Brazil Eve E. Buckley, 2017-07-28 Eve E Buckley's study of twentieth century Brazil examines the nation's hard social realities through the history of science focusing on the use of technology and engineering as vexed instruments of reform and economic development Nowhere was the tension between technocratic optimism and entrenched inequality more evident than in the drought ridden Northeast sertão plagued by chronic poverty recurrent famine and mass migrations Buckley reveals how the physicians engineers agronomists and mid level technocrats working for federal agencies to combat drought were pressured by politicians to seek out a technological magic bullet that would both end poverty and obviate the need for land redistribution to redress long standing injustices Scientists planned and oversaw huge projects including dam construction irrigation for small farmers and public health initiatives They were Buckley shows sincerely determined to solve the drought crisis and improve the lot of poor people in the sertão Over time however they came to the frustrating realization that despite technology's tantalizing promise of an apolitical means to end poverty political collisions among competing stakeholders were inevitable Buckley's revelations about technocratic hubris the unexpected consequences of environmental engineering and constraints on scientists as agents of social change resonate with today's hopes that science and technology can solve society's most pressing dilemmas including

climate change *Movement Or Market?* Millie Thayer, 2009-10-16 This ethnographic study examines the transnational relations among feminist movements at the end of the twentieth century exploring two differently situated women's organizations in the Northeast Brazilian state of Pernambuco This book takes what some have called global civil society as its object moving beyond both dire predictions and euphoric celebrations to understand how transnational political relationships are constructed and sustained across social and geographical divides It also provides a compelling case study for use in advanced undergraduate and graduate courses in globalization gender studies and social movements

Ekklesia Paul Christopher Johnson, Pamela E. Klassen, Winnifred Fallers Sullivan, 2018-03-13 *Ekklesia* Three Inquiries in Church and State offers a New World rejoinder to the largely Europe centered academic discourse on church and state In contrast to what is often assumed in the Americas the relationship between church and state has not been one of freedom or separation but one of unstable and adaptable collusion *Ekklesia* sees in the settler states of North and South America alternative patterns of conjoined religious and political power patterns resulting from the undertow of other gods other peoples and other claims to sovereignty These local challenges have led to a continuously contested attempt to realize a church minded state a state minded church and the systems that develop in their concert The shifting borders of their separation and the episodic conjoining of church and state took new forms in both theory and practice The first of a closely linked trio of essays is by Paul Johnson and offers a new interpretation of the Brazilian community gathered at Canudos and its massacre in 1896-97 carried out as a joint church/state mission and spectacle In the second essay Pamela Klassen argues that the colonial church/state relationship of Canada came into being through local and national practices that emerged as Indigenous nations responded to and resisted becoming possessions of colonial British America Finally Winnifred Sullivan's essay begins with reflection on the increased effort within the United States to ban Bibles and scriptural references from death penalty courtrooms and jury rooms she follows with a consideration of the political theological pressure thereby placed on the jury that decides between life and death Through these three inquiries *Ekklesia* takes up the familiar topos of church and state in order to render it strange
