The Impulse of Power Michael W. Kelley, 1998-01-01 **The Christian Betrayal of the United States** Carl Wells, 2010-10-22 The Christian Betrayal of the United States theorizes that 100% of the problems of the United States have their root in the conservative Bible believing Christian church of this country Countless books by liberal Christians or by non Christians have accused the Christian right of being a dangerous segment of our country Following the principles of the Christian right will lead to tyranny so the theory goes The Christian Betrayal of the United States takes a very different tack According to the author the Bible believing Christians have betrayed their country already by their actions in many distinct arenas of life Those who have cursed the Bible believing Christians as being too Christian have got it exactly backward They may curse Christians again when they understand that Christians were not Christian enough The author far from being a liberal Christian or a humanist is a self professed conservative Bible believing Christian He strives to show how his own people have betrayed their nation It is a dark story On the brighter side the author also tries to grope toward a solution of the problems he and his people have caused **Chalcedon Report**, 2003 **The Rise of Western Power** Jonathan Daly, 2013-12-19 The West s history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world The Rise of Western Power charts the West s achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two frighteningly destructive World Wars the Holocaust imperialistic domination and the Atlantic slave trade Adopting a global perspective Jonathan Daly explores the contributions of other cultures and civilizations to the West s emergence Historical geographical and cultural factors all unfold in the narrative Adopting a thematic structure the book traces the rise of Western power through a series of revolutions social political technological military commercial and industrial among others The result is a clear and engaging introduction to the history of Western civilization *Medieval Essays (The Works of Christopher Dawson)* Christopher Dawson, 2012-08-09 Medieval Essays is the mature reflection of one of the most gifted cultural historians of the twentieth century *Environmental Education; Education that Cannot Wait* United States. Contesting Spirit Tyler T. Roberts, 1998-10-19 Challenging the dominant scholarly consensus that Nietzsche is simply an enemy of religion Tyler Roberts examines the place of religion in Nietzsche's thought and Nietzsche's thought as a site of religion Roberts argues that Nietzsche's conceptualization and cultivation of an affirmative self require that we interrogate the ambiguities that mark his criticisms of asceticism and mysticism What emerges is a vision of Nietzsche's philosophy as the enactment of a spiritual quest informed by transfigured versions of religious tropes and practices Nietzsche criticizes the ascetic hatred of the body and this worldly life yet engages in rigorous practices of self denial he sees philosophy as such a practice and affirms the need of imposing suffering on oneself in order to enhance the spirit He dismisses the intoxication of mysticism yet links mysticism power and creativity and describes his own self transcending experiences The tensions in his relation to religion are closely related to that between negation and affirmation in his thinking in general In Roberts's view Nietzsche's transfigurations of religion offer resources for a postmodern religious imagination Though as a master of suspicion Nietzsche with Freud and Marx is an integral part of modern antireligion he has the power to take us beyond the flat modern distinction between the secular and the religious a distinction that at the end of

in the various Afro Trinidadian communities where it first took root The book further explores the implications of the steelband s nationalization in post independence Trinidad and Tobago and contemporary steelband musicians preoccupation with the formally adjudicated annual Panorama competition In discussing the intersection of musical thinking festivity and politics this book connects important questions about the history of the steelband to general questions about the relation between popular culture and nationalism
