Kampuchea provided food and medicine for desperate people subsisting under a totalitarian regime saving the lives of countless Cambodians Second bartering was the riskiest way to obtain food because it was dependent upon the discretion of two or more individuals from different social classes under the threat of violent punishment thereby altering the social dynamics of the camps Finally despite the regime s extreme efforts to eliminate foreign influence from the country and impose communist ideology on millions of citizens basic forms of market capitalism and a demand for superfluous luxury goods persisted in labor camps throughout the country A fascinating study of the human consequences of imposing rigid ideology that will be of particular interest to scholars and students of political history and Southeast Asian history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

How I Clobbered Every Cash-Confiscatory Agency Known To Man M.E. Croft, *Barter, Exchange and Value* Caroline Humphrey, Stephen Hugh-Jones, 1992-06-11 This book concerns barter a transaction in which objects are exchanged directly for one another without the use of money Economists treat barter as an inefficient alternative to market exchange and assume that it is normal only in primitive economies or marks the breakdown of more developed exchange mechanisms For their part anthropologists have been more interested in the social and moral complexities of the gift and treat barter

dismissively as mere haggling The authors of this collection do not accept that barter occupies a residual space between monetary and gift economies Using accounts from different parts of the world they aim to demonstrate that it is more than a simple and self evident economic institution Barter may constitute a mode of exchange with its own social characteristics occupying a specific moral space This novel treatment of barter represents an original and topical addition to the literature on economic anthropology

Will I Live Tomorrow? Sonia Nassery Cole, 2012-10-16 When Sonia Nassery Cole set out to film *The Black Tulip* in her homeland of Afghanistan she knew the odds were against her she was told time and time again that filming inside a war zone would be impossible What she didn't anticipate was how intent the Taliban and its sympathizers were on halting the film's production the crew encountered extortion government corruption kidnapping attempts and death threats even with around the clock security Her cinematographer fled after two days and many others followed After 9/11 Cole wrote *The Black Tulip* based on a true story of a real Afghan family The plot was simple After 2001 when the Taliban was routed an Afghan family opened *The Poet's Corner* a restaurant with an open microphone for all to read poetry perform music and tell their stories But the Taliban didn't approve and the family's new found hope proved fleeting as it struggled to maintain the restaurant and its vibrant way of life Selected as Afghanistan's official submission for the Best Foreign Language Film at the 2010 Academy Awards *The Black Tulip* is a modern portrait of Afghanistan that captures the plight and resilience of its people Without financial support from a studio or anyone else Cole self financed the film by mortgaging her home and selling her belongings Then with everything on the line she left for Kabul to make the impossible possible and set out to gather the right people who would risk their lives and willingly be part of the production In *Will I Live Tomorrow* Cole gives an intimate look into what went on behind the scenes of making a controversial film in the heart of a war ravaged country the looming terror the Taliban creates among Afghans everywhere and the challenges and fear the cast and crew faced every day *Will I Live Tomorrow* is a memoir about one woman's struggle to make a difference in a violent world

The Sociology of Economic Life Mark

Granovetter,2018-04-17 This book incorporates classic and contemporary readings in economic sociology and related disciplines to provide students with a broad understanding of the many dimensions of economic life It discusses Max Weber's key concepts in economics and sociology *The Social Life of Money* Nigel Dodd,2016-02-09 A reevaluation of what money is and what it might be Questions about the nature of money have gained a new urgency in the aftermath of the global financial crisis Even as many people have less of it there are more forms and systems of money from local currencies and social lending to mobile money and Bitcoin Yet our understanding of what money is and what it might be hasn't kept pace In *The Social Life of Money* Nigel Dodd one of today's leading sociologists of money reformulates the theory of the subject for a postcrisis world in which new kinds of money are proliferating What counts as legitimate action by central banks that issue currency and set policy What underpins the right of nongovernmental actors to create new currencies And how might new forms of money surpass or subvert government sanctioned currencies To answer such questions *The Social Life of Money* takes a fresh and wide ranging look at modern theories of money One of the book's central concerns is how money can be wrested from the domination and mismanagement of banks and governments and restored to its fundamental position as the claim upon society described by Georg Simmel But rather than advancing yet another critique of the state based monetary system *The Social Life of Money* draws out the utopian aspects of money and the ways in which its transformation could in turn transform society politics and economics The book also identifies the contributions of thinkers who have not previously been thought of as monetary theorists including Nietzsche Benjamin Bataille Deleuze and Guattari Baudrillard Derrida and Hardt and Negri The result provides new ways of thinking about money that seek not only to understand it but to change it
