*In the Light of Cuyp* Aelbert Cuyp Gainsborough Constable Turner will examine the impact of the Dutch master on British landscape painting In addition to almost thirty of Cuyp's most important paintings from countries such as England and America *In the Light of Cuyp* will for the first time also provide a broad overview of works by British painters inspired by the Dutch artist The exhibition includes more than thirty works by such famous artists as Thomas Gainsborough John Constable and J M W Turner The story of Dordrecht's greatest painter is unique Cuyp was very much a local artist in his day virtually unknown beyond his hometown He lived and worked his entire life in Dordrecht and the buyers of his landscapes came almost exclusively from his birthplace It was only after his death that he was discovered by English collectors and artists From around 1750 there was a veritable Cuyp mania in England The British aristocracy were so captivated by Cuyp's sun drenched landscapes that by around 1800 there were no longer any important works by the Dutch master to be found in the Netherlands A Cuyp was a must have in the great English country house *In the Light of Cuyp* will present many works by British artists including Richard Wilson Thomas Gainsborough John Constable J M W Turner Richard Parkes Bonington Augustus Wall Callcott and John Crome that have never before been shown in the Netherlands Two masterpieces by Cuyp from the British Royal Collection Trust have been generously lent by Her Majesty The Queen Three landscapes by Cuyp from Woburn Abbey that have never before been on display in the Netherlands will also be returning to the city where they were made Museum website **Common Land in English Painting, 1700-1850**

Ian Waites, 2012 An examination of the treatment of common land in the work of English painters at a time when much of it was to disappear forever A most elegantly written book that calmly knocked many entrenched but erroneous notions about British landscape painting firmly on the head Longlisted and commended by the judges of the 2013 William M B Berger prize for British art history During the eighteenth and nineteenth centuries much of England's common land was eradicated by the processes of parliamentary enclosure However despite the fact that the landscape was frequently viewed as unproductive outmoded and unsightly many British landscape painters of the time including Constable Gainsborough and Turner resolutely continued to depict it This book is the first full study of how they did so using evidence drawn not only from art historical

picture analysis but from contemporary poems and novels and the contemporary pamphlets essays and reports that advanced the rhetoric of both agricultural improvement and new theories on landscape aesthetics It highlights a deep rooted social and cultural attachment to the common field landscape and demonstrates that common land played a significant but until now underestimated role in both the history of English art and of the formation of an English national identity reflecting what are still highly sensitive issues of progress nostalgia and loss within the English countryside Recasting common land as a recurrent facet of English culture in the modern period the numerous paintings drawings and prints featured in this book give the reader a comprehensive and evocative sense of what this now almost wholly lost landscape looked like in its hey day Ian Waites is Senior Lecturer in History of Art and Design at the University of Lincoln *British Landscape Painting* Michael Rosenthal, 1982 **Landscape in Britain, C. 1750-1850** Leslie Parris, 1973 V 1 Yankton College a historical sketch by W J McMurtry v 2 Yankton College the second nty five years by E I Stewart **Masters of English Landscape** Laure Meyer, 1995 Presents one hundred and fifty masterpieces by famous artists **The Landscape Paintings of Thomas Gainsborough: Catalogue raisonné** John T. widely acknowledged as one of the masters of eighteenth century art Published to accompany a major exhibition at Tate Britain in the Autumn of 2002 this book demonstrates the sheer range quality and originality of Gainsborough's oeuvre from his engagingly naturalistic landscapes to his glamorous yet highly sophisticated portraits Alongside some of the most familiar images in British art epitomising the elegance and charm of the age are rarely seen examples that contribute a new and perhaps surprising vision of the artist's work     Constable and His Influence on Landscape Painting Charles John Holmes, 1902     **Constable, Gainsborough Turner and the Making of Landscape** Royal Academy of Arts (Great Britain), Andrew Wilton, 2012
